THE BACKGROUND OF MODERNITY

OUR present modern life wouldn't be so vibrantly brilliant without the background of Europe. European art and culture make the woof of its sophisticated fabric — ... — And it's just as essential in the background of a private life — ... — When you go, travel correctly—on either a White Star, Red Star or Atlantic Transport liner. That is a fitting entree—mingling with men and women of the world—people you enjoy knowing — ... — Being identified with their social and sports life on board is fascinating in itself. * * * *

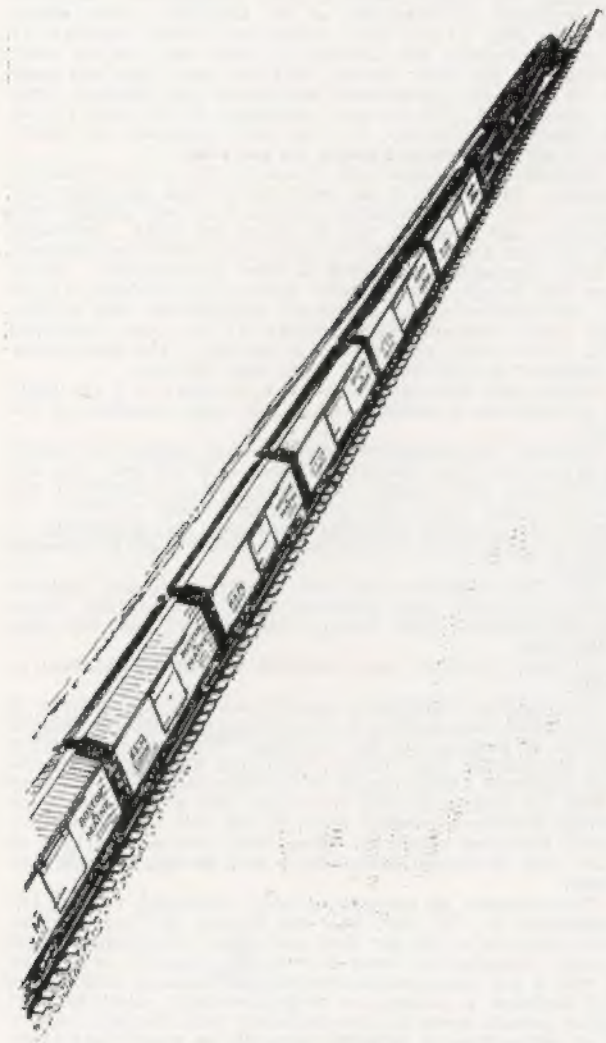
Meeting modern L. C. L. needs in New England



THE shipper depends today as never before upon the promptness and thoroughness with which the railroad meets his needs. In no class of business have his needs become more urgent and exacting than in the handling of L. C. L. freight. In no activity has the *New* Boston and Maine more surely shown itself in step with the times.

★

Through new road speeds, new yard speeds, new modern equipment and faster methods in freight houses, all growing out of Boston and Maine's $71,000,000 improvement program, each new quick delivery requirement of today's business has been met completely.

★

To the Boston and Maine's new fleet of powerful road engines and heavy switchers; to its new car retarder classification yards, with their batteries of mechanical aids to fast car handling; its strengthened bridges and new heavy rail—all contributing to a greatly quickened movement of merchandise shipments in and out of New England—have been added the speeds of 179 motor trucks which in Boston and Maine local territory not only hold but increase the through-movement gains. There have been added, also, freight house machinery and methods which, concentrating and simplifying the handling of merchandise lots, have made forwarding on "the first train out" a foregone conclusion.

★

Inbound at Mechanicville, for instance, through cars are "spotted" hours earlier than ever before at transfer, where the freight house crew is ready at once to break out and reload merchandise into eastbound through cars for same-day forwarding.

★

At Boston and Maine's big concentrated L. C. L. depot at Boston a fleet of tractor trailers and an alert crew accomplish the handling of both inbound and outbound merchandise in a portion of the time formerly required. Here a special night crew rushes the unloading of all inbound shipments to make them available for delivery on the earliest truck trip. Outbound shipments, now discharged at one door instead of a dozen, are as quickly whirled through the great modern freight house, loaded and sent on their way in through cars to 69 off-line and 55 on-line points. Equal dispatch outbound and inbound is the rule at Lawrence—where cars are made for 41 off-line and 26 local points—and at the other modern Boston and Maine transfer stations.

★

No one factor has made this system possible. The concentration of yard, freight house and other facilities and the careful planning of schedules were as necessary as the great improvements in power and line—each element co-ordinating precisely with the other to make the L. C. L. machine a swift-clicking unit, another strong link in the "Minute Man Service" chain of the *New* Boston and Maine.

★

LOW COST PLANTS
are available in New England

New England is the place for that new plant to serve the highly concentrated markets of the eastern seaboard.

The modern buildings pictured above constitute one of a number of plants in New England known to the Industrial Development Bureau of the Boston and Maine Railroad. These buildings, available at exceptionally low cost, offer an unusual opportunity to manufacturers. This one, for instance, built only eight years ago, can be had at less than half the reproduction cost.

The locating of your plant in New England on the Boston and Maine Railroad insures dependable handling under fast schedules, with *Minute Man Service.*

Whether it is a branch plant or the relocation of a present plant; whether for factory purposes or for distribution, the Boston and Maine Industrial Bureau at Boston is organized to aid you in working out details of the most efficient and economical location. Write us.

"MINUTE MAN SERVICE"

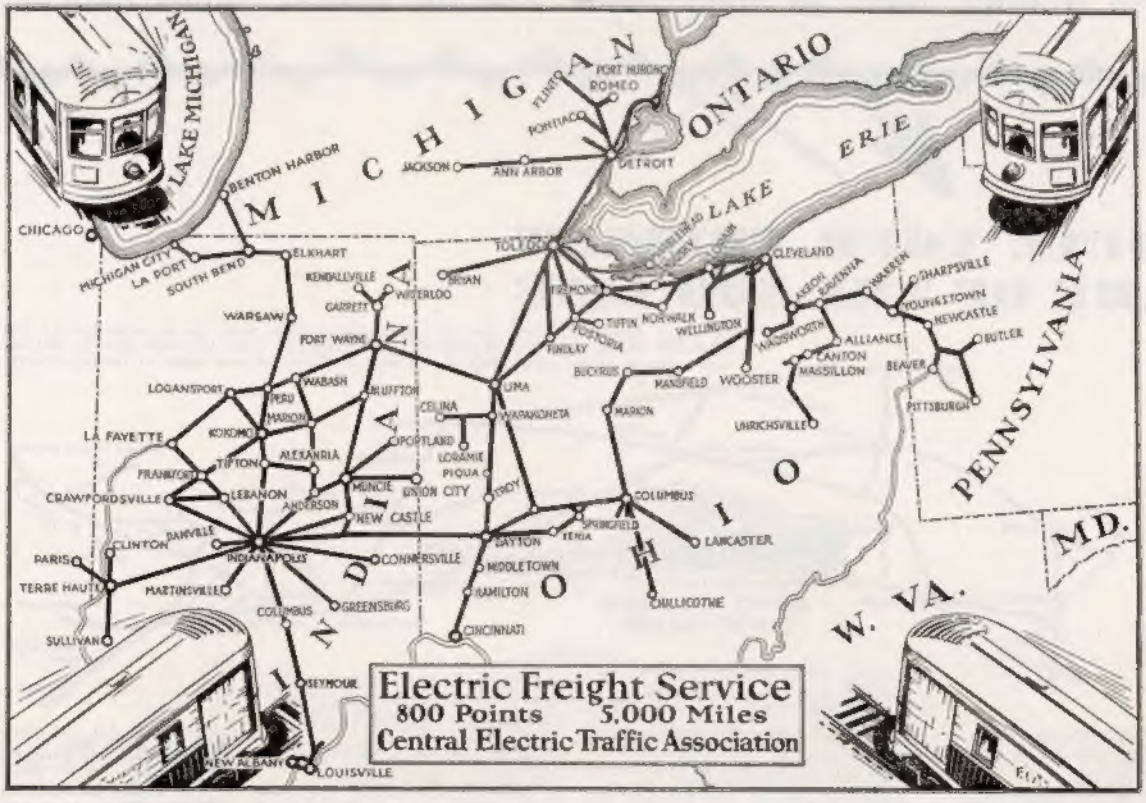
"Fred, let's have a good old fashioned Christmas this year."

Fall Season Is Big Money Time In the Middle West

Business is good in the Middle West, but it is going to be better during the coming fall season. Merchants will need goods quicker. They will want them shipped by the fastest route. That route is electric freight.

Keen shippers will send by electric freight. It covers the Middle-western territory of Indiana, Ohio, lower Michigan, Eastern Pennsylvania and Northern Kentucky like a blanket. Write L. E. Earlywine, Chairman, Central Electric Traffic Association, Terminal Building, Indianapolis, Ind., for details.



Zeppelins OF THE Rails

The New Giant Class "H" Locomotives

35 New Giant Class "H" Locomotives, nearly twice as massive as any now in service, with immense and flexible power which insures smooth starting and easier handling of trains, insuring exceptional comfort to the passenger and faster handling of freight, and fitted with automatic train control equipment.

Again—the "North Western" has proved its determination to give its patrons "*The Best of Everything in the Best of the West.*"

With the Proviso yard, a $16,000,000 project, and the new electrically operated hump and classification yard installed at an additional cost of $750,000, Chicago & North Western Ry. is equipped to handle freight traffic with utmost efficiency.

DECARIE INCINERATOR CORPORATION

342 Madison Avenue

NEW YORK

A SYSTEM FOR THE DISPOSAL OF GARBAGE BY INCINERATION, UNIQUE IN THAT IT IS WATERJACKETED IN DESIGN

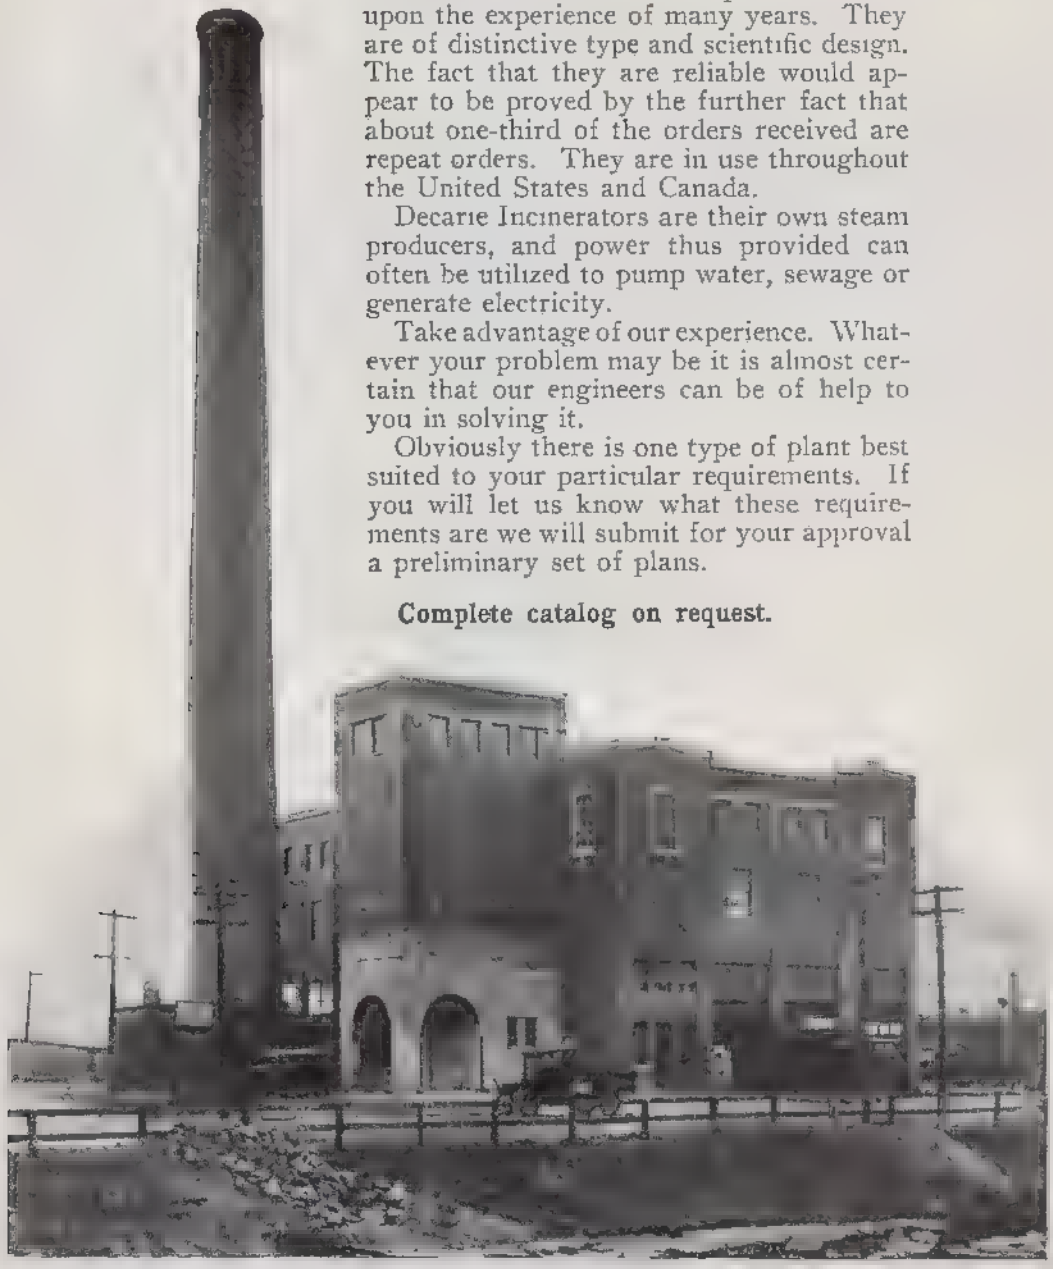
The construction of these plants is based upon the experience of many years. They are of distinctive type and scientific design. The fact that they are reliable would appear to be proved by the further fact that about one-third of the orders received are repeat orders. They are in use throughout the United States and Canada.

Decarie Incinerators are their own steam producers, and power thus provided can often be utilized to pump water, sewage or generate electricity.

Take advantage of our experience. Whatever your problem may be it is almost certain that our engineers can be of help to you in solving it.

Obviously there is one type of plant best suited to your particular requirements. If you will let us know what these requirements are we will submit for your approval a preliminary set of plans.

Complete catalog on request.



160-TON GARBAGE AND RUBBISH INCINERATOR, CITY OF PROVIDENCE, R. I.

Buyers inspecting grapes at Erie's Duane St. Station.

Erie's Duane Street Station. West and Duane Sts., New York.

The Golden Hoard of the Golden State

And now comes early autumn when fruitful California pours her harvest of grapes into the waiting markets of the East. In all varieties by the hundreds of thousands of tons they come.

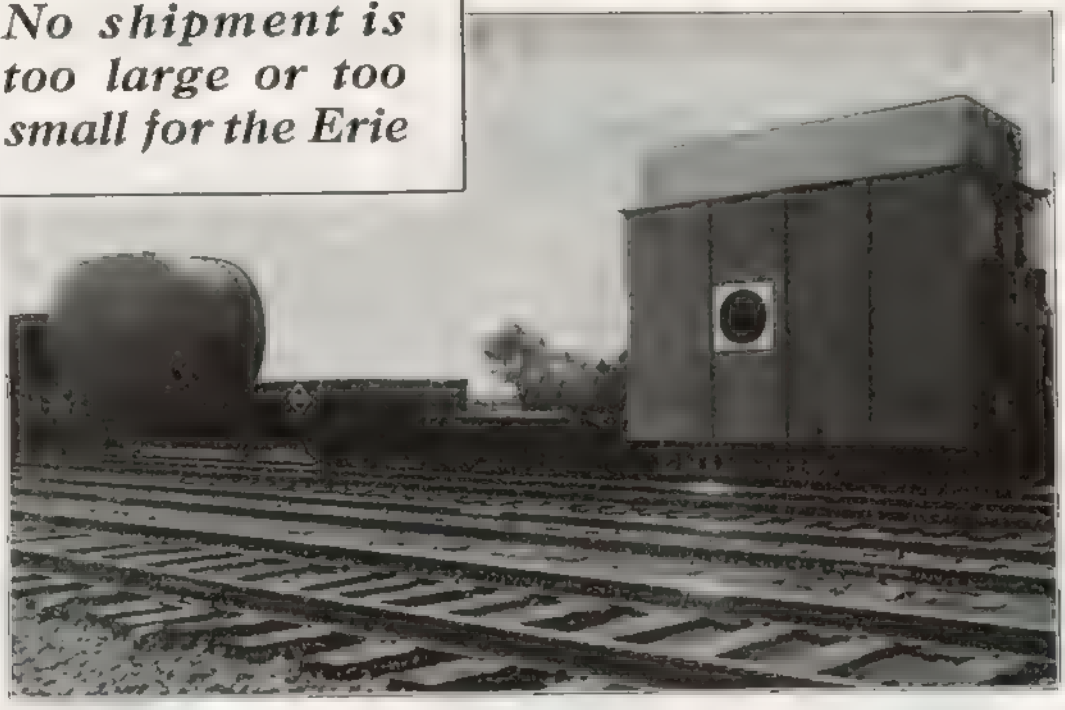
Grapes in their full ripeness are highly perishable. Expeditious handling is all important.

The Erie has every facility for their swift movement. No lost motion. Erie delivers the goods on schedule.

ERIE RAILROAD SYSTEM

Route of The Erie Limited

No shipment is too large or too small for the Erie



THE ERIE WAS EQUIPPED TO HANDLE THE JOB

A manufacturer of Electrical Machinery recently built for delivery in the mountains of New Jersey four monster transformers—each weighing close to 270,000 pounds.

The job of transporting them was a task that called for exceptional rail facilities and equipment.

The Erie with its special, heavy duty well-type cars, its solid road bed, adequate clearances and its staff – trained to handle exceptional tasks took charge of and delivered the shipment on time.

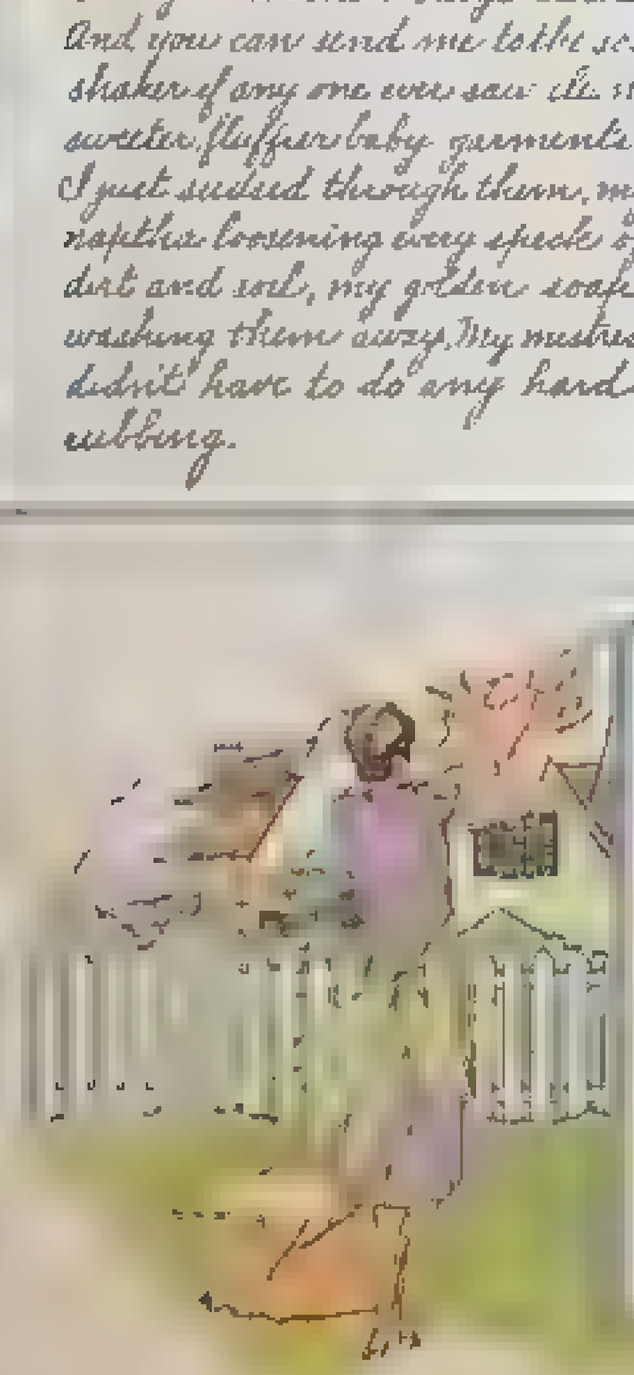
March, 1909

How I grew slender

as written by a bar of Fels-Naptha

Today I washed baby's clothes And you can send me to the scrubbing shaker if any one ever saw cleaner, sweeter, fluffier baby garments. I just sudsed through them, my naptha loosening every speck of dirt and soil, my golden soap washing them away. My mistress didn't have to do any hard rubbing.

Hail and farewell! I'm about to tackle my most important job—the family wash. I'm pretty slender now, but never mind for I still hold my full share of naptha so, when my soapy suds gurgle down the waste-pipe they'll carry dirt a plenty. And my mistress has a big, new bar of Fels-Naptha ready to start in where I leave off!



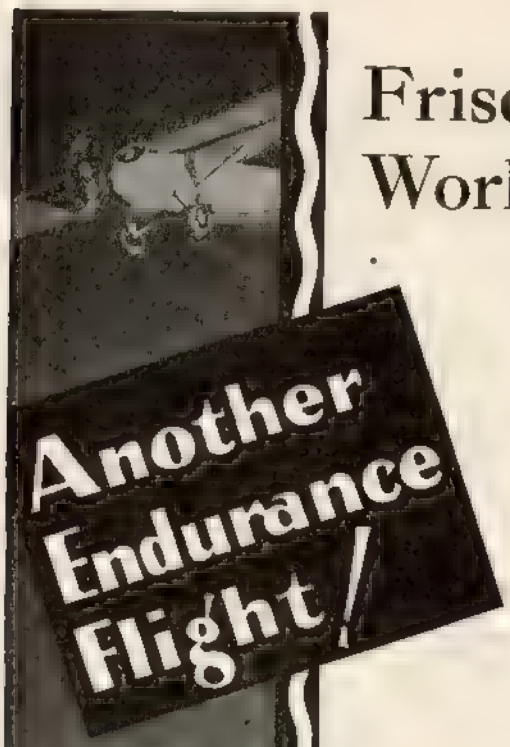
FELS-NAPTHA

THAT'S the way Fels-Naptha grows—smaller. By giving you extra help (Fels-Naptha help of two sorts—clean-smelling naptha and plenty of rich soap) instead of lasting over by the special Fels-Naptha process and working together to make clothes whiter and hands better.

Fels-Naptha for washing clothes and Fels-Naptha soap for washing dishes, bathing and shampooing are sold by grocers everywhere. If you have never used Fels-Naptha soap, ask your grocer for a cake. That will be enough to show you why Fels-Naptha is the most economical soap you can buy. Fels-Naptha is good for the hands, good for the clothes, good for everything it touches. Try it!

Philadelphia

Frisco's No. 4113 Breaks World's Endurance Record



WHILE the Saint Louis Robin was soaring to a new sustained flight record, a long black Mikado type Frisco freight engine was setting a new endurance record for railroad locomotives.

The average locomotive completes a 125 mile run and then has its fire "knocked" and undergoes a general inspection. In 1927 a locomotive performed the then astounding feat of running 3500 miles without shop work or drawn fires. And now Frisco's No. 4113 has just amassed the amazing total of 7350 miles without overhaul—without drawn fires. Never before has a locomotive travelled so far with a fire continuously under her boiler, a train behind her straining drivers.

Day and night for 587 hours this tireless mogul was "Red Balling" meat and merchandise trains between Kansas City and Birmingham, 735 miles each trip, *right on schedule time.*

Such a test emphasizes the fine mechanical condition of Frisco motive power. It also points out the importance of heavy, well laid rails and scientifically maintained roadbed—all of which contributed to the remarkable performance of the 4113.

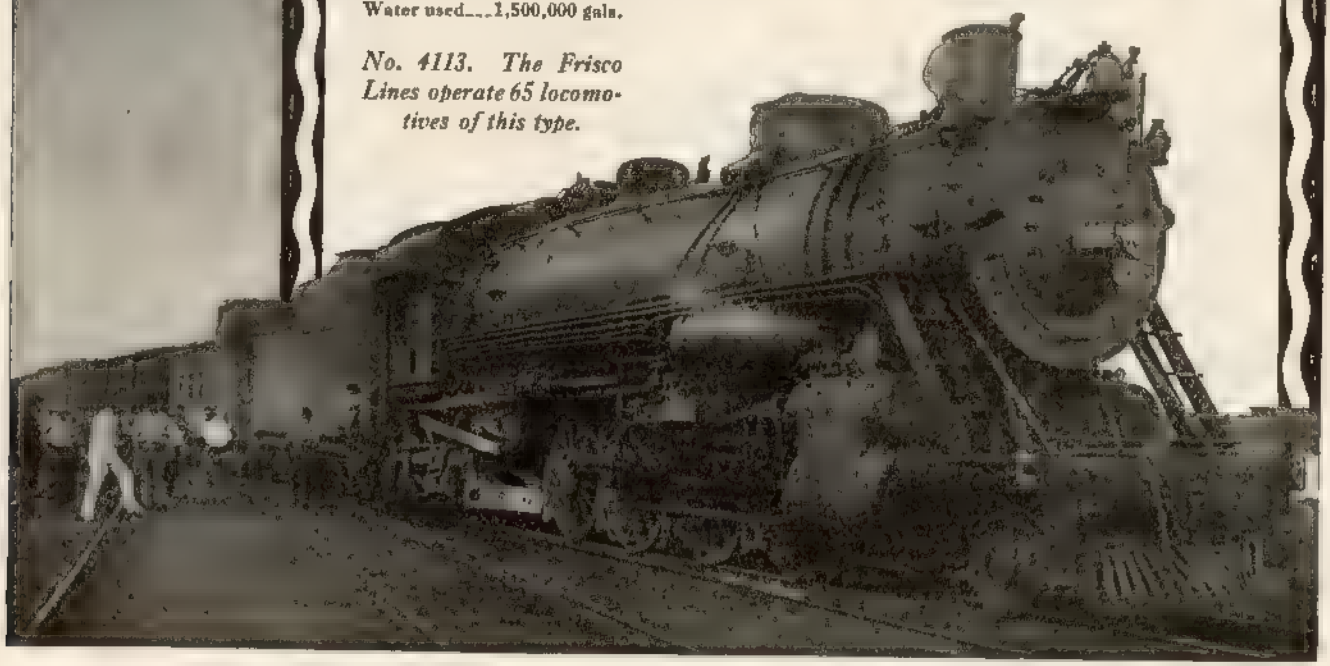
And the net result is something far more important than just another record—for it is confidently hoped that this remarkable test will point the way to economies that will help set new high standards in service via Frisco Lines.

S. S. Butler, General Traffic Manager, St. Louis, Mo.

FRISCO LINES

Distance covered—7350 miles
Previous record—3500 miles
Average run of a locomotive — 125 miles
Coal consumed — 975 tons
Water used—1,500,000 gals.

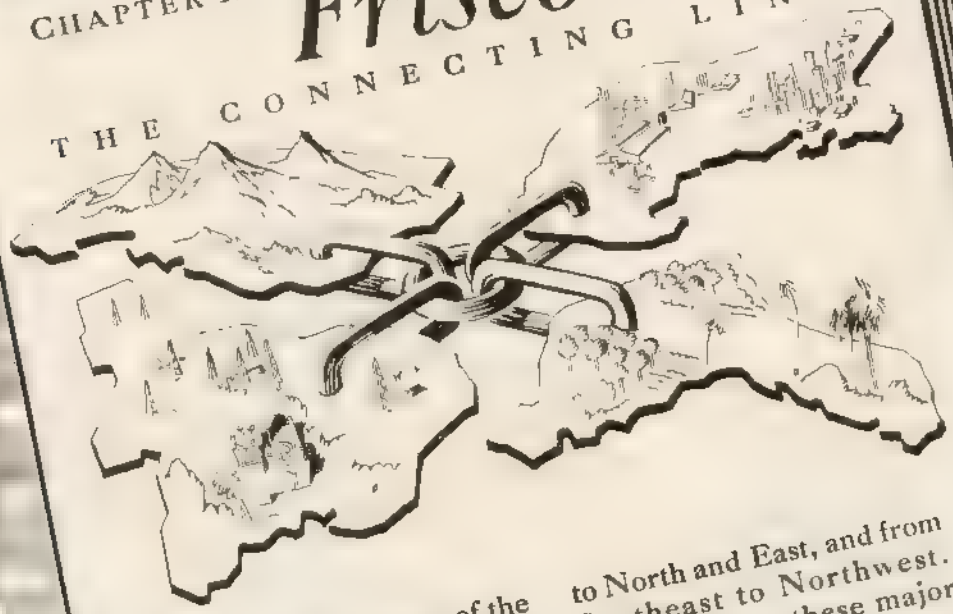
No. 4113. The Frisco Lines operate 65 locomotives of this type.



CHAPTER IX

Frisco-land

THE CONNECTING LINK



WHEN the markets of the west are calling for Florida's grapefruit; when Midwest travelers decide to bask in Florida's brilliant winter sun; when the Southwest interchanges its wealth in oil, cotton and grain for the products of the North and East—the Frisco Lines provide the ideal connecting link between these far distant points.

In long diagonals important Frisco rights-of-way span Frisco-land from Southwest to North and East, and from Southeast to Northwest. Supplementing these major routes of thru travel is a network of other Frisco mileage making a grand total of more than 5800 miles of rail. Over these traffic arteries thunder some of America's most famous freight and passenger trains—fast scheduled, excellently equipped. Whenever you or your goods must move into or thru Frisco-land, it will be worth your while to specify "via Frisco Lines."

S. S. Butler, General Traffic Manager

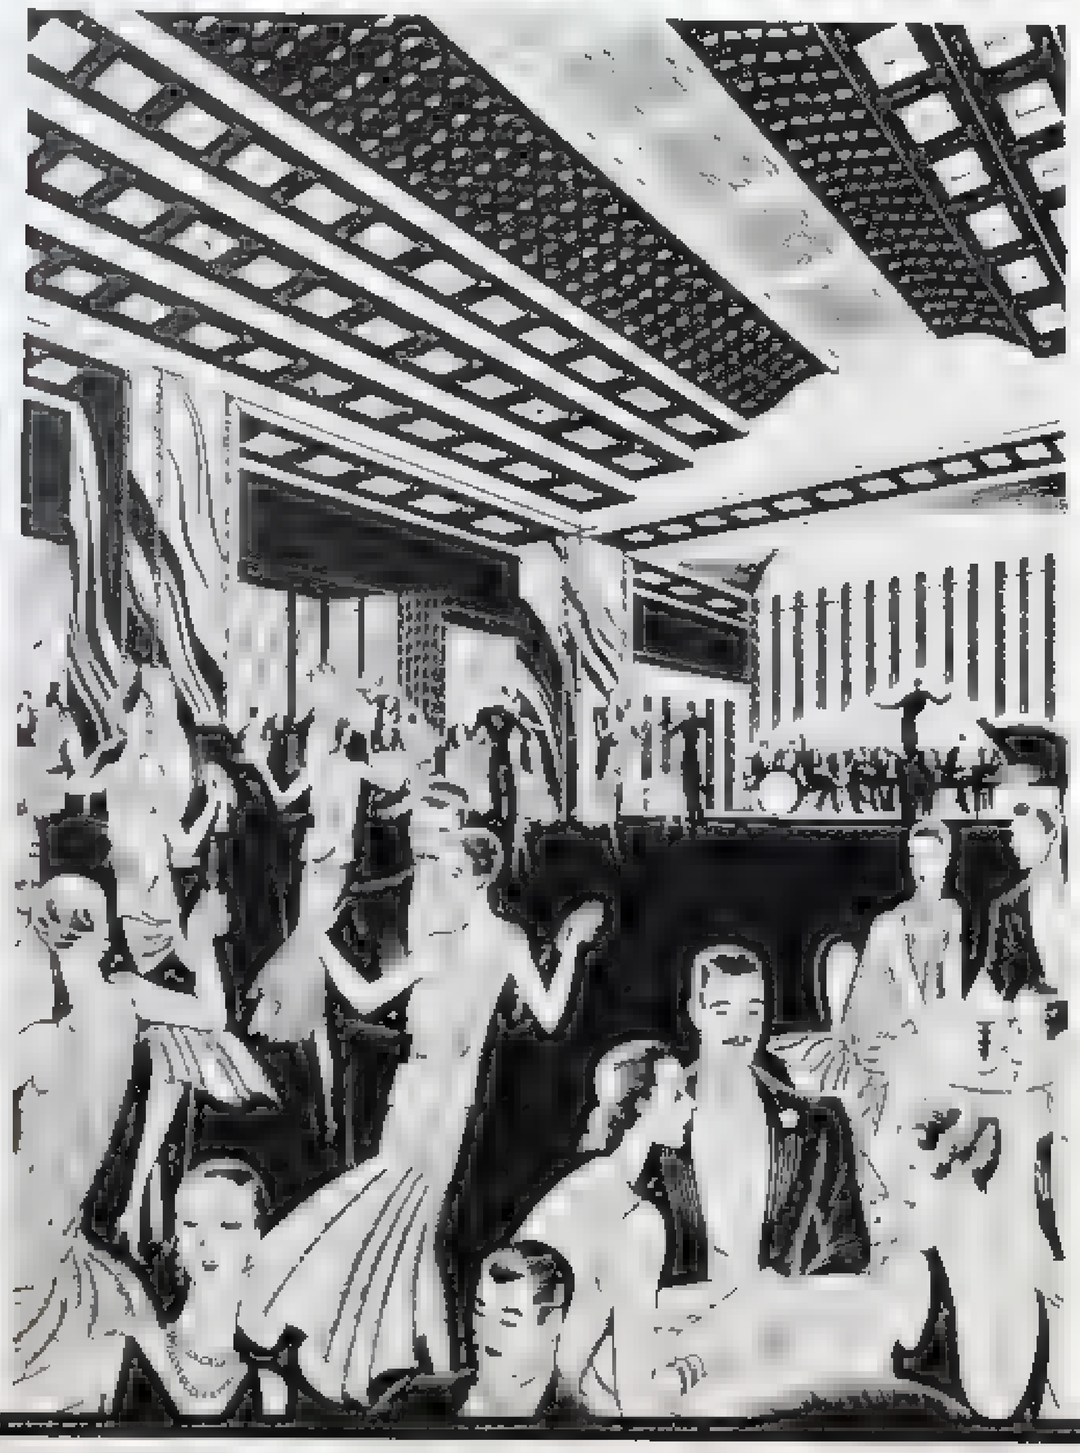
NEW YORK CITY

HOTEL ST. REGIS



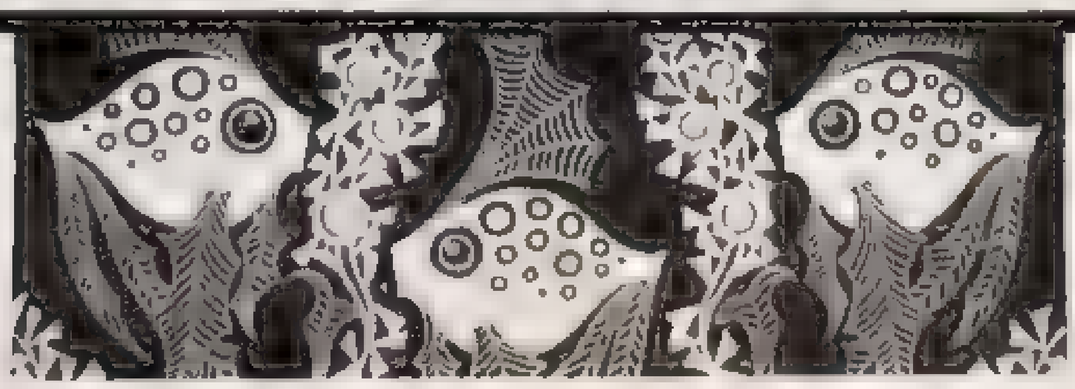
In the heart of a greater Hotel St. Regis...the Seaglade, New York's latest setting for its nights of smarter carnival. Here, Lopez wields his baton over the hush and swell of his dance melodies. Here, Urban's gorgeous fantasy borrows shimmering emerald-golds from a tropic-sea vale...The Seaglade, the Roof, the Salle-Cathay, three new backgrounds, three different moods, for dancing and dining at the St. Regis. Like the lovely 330-room New Addition, they are signal parts in the expansion of the St. Regis, with its established graciousness and charm, to large-hotel proportions. Suites...short or long-term leases. By-the-day accommodations...at rates hitherto unavailable at the St. Regis.

East 55th Street, Cor. Fifth Ave., New York

HOTEL ST. REGIS

NEW YORK

THE SEAGLADE opens Oct. 9th for its second brilliant season. Once more, it assumes that subtle responsibility of being the locale for smart New York's evening carnival. Once more, a unique gaiety . . . groomed and poised . . . will take its tempo from the ebb and flow of Lopez dance rhythms . . . will take its mood from the shimmering emerald-golds playing in this exotic undersea bower by Urban. And once more . . . as symbolized in their unquestioning acceptance of the Seaglade . . . smart New Yorkers and their out-of-town contemporaries will realize how in accord with their activities and the inimitable momentum of their existence, is the established graciousness of the St. Regis . . . a hotel charm long cherished in the world's most discriminating communities. Suites for fall, long and short-term leasing. Rooms, due to doubled facilities, at rates hitherto unavailable at the St. Regis



East 55th Street, Corner Fifth Avenue

HOTEL ST. REGIS

NEW YORK

In that brilliant momentum which is smart New York's very own . . . the greater Hotel St. Regis enters its second season. During the one short year of its newly-expanded charm the St. Regis has become more definitely than ever an integral part in the activities of smart New Yorkers and their out-of-town contemporaries. In summer, the Roof is the unquestioned locale for their fete-nights in winter, the Seaglade...two exotic Urban settings for the contrasting seasons...two fantastic backgrounds for Lopez and his irresistible dance rhythms. They naturally accept the calm splendor of the Salle-Cathay for their more formal luncheon and dining. Their reception of the 330-room Addition . . . with its full call-button and floor-secretary service, its Avenue-home seclusion . . . sets a residential criterion in New York. So, they are drawn to the greater St. Regis and its expanded charm...and the established graciousness they cherish. Suites...Fall, short and long-term leases. Rooms at rates hitherto unavailable at the St. Regis.

East 55th Street, Corner Fifth Avenue

HOTEL ST. REGIS

NEW YORK

Now in the full swing of its second brilliant season...the St. Regis Roof! Again Urban's enchanting setting, that already famous fantasy of tropic sky and foliage, delights patrons from the world's discriminating horizons. Again Lopez and his astounding young gentlemen sound the irresistible clarion of their dance rhythms. Again the gracious St. Regis service and choice St. Regis cuisine combine to make luncheon, dinner and supper on the St. Regis Roof a feature of New York's summer. Thus, here, smart New Yorkers and their out-of-town contemporaries are enjoying a summer gaiety to their liking . . . that inscrutable plane of carnival brought about by themselves and the long-cherished resources of the St. Regis, now expanded to large-hotel proportions.

EAST 55th STREET, CORNER FIFTH AVENUE

HOTEL ST. REGIS

NEW YORK

EAST 55th STREET, CORNER FIFTH AVENUE

HOTEL ST. REGIS

The new Salle-Cathay, for more formal lunching and dining at the St. Regis, is woven from a brilliant skein of originalities . . . chief of which is the striking Mochi panel of illuminated mosaic. Equally brilliant is the St. Regis itself . . . now expanded to large-hotel proportions. Its 330-room New Addition doubles its by-the-day accommodations. Each lovely room presents full call-button and floor-secretary service. The Addition has also brought New York the Roof and the Seaglade. These, summer and winter locales for the smart world's gayer evenings, are both of Urban's enchanting imagery . . . and both all the more delightful because they are "home" settings for Lopez and his nation-heard dance rhythms. Thus, those who have long known and cherished their St. Regis are pleased anew. By-the-day accommodations . . . at rates hitherto unavailable.

THE ROAD OF TRAVEL LUXURY

"PEORIA"

The Hub of Mid-Western Distribution

PEORIA is served by fifteen railroads. It has adequate terminal facilities insuring prompt handling of traffic for industries and connections.

PEORIA has excellent warehousing facilities, both dry and cold storage.

PEORIA is essentially a manufacturing city. It is a natural distribution center of the Middle West due to favorable freight rates and transportation advantages.

PEORIA is an important grain, coal and livestock market. Many of its manufactured products, such as agricultural implements, tractors, road making machinery, washing machines, iron and steel articles, solvents, livestock and poultry feed, and cooperage, are known nationally.

PEORIA being in the 100,000 group of cities, should be considered by industries seeking a location for manufacturing or distribution purposes.

PEORIA is an ideal Convention City. It has adequate hotel and entertainment facilities.

HERE'S A LIONEL ELECTRIC RAILROAD THAT ANY BOY CAN BUILD

These photographs tell the whole story better than a thousand words. They show you how Lionel Model Electric Trains work in an actual layout, pursuing their realistic, three-dimensional course through a land of hills, tunnels and bridges. They show you what you can do with your Lionel trains and accessories this fascinating way.

With each Lionel Electric Railroad you receive a book of the details of action and construction of Lionel Railroad Systems as true to the minutest of the big railroads of the day.

Any car loss per the new Lionel Railroad Planning Book and catalog at once. Get the latest Lionel Steam Type, new electrically driven by the famous Lionel

Build it as you make the many that may be removed in a jiffy taken apart and reassembled again.

Also see the new Lionel Electric Type trains. These 3 types of the finest and most powerful model electric locomotives built.

Remember, too that Lionel trains can be controlled and operated by Lionel Distant Control — which means you do start, stop, reverse or switch your trains at any distance from the track.

Write for the catalog today — it shows all the new Lionel models. Every boy should have a copy. And be sure to ask Mother and Dad for the Lionel set you want for Christmas. See the Lionel demonstrations at the Lionel stores

THE ANSWER
to Public Demand for
MODERN FREIGHT
TRANSPORTATION
POWER

IMPORTS FROM THE SEVEN SEAS

PRODUCTS imported from the world's market places for distribution throughout the great territory lying west of the Mississippi now find an improved freight service over the L & A Railway from its Southern terminus at the Port of New Orleans.

Fast freight schedules over this new system with direct connections to the North and West afford an improved transportation service that is rapidly speeding up the industrial and commercial development of the new Southwest.

Shippers in any way interested in facilities for reaching the great area served by the L & A and its connections are invited to address inquiries to the general offices at Shreveport or to any of the traffic offices shown below. It will be a pleasure to serve you.

A Rare Salad Oil for the Modern Housewife

EXPENSE has so long been associated with the better things in life that exceptions to this rule are welcomed by every modern housewife.

Among these is MAZOLA—an exceptionally fine Salad Oil—purely vegetable—pressed from the hearts of fully ripened golden corn kernels.

Modern, American methods of production—careful in expense as in sanitation—bring the price of MAZOLA well within the budget of every housewife.

Which means, while in taste MAZOLA is equal to fine imported salad oils—its cost is only about half.

The Ideal Plant Location
—for every purpose

SINCE the beginning of American Industry, the Pittsburgh District has always been recognized as the Nation's greatest industrial center.

Picture its great natural resources of coal, iron and steel—its ideal geographical location at the confluence of three deep rivers and the center of trunk line railroads from every quarter of the nation—

Think of its great market of 43,000,000 people within a radius of 500 miles—14,000,000 within 200 miles and a primary market of 2,500,000 in the Metropolitan Pittsburgh district alone.

Then you will understand why so many Captains of Industry choose the Pittsburgh District not only as a manufacturing center but also as a center of distribution.

No matter what you manufacture, distribute or sell, you will find the Pittsburgh District the logical location and the Montour Railroad the connecting link between your plant or warehouse and main line transportation.

Ask us to acquaint you with the many fine plant or warehouse sites now available at extremely attractive prices.

MONTOUR R.R.
1141 Oliver Bldg. Pittsburgh, Penna.

A Train Passes By.....

WHEN a freight or passenger train passes by you may think of it merely as "a train" . . or you may wonder how many locomotives, freight and coal cars, baggage, mail and express cars and how much other equipment it requires to operate a railroad—the rolling stock that must be "kept rolling" to create the railroad's income, the salaries and wages of its 30 000 employees, the taxes, which never grow less, funds for the purpose of new equipment, for the expansion of lines and facilities and the general operation and maintenance of the railroad property.

It may be prosaic to say that the railroad "has so many of this or that . . . and so many of something else" . . . but facts are facts and figures sometimes are more interesting to businessmen than pictures The following condensed statement speaks for itself:

Freight Equipment

Box	* 7135
Gondola	9804
Hopper	*28152
Stock	1469
Refrigerator	10
Flat	480
Non Revenue (Work and Maintenance of Way)	2373
	49423

Passenger Equipment

Coaches	209
Dining Cars	15
Combination Coaches	41
Postal, Mail, Baggage and Express	236
	501

Locomotives

Passenger	116
Freight, Mallet	311
Other Freight (Steam)	369
Electric	16
	812

*The foregoing does not include contracts let September 30, 1929, for the construction of 2,000 all-steel 57½-ton hopper coal cars, delivery of which is to commence January 1, 1930, and to be completed in two months. Nor does it include 500 all-steel 50-ton automobile box cars, nor thirty 18,000 gallon locomotive tenders, being built in the Railway s Roanoke shops

. . If you remember these figures, even in part, the train that passes by swiftly and surely, carrying its burden of passengers of its cargo of coal, raw materials, merchandise or food becomes more than a mere "train" . . it represents a great organization and its ability to serve The Norfolk and Western Railway will continue in the future, as it has in the past, to maintain its equipment at the highest of standards.

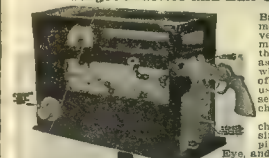
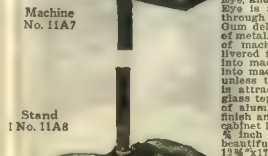
Target Practice and Ball Gum Vender



Machine No. 11A7



Stand No. 11A8

This Target Practice and Ball Gum Machine is the most attractive and efficient vender ever put on the market. The mechanism of this machine is very simple, as it slides into a groove which runs the full length of the cabinet. No screws are used and it takes only a few seconds to remove this mechanism.

To play the Target Machine Ball Gum Vender, simply insert a penny in the pistol, aim at the Bull's Eye, and pull the trigger. If Bull's Eye is scored, penny is returned through cup on side of machine. Gum delivery mechanism is made of metal. By pushing lever at front of machine, ball of gum is delivered for each penny that drops into machine. When pennies drop into machine, no gum is delivered unless the lever is pushed. Gum is attractively displayed through glass top and sides. Pistol is made of aluminum with brushed velvet finish and shoots penny only. The cabinet is substantially made from ¾ inch seasoned wood, finished in beautiful mahogany. Size is 7x13⅜"x17¼", Weight 14 lbs. Holds 700 balls of gum and has plenty of room for 700 pennies.

No. 11A7.
Vender only. Each..... 23.50

APOLLO BICYCLES

The King of the Road

Bicycles look pretty much alike to the average buyer, even the expert must depend upon the reputation of the producer for assurance of quality, material and workmanship.

Apollo brand bicycles have a reputation of being the best all-around bicycles on the market. Materials used in the making and assembling of these bicycles are thoroughly inspected before used Built by expert mechanics of long experience Apollo bicycles are made to give perfect satisfaction to the user. Popular and well known tires that will give long wear are used. By what we say above we can safely guarantee our bicycles.

GUARANTEE

APOLLO bicycles are fully guaranteed against any imperfections in material or workmanship, and repairs or replacements will be made free of charge, provided parts claimed to be defective are delivered to us transportation charges prepaid, and found by us to be defective.

A separate letter should be mailed in order to help us identify the parts.

This guarantee expires December 31st of the year during which purchase was made.

As we do not manufacture Coaster Brakes, Saddles, Pedals, Handle Bars, Tires, etc., these various accessories are guaranteed by their respective manufacturers, as is the usual trade custom and all claims should be taken up directly with them.

We have exercised the greatest care in the selection of tires for the various grades and all tires are guaranteed by the maker, to whom all claims for adjustment must be made.

N. SHURE CO.

SPECIAL NOTICE

We require a week to ten days time to make shipment of any of our bicycles as we do not carry them in stock completed. Before making shipment we equip them with fresh tires and enamel. By doing this we deliver them with all their brilliancy and also gives the user longer wear.

An excellent view of the Allabough "log cabin." All merchandise is price marked and prominently displayed.

Allaboughs of Ridgewood, N. J., Prove That

SPORTING GOODS

Belong to the Hardware Store

"SPORTING goods is a profitable line for the hardware dealer. It is also an excellent creator of good-will between the store and the customer." These sentiments were recently expressed by E. D. Allabough, who with his father F. T. Allabough, conducts the progressive retail hardware store of Allabough & Son in Ridgewood, N. J.

Going further into the subject, Mr. Allabough declared that the hardware store was the logical point of distribution for sportsmen's supplies. "This merchandise brings men to the store who have never before been inside its doors. It also awakens interest in those men who have made our store their headquarters for tools, paints and shelf hardware. Every man has a desire to get away from his work and play. By passing our sporting goods each day, many of these men are bound to become interested in some of the merchandise. Practically every item in our department can be sold with a good margin of profit, has a quick turnover and is both interesting and attractive to display and to sell."

Ridgewood sportsmen have learned that an appropriate assortment of sport accessories are to be found at the Allabough "log cabin." This is a regular rustic lean-to, such as is built on a mountain side. Mr. Allabough had it constructed in the front portion of his store, just behind one of his large display windows. The "log cabin" provides an excellent background for the display of sporting goods and tends to create an atmosphere of the outdoors in the store.

Then too, mounted fish and game are prominently shown in the department. Several of the fish were caught by the Allaboughs, as both are enthusiastic fishermen.

One of the important factors in the success of this

(*Continued on page* 91)

Allaboughs Prove That Sporting Goods Belong to the Hardware Store

(*Continued from page 45*)

department, is the fishing license service. Through an arrangement with the town clerk, Allabough issues fishing and hunting licenses to local sportsmen. This courtesy service is a great business-getter and last year more than 1500 such permits were issued at the store. The company also secures fishing and hunting permits for New York State, if needed.

Mr. Allabough, like other progressive merchants, believes thoroughly in the necessity of merchandise display. Every April a special fishing tackle display is arranged in one of the large display windows, featuring the opening of the trout season. At regular intervals during the ensuing months, other sporting goods is shown. Just prior to the opening of the hunting season, an arms and ammunition display is constructed. This annual window always attracts an unusual share of attention and is a proved sales stimulator.

THE importance of a satisfied juvenile customer is recognized at this store. The company enjoys selling a small fishing outfit to a youngster, for it knows that it is helping to create a satisfied customer and an Allabough booster for years to come.

Mr. Allabough and his salesmen do not profess to be expert advisors on the usages of various pieces of tackle, baseball equipment and the like, but have a knowledge of the merchandise which has been gained through years of practical selling experience. They like to help the new member of the Izaak Waltonites in the selection of rods, reels and line. The Allabough "log cabin" is truly the sportsmen's headquarters in Ridgewood, a residential suburban community of 7800, of which the majority of the residents own their own homes and commute to New York City daily.

If You Had Spent Fifty Years In the Hardware Business

(*Continued from page 41*)

a real effort to serve them in the best possible manner. You can advertise with greater confidence because you can 'back up' quality advertising copy with a high class establishment."

With a store bedecked in all its splendor with the latest modern equipment it certainly would seem that the Hawthorne Hardware Company is "all set" for even smoother sailing in the future. As we said before, the accolade of success is generally conferred on the most deserving—the patrons serve as judges, and their decision favors the alert, progressive dealer every time

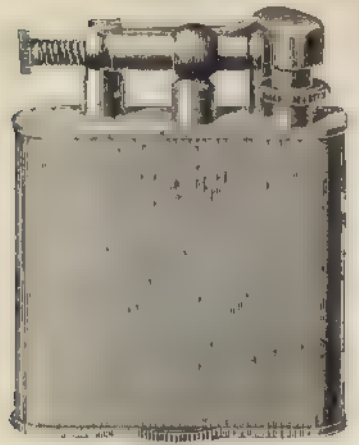
GOLDEN WHEEL CIGAR LIGHTER

Perfection in Lighting. ***No Failures.***

Just a Turn of the Thumb and Flame is There!

Cheaper, Better and Safer Than Matches

Finished like High Grade Jewelry



THE Golden Wheel Cigar Lighter illustrated on this page is the very latest and the most modern scientific invention. It is infinitely more graceful than the old type. It is made and finished like high grade jewelry, in fact it is made by a concern turning out fine jewelry. The lighter is simplicity itself to use, for a mere turn of the thumb instantly and automatically lights the apparatus, producing a bright light that keeps burning until extinguished. It is much more convenient for lighting purposes than matches, it will last almost indefinitely and one spark stone is good for thousands of lights and a new stone can be purchased for five cents. There is no trouble and no risk or danger as when partly burnt matches are thrown down. The flame lasts longer than the best match and thus it is specially useful for all lighting purposes. Any inflammable liquid such as gasoline, benzine, wood alcohol, etc., will do. You merely place a few drops in the lighter from time to time as required. The wick of the lighter becomes saturated with the liquid and thus it is always ready for use. The lighter cannot light accidentally, but always lights when desired. Any dealer in the hand or pocket line will obtain it for you, or if you adopt this lighter you will never again bother with matches.

No. 8450. Golden Wheel Cigar Lighter. Price postpaid $5.00
No. 2914. Extra Flints for Cigar Lighter. Price each..... .05

THE DIPLOMAT CIGAR LIGHTER

Cheaper, Better and Safer than Matches

The diplomat is constructed on the line of the latest type of cigar lighters, yet sells at a very modest price. It cannot be surpassed for simplicity, dependability and safety. One hand will light it. The thumb throws up the cap, then turns the wheel, resulting in a positive spark and instant light. It cannot light accidentally, but always lights when desired. Any benzine base fluid, obtainable at all drug stores, will do—just a few drops now and then suffice. One flint or sparking stone will last a very long time, renewal flints cost but five cents each and can always be obtained from us. The lighter is handsomely made, and nickel plated all over.

No. 8451. Diplomat Cigar Lighter. Price postpaid. $2.50
No. 2914. Extra Flints for Cigar Lighter. Price each .... .05

Simplex Pocket Lighter

This is surely the cheapest of all Pocket Lighters. There are scores of similar devices sold, but for all round value we think this beats them all. It is a nice, convenient size for the vest pocket, rounded ends and nickel plated. Most people are aware of the principle. A piece of special kind of Flint is brought into contact with the little wheel by giving the latter a sharp turn with the thumb. The Flint emits a spark which immediately ignites a little wick, which is moistened occasionally with benzine. Extra flints five cents each

No. 2542. Simplex Pocket Lighter. 20c

No. 2914. Extra Flints. Each 5c

The Wonderliter

It Strikes Like a Match

ONLY 50 CENTS Postpaid

A neat, thin, compact model of these Automatic Pocket Lighters, and one which is preferred by many, as it strikes just like a match, hence you don't "miss fire." Simply strike it on the box and it immediately lights with a good, strong flame. There is nothing about it to get out of order. No extra flints required as a large piece of sparking metal is fastened in the base of lighter the whole width. With ordinary care it will last a very great length of time

No. 2544. The Wonderliter... 50c

No. 2914. Extra Flints, Each.....5c

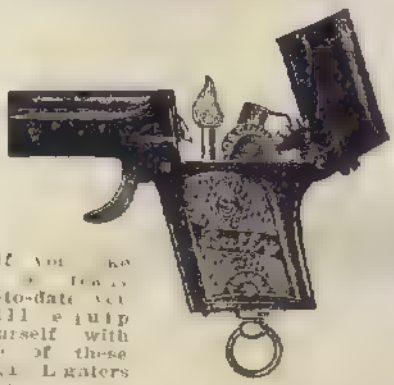
Automatic Cigar Lighter

The automatic pocket [illegible] of the best lighters sells at a moderate price. It is perfectly automatic in action, for to light it you merely press the button, causing the lid to fly open, the flint coming into contact with the [illegible] Lighting the wick. There is [illegible] nothing to get out of order. You [illegible] occasionally place a few drops of inflammable liquid such as Gasoline, Benzine, etc., to keep the wick moistened and it is always ready for use. The Flint will last a long time and when you wish to renew it we can supply a fresh one for a nickel. Flat thin model, made of brass, nickel plated.

No. 2545. Automatic Cigar Lighter. Price Postpaid $1.00

No. 2914. Extra Flints. Each ...05

Revolver Cigar Lighter



If you [illegible] to [illegible] to-date set will equip yourself with one of these Cigar Lighters that, as you will observe from the illustration, is made in the shape of a Revolver. It measures 2¾ x 1 7/8 inches in size, lights automatically on opening by simply pulling the trigger. It is safer, as well as cheaper than matches, as well as decidedly cleaner and more convenient

No. 2541. Revolver Cigar Lighter. $1.50

No. 2914. Extra Flints. Each.....05

Unbreakable Dolls with Sleeping Eyes

Pal Portable Phonographs

PAL Jr.—$15 Retail

The Motor

We use a precision motor of the highest type, that runs with the regularity and smoothness of a watch—the famous imported "Thorens" — which is conceded to be the finest portable phonograph motor in the world. One of its features that will appeal to the dealer is the fact that the main spring barrels can be removed for repair by loosening only one screw. This permits the retention of all the fine adjustments of the remaining mechanism.

The Tone Arm and Reproducer

Special tone arm—an excellent metal shielded reproducer and a substantial amplifier for quick throw-out.

Reproduces records with a very satisfying tone quality of unusual clarity and good volume.

Description

A popular priced portable, with splendid tone quality, plenty of volume, sturdily constructed. An ideal $15 seller. Guaranteed sturdy single spring motor, playing two records. Special tone-arm. Covered with genuine DuPont Fabrikoid.

No. C1010—Length 13¾ in., width 12¾ in., height 7 in., colors **Black or Blue,** w't each 11⅜ lbs., each *$15.00*

PAL Standard—$25 Retail

The Fittings and Turntable

The fittings are of the best quality. Heavily nickel plated, highly polished, and secured in a workmanlike substantial manner.

The turntable supplied is superior to the usual kind. It has a rolled up ring which houses the entire perimeter of the felt—and eliminates unsightly frayed edges. The felt can be replaced very simply — just glue or shellac it on in the usual way and tuck the edges into the turntable groove.

The Tone Arm and Reproducer

New "S" shaped throw-back tone arm—substantial amplifier for quick tone throw-out—Metal shielded reproducer of the latest and best type. Careful attention has been given to the correct combination of these all-important elements of sound reproduction so as to assure a smooth, rich tone with plenty of volume.

Description

Specially designed reproducer with metal cap protecting the diaphram, and "S" throw-back tone-arm which gives perfect clarity of reproduction. The only $25 portable on the market having a two spring motor. Plays nearly three 10 in. records. Covered with heavy grade genuine DuPont Fabrikoid.

The Cabinet

The cabinet is carefully constructed of kiln-dry bass wood, glued and lock-cornered with three-ply veneer top and bottom, and is covered with the finest grade of DuPont Fabrikoid in attractive colors.

No. C1020—Length 15¾ in., width 12 in., height 7¾ in., colors **Black or Blue,** w't each 16 lbs....each *$25.00*

Pal Portable Phonographs

PAL De Luxe—$25 Retail

The Motor

We use a precision motor of the highest type, that runs with the regularity and smoothness of a watch—the famous imported "Thorens"—which is conceded to be the finest portable phonograph motor in the world. One of its features that will appeal to the dealer is the fact that the main spring barrels can be removed for repair by loosening only one screw. This permits the retention of all the fine adjustments of the remaining mechanism.

The Tone Arm and Reproducer

Latest type of "S" shaped throw-back tone-arm—Enclosed horn with air column almost four feet long combined with a reproducer of the newest type that produces a rich, deep, tone. All the fine details of the record are faithfully reproduced.

Description

Designed on the new, improved sound reproduction principles, with forty in. sound chamber. Single spring motor playing well over two 10 in. records. Covered with richly designed, genuine DuPont Fabrikoid, with embossed borders finished in antique gold.

No. C1030—Length 15⅛ in., width 12 in., height 7⅞ in., colors **Black or Blue**, w't each 17 lbs., each *$25.00*

The Tone Arm and Reproducer

"S" shaped throw-back tone arm of the newest type—A reproducer that was selected only after exhaustive tests. A big round tone of remarkable quality. Reproduces any pitch without distortion of tone values.

Description

A real achievement in the portable phonograph industry. Put a record on and let it play—that's all you need to do to sell it. Its marvelous tone is equal in quality and volume to an expensive cabinet phonograph. Double Spring Motor will play three 10 in. records.

Beautiful in appearance too—covered with extra heavy shark-grain DuPont Fabrikoid. Borders embossed in moorish gold.

The Cabinet

The cabinet is carefully constructed of kiln-dry bass wood, glued and lock-cornered with three-ply veneer top and bottom, and is covered with the finest grade of DuPont Fabrikoid in attractive colors.

Remington "GAME LOADS"—LOADED SHELLS

Wetproof

Red Color. Smokeless Powder

MEDIUM LOADS

Remington "Game Loads" supply, in a compact assortment, the proper loads for every kind of game which is hunted in the United States, with a shotgun. They are loaded to predetermined velocities, rather than by weight as is the usual loading practice, to insure uniformity in velocity, penetration and pattern. Dealers like "Game Loads" because they remove the guess work in selecting, for a shooter, the right load for the game he is after.

Head—Medium Height Brass, Extra Heavy Gauge Metal.
Wadding—Fine, Hair-Felt Wads, Resilient and Clean.
Battery Cup—Flanged and Upset, Rivets Base Wad to Head.
Primer—Remington No. 33, Sure Fire, Non-Injurious to Gun Barrels.
Waterproofing—Crimp, Top Wad and Paper Are Processed Under the Remington Patented **Wetproof** Formula.

The Smokeless Powders, Used in the "Game Loads," Are Unbranded, Consequently Orders Should Not Specify Any Name or Brand of Powder. Only the Highest Quality, Smokeless Powders, of American Manufacture, Are Used in These Shells.

DUCK LOAD

(Also for Partridge, Prairie Chicken, Pheasant, Crow, Hawk)

Remington "GAME LOADS"—LOADED SHELLS

Wetproof

Red Color. Smokeless Powder

MEDIUM LOADS

Remington "Game Loads" supply, in a compact assortment, the proper loads for every kind of game which is hunted in the United States, with a shotgun. They are loaded to predetermined velocities, rather than by weight as is the usual loading practice, to insure uniformity in velocity, penetration and pattern. Dealers like "Game Loads" because they remove the guess work in selecting, for a shooter, the right load for the game he is after.

Head—Medium Height Brass, Extra Heavy Gauge Metal.

Wadding—Fine, Hair-Felt Wads, Resilient and Clean.

Battery Cup—Flanged and Upset, Rivets Base Wad to Head.

Primer—Remington No. 33, Sure Fire, Non-Injurious to Gun Barrels.

Waterproofing—Crimp, Top Wad and Paper Are Processed Under the Remington Patented Wetproof Formula.

The Smokeless Powders, Used in the "Game Loads," Are Unbranded, Consequently Orders Should Not Specify Any Name or Brand of Powder. Only the Highest Quality, Smokeless Powders, of American Manufacture, Are Used in These Shells.

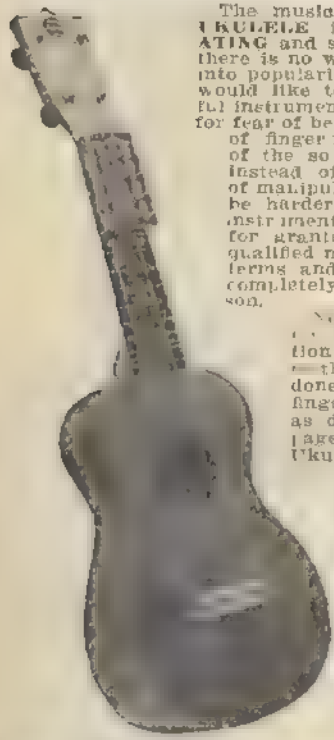
ANYONE CAN PLAY IT

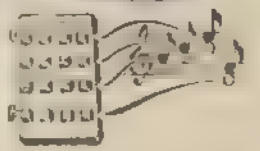
The New E-Z Player Does Away with Weeks of Arduous Study

THE EASY Hawaiian Ukulele



The music produced by the **HAWAIIAN UKULELE** is so **HAUNTINGLY FASCINATING** and so **WEIRDLY BEAUTIFUL**, that there is no wonder it has so suddenly leaped into popularity. However, many persons who would like to possess one of these delightful instruments have refrained from doing so for fear of being unable to master the method of fingering. Unfortunately, many of the so called instruction books, instead of simplifying the method of manipulating the strings seem to be harder to understand than the instrument itself. It is usually taken for granted that the student is a qualified musician and thus musical terms and notations are used that completely befog the average person.

Now with the [illegible] ukulele, a clever [illegible] tion greatly simplifies [illegible] thod of fingering. This is done by attaching to the finger-board the **E-Z PLAYER**, as described on the previous page. The advantage of the Ukulele equipped with the E-Z PLAYER will be at once apparent, for you [illegible] cording to the numb and the correct sound is there. In this way much time may be saved in learning the exact location of all of the notes. After a little practice you become so familiar with the no [illegible] can, if you wish, dispense with its [illegible] ely, though many prefer to continue using the E-Z Player attachment even after they have thoroughly mastered the fingering. Two Ukuleles are illustrated. The one on the left is the regular type Ukulele, made throughout of a fine grade of birch imitation Koa, mahogany



[illegible] E-Z PLAYER [illegible] and a big book of music without extra charge

PLAY the UKULELE / BANJO / GUITAR / MANDOLIN in 10 MINUTES

No Lessons—No Hard Practice—No Knowledge of Music

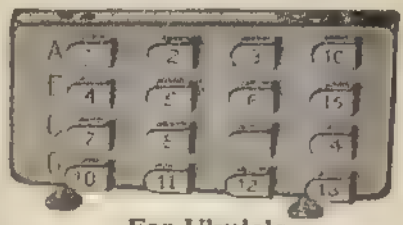
PLAY BY NUMBERS INSTEAD OF BY NOTES!

For Mandolin

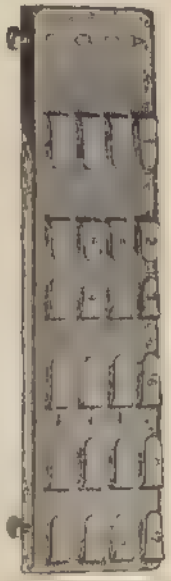
Amazing New Invention

Makes Playing of Stringed Instruments Easy Even For a Child

Surprise Your Friends by Learning to Play Over Night!



For Ukulele



For Tenor Banjo

No more tiresome lessons from expensive teachers! No more months of hard practice on dull exercises. With the E-Z PLAYER attached to your favorite stringed instrument, you can play a tune in 10 minutes. You don't have to know how to read a single note of music. As long as you can read numbers, you will be able to play in 10 minutes. Just think what this means! Within a short time you can be playing all the popular songs, and the old favorite melodies and astonish your friends. You can be the "life of the party" everywhere you go, with your Banjo Mandolin, Ukulele or Guitar.

A wonderful opportu[illegible] This marvelous invention has been called a "magic box [illegible]. The manufacturers call it the "[illegible] player, because almost [illegible] without any knowledge of music, without long tire[illegible] sive lessons. You play [illegible] at once right from [illegible] made in a size and style [illegible] these five [illegible] Ukulele; (3) Tenor Banjo; (4) [illegible] Mandolin and Mandola; (5) [illegible] have either of these five [illegible] and EASILY, write for the [illegible]. You can attach it in no time and you can commence playing [illegible] in a FEW MINUTES. We give FREE with each E-Z Playing Instrument COMPLETE INSTRUCTIONS and a BIG BOOK OF MUSIC. There is absolutely [illegible] different [illegible] and varied, which you can read [illegible] a few [illegible] the [illegible] [illegible] instrument [illegible] [illegible] [illegible]

THE NEW FILM-O-SCOPE

These views when looked at through the new Film O Scope are greatly magnified and stand out as REAL AND LIFELIKE as they appear on the screen in regular moving picture theaters. Leading MOVIE "STARS" and scenes from their BEST PICTURES are included in the collection, and there are NO TWO ALIKE. As one view after another is placed in the Scope and seen through the lens of Scope, one experiences the same pleasure as that derived from a regular movie show and as the pictures may be repeated as often as desired, they furnish a NEVER ENDING, JOYFUL ENTERTAINMENT for the young folks keeping them amused, instructive and out of mischief for hours. There are about 30 VIEWS included with each Scope, and additional views may be obtained at any time, guaranteed to be all different. All the leading stars are there—Mary Pickford, Norma Talmadge, Ruth Valentino, Douglas Fairbanks, Thomas Meighan, the Gish sisters, Fatty Arbuckle, Theodore Roberts, Agnes Ayres, Kathryn Williams, Conrad Nagel, Harold Lloyd, Ben Turpin, Pola Negri, Mae Murray, and many others, but as we have to take whatever films are available by the leading film companies, we cannot undertake to furnish you any particular actor. We guarantee, however, a goodly assortment of leading celebrities. All that for only 15 cents postpaid.

See the Wonders of the World Through

THE VISTA CHROMOSCOPE

Magnified Life-Like Views and Scenes of America, Europe, The Holy Land, The World War, etc.

Interesting! Instructive! Educational!

THE Vista Chromoscope is the most satisfying optical apparatus of its kind. The effects produced by duplicate photographs, wonderful as they have been, are far excelled by these beautiful reproductions in the ACTUAL COLORS OF NATURE. Just as the human eye sees the view, its light and shade perspective, its solidity, its animation, and above all, its actual coloring, so the Vista Chromoscope presents the scene to the gaze of the delighted beholder. You can thoroughly enjoy the charms of travel and sight-seeing without any of the discomforts. By means of the Vista Chromoscope and the Views, one can realize the pleasure of a tour to the principal famous beauty spots and places of historic interest, free from all the chances of disaster or disappointment that so often beset the actual tourist. The points from which the views have been taken have been chosen by accomplished artists, and the results could scarcely be surpassed. The Vista Chromoscope is [illegible] constructed aluminum hood fitted closely to cover the eyes with a soft binding of velvet. The aluminum is satin finished and handsomely engraved. The frame is of fine grained cherry, polished and varnished. The

partition is mathematically adjusted the handle folds back when not so as to occupy as little space possible, and the lens may be fixed at any point. The lenses are of the very best magnifying quality, one and a quarter inches square, set for a focus of any range of eyesight, and scientifically adjusted to accurately focus the dual views, causing them to be BRILLIANTLY DEFINED to the most minute detail.

There is a wide range of views to select from, all of which are from the original negatives and guaranteed to be genuine reproductions of ALL THE MOST INTERESTING SIGHTS OF THE WORLD, HUMOROUS INCIDENTS, VIEWS OF THE WORLD WAR, UNCLE SAM'S ARMY AND NAVY, VIEWS OF PALESTINE AND THE HOLY LAND, LIFE OF CHRIST, etc. The Views come twenty-five to a package (none less can be sold). We give you a complete list of the Views for Vista Chromoscope at present obtainable. When ordering, please be sure to give the correct number, and thus there will be no mistake. The prices quoted include postage to any address. Remittance can be made in any convenient form, such as Money Order, Check, Postage Stamps, etc.

VERY CLEVER AND INGENIOUS

PRINTED DIRECTIONS FOR OPENING WITH EACH BANK

NOTHING TO GET OUT OF ORDER

NO 2578

There are three designs, that are without doubt the most artistic and ingenious Banks ever put upon the market. They are all made of solid metal and so constructed that the **money cannot be shaken out.** You cannot open the Banks unless you know the secret Directions and solution of puzzle are sent with each Bank. No. 2578 is a true representation of the **Burglar Proof** time lock safe now in use in all bank vaults and, like No. 2579 measures 4 inches high, 2¾ inches wide and 2¾ inches deep very solidly constructed, with oxidized gunmetal finish. Please note they are **not** Combination Banks. It is impossible for these Banks to get out of order or repair, as is the case with all combination and key banks. They are highly engraved with pictures of the "White City" buildings, also the great Ferris Wheel. Thus they make a very handsome souvenir of the great City of the Lakes.

NO. 2579

NO. 2580

PAIL BANK

"A PAIL FULL OF MONEY!"

No. 2580 Pail Bank measures 2¾ inches high and 2½ inches in diameter. Buy one of these Banks and you can always have a **"pail full of money."** Made of very heavy metal, obtainable in oxidized gunmetal or nickel finish. We guarantee each Bank to be perfect and utterly impossible to get out of repair. They are ideal either for using as a money box or for the safe keeping of jewelry, letters or small valuable articles of any kind.

PRICES

No. 2578.	**Time Lock Puzzle Safe, postpaid**	**$1.00**
No. 2579.	**Puzzle Safe, postpaid**	**1.25**
No. 2580.	**Puzzle Pail Bank, postpaid**	**.75**

TEACHER: "When is the best time for gathering apples?"
TOMMY: "Please, sir, when the farmer's back is turned and there is no dog in the orchard."

NEW PUZZLE BASKET BANK

A VERY HANDSOME BANK AND A PUZZLE COMBINED

Impossible to open unless you know the Secret. Very Artistic Design. Handsomely Nickel Plated.

THIS Money Box is, indeed, a genuine work of art. It is so exceedingly well made and handsomely finished that it is scarcely possible to imagine it can be excelled. The design is an artistic miniature reproduction of a bushel basket filled with fruits, emblematic of the generous manner of good things possible to those who save early in life. It will hold ANY SIZE COINS up to one inch in diameter (nickels, dimes, pennies, quarters, currency, etc. The bank is most ingeniously constructed, and CANNOT BE OPENED BY ANYONE NOT ACQUAINTED WITH THE SECRET. It is really a Bank and a Puzzle combined. You can defy anyone to open it yet you yourself can open and close it in a few seconds. We have never yet known of anyone discovering the trick of opening and closing the Bank without the aid of directions. So cleverly is the bank constructed that it seems almost impossible that it can be opened. The Bank stands 2½ inches high, having a diameter of 3½ inches, and it will hold a surprisingly large number of coins. The exquisitely dainty appearance and solid construction of this bank appeals to every child and parent. The Bank is quite heavy, weighing one and a quarter pounds, which will give some idea of its substantial construction. It will accommodate Foreign Coins as well as American.

No. 2577. New Puzzle Basket Bank. Price Postpaid **$1.50**

Or 2 banks sent by prepaid parcel post for $2.50

The Magic "Surplus" Bank

AUTOMATIC DIME BANK

OPENS ONLY WHEN FULL

THESE splendid little Banks OPEN ONLY WHEN FULL and nearly every one not of this sort. They will hold 50 Dimes ($5.00), and CANNOT BE OPENED UNTIL THE LAST COIN HAS BEEN INSERTED. The Bank then OPENS AUTOMATICALLY, when it can be readily emptied and reloaded ready to be again refilled with dimes. It is a perfect little bank, handsomely nickel plated, with registered seals at the slot with boxes. Children are delighted with it as they can at all times see just how much money they have in their banks. Every parent should see that their children have a small savings bank as the early habit of saving their dimes is of the greatest importance. Habits formed in early life are seldom forgotten in later years.

No 2586. AUTOMATIC DIME BANK. Price Postpaid . **15c**

Three for 40 cents; $1.35 per dozen. Postage paid to any address.

Wood Puzzles

On the next two pages we offer the pick of the world's most **INGENIOUS AND INTRICATE PUZZLES** made ENTIRELY OF WOOD. Various woods are employed with beautiful effect, the contrasting colors being selected with artistic judgment and matched with great skill. Clever people will appreciate these ingenious brain twisters that will dispel weariness and tedious monotony and give you many hours of pleasant occupation. Some of them will prove very hard nuts to crack, not only in taking them apart but in putting them together again. However they can all be done, and when you have solved them you will feel well rewarded for the time and trouble you have spent. The puzzles themselves are most beautifully made and finished, and will last a lifetime. Prices and catalog numbers are shown under each puzzle.

HORSE SHOE PUZZLE

It Seems Impossible, but It can be Solved.

There are three horse shoes, the third one apparently slipped over the other two. Without the instructions, you might go on indefinitely trying to separate them, yet like all other good puzzles, it is easily done. It is nicely made of brightly finished metal, and easily fits the pocket.

No. 3043. Horse Shoe Puzzle, Price 12 cents, or 3 for 30 cents postpaid.

Another New Puzzle, and a Good One.

The Twin Stars and Crescent Puzzle

A Teaser to Get Apart, and a Twister to Put Together Again.

This is another really excellent Puzzle, and one of the best. As a specimen of clean steel stamping it is really marvelously fine. The puzzle is to detach one of the stars, and when you have got it off, it will be a second puzle to replace it. **ONLY 12c, post-free.**

No. 3071. Star and Crescent Puzzle, Price 12 cents, or 3 for 30 cents postpaid.

THE "COOTIE" GAME

COOTIES IS A GAME—a little game that looks innocent and unassuming. You pick it up and start to corral those four little black "cooties" in that nice little wire cage, where they belong. "They won't go! Well we'll show them. We'll make them go. There now, dog-gone you, go in. He didn't. Wait a minute—I'll get him. Almost had him then. Ah! There he is—not! No, you fellows can't have this box—I'm going to get those cooties if it takes me the rest of the summer." Cootie Parties are all the rage. Give a Cootie Party.

That's the way "Cooties" acts on man, or woman or the kids. Start them on a Cootie hunt and the other small details of the universe can wait. That's the reason Cooties are making a big hit. Any number can play, and the player who imprisons all the Cooties in the pen in the quickest time wins.

No. 3034. Cootie Puzzle, Price 20 cents, or 3 for 50 cents.

Centrifugal Puzzle

It Needs Steady Nerves and Some Ingenuity

ONE of the neatest little puzzles imaginable, and one of the cleverest. Like most teasers, it is comparatively easy when you go the right way about it. It is a little round metal box, the illustration being the exact size, and it has a transparent celluloid top. The object is to get the small ball into the proper place in the center. It calls for very steady nerves and quite a lot of ingenuity, but it can be done. It is a good pocket puzzle to carry with you to while away your idle moments, if you have any.

No. 3022. Centrifugal Puzzle. Price postpaid.. 10c
3 for 25c, 75c per dozen

Carrying Cases for Eastman Cameras
An Accessory Appreciated by Any Photographer

Kodakery Magazine

Free for one year with every Hawk-Eye Camera.

This intensely interesting issue for the amateur photographer sells regularly at sixty cents per year. Profusely illustrated—most helpful to those interested in better picture-making.

Leatherette Carrying Case

For the protection and added care of your camera, a carrying case is strongly recommended. These convenient and durable carrying cases are well worth your investment. The exceptional values are made possible only by the tremendous quantity production.

E199+1 **Case.** To fit the No. 2 Folding Hawk-Eye Camera. **$2.90**

E199+2 **Case.** To fit the No. 2A Folding Hawk-Eye Camera. **$3.10**

E199+3 **Case.** To fit the No. 3A Folding Hawk-Eye Camera. **$3.40**

Ansco High Quality Cameras

Folding Cameras With Fast Lenses. A Real Fine Line.

No. 1A Ansco Speedex. $45.00 Retail. Size 2½x4¼ ins.

1A ANSCO SPEEDEX

This popular sized Camera with a fast lens is a new number that is very well thought of among amateurs who want to be able to "Shoot" a picture anywhere. The lens is F 6.3 Anastigmat. The shutter is of the Acme type. We recommend this as a camera that will get results.

The clear picture that this number takes readily lends itself for enlargement on account of its being so clear and clean-cut. No blur or shadows.

E199+4 1A Ansco Speedex Camera. **$76.00**
No. 116—2½x4¼ Film. Per roll. . . . . **.54**

NO. 3A FOLDING ANSCO

No. 3A Folding Ansco cameras are equipped with Ilex Universal shutter with speeds of 1—2—1-5—1-10—1-25—1-50 and 1-100 second with bulb and Time. These cameras can be used with ruby indicator back for focusing on the ground glass is not necessary for it is equipped with double scale focusing device for both plates and film. Ansco safety shutter avoids cutting off any part of the subject desired in the picture. This model has notable features. For any picture taken this model represents the final choice in a high grade outfit.

E199+5 **No. 3A Folding Ansco.** F 7.5 Anastigmat lens. Universal shutter. Pictures 3¼x5½. **$54.69**
Six exposure film No. 122. . . . . **.92**
Sole leather carrying case. **7.71**
Ansco Portrait attachment. **1.50**

Ansco Ready Set and Speedex Cameras

Quick Cameras At Lowest Prices. Guaranteed

Ansco Ready-Set Cameras

No. 1 Ready Set

Vest Pocket Ready Set

Ansco Ready-Set cameras are designed for the large class of people who want box camera simplicity in picture taking with folding camera convenience and beauty. No estimating distance, no setting of lens or shutter is required. Just Open—Aim—Shoot—and sharp brilliant pictures are secured with no tax on the picture taker's attention. No experience or knowledge of photography is required. Finished in pebbled fabric leather with metal trim, they are light in weight, compact in size and attractive in appearance.

No. 1A Ready Set

	E200+1 No. 1 Ready-Set	E200+2 V. P. Ready-Set	E200+3 No. 1A Ready-Set
Size of picture	2½x3¼	1⅝x2¾	2½x4¼
Price	$17.80	$12.72	$22.90

No. of film	120	127	116
Ansco Portrait Attachment	$1.50		$1.50
Six-exposure film	.42	$0.42	.54

Vest Pocket Ansco

This little camera is literally a work of art—expertly designed, beautifully finished, and mechanically right. It is the only self-opening camera made, pressure on metal side-buttons where thumb and forefinger naturally grasp the sides causing the front to spring out to rigid aiming position—a very positive action.

As with the Ready-Sets, no focusing is required, but the lens and shutter are of a more advanced type, permitting additional openings up to F7.5 and shutter speeds of 1/25, 1/50 and 1/100 second, besides Bulb and Time. A camera flexible in exposure, very attractive and convenient.

E200+4 Vest Pocket Ansco. F7.5 Anastigmat lens. Ilex Shutter. Pictures 1⅝x2½ inches $21.30
Six-exposure film (No. 127) 42

Popular Ansco Junior

Ansco Junior cameras are equipped with lens and shutters such as have never before been available in cameras at such a low price. This camera is adapted to all types of picture takers and is so convenient to operate that good clear sharp pictures can be made whether one is in a hurry or has all the time in the world. Attractive, sturdy, compact, and convenient, they are built for service and bring back the pictures.

E200+5 No. 1 Ansco Junior. Anscomatic F7.9 lens. Ilex Ansco shutter. Pictures 2½x3¼ $22.90
Six-exposure film (No. 120) $0.42
Portrait attachment 1.50

E200+6 No. 1A Ansco Junior. Anscomatic F7.9 lens. Deltax shutter. Pictures 2½x4¼ $28.75
Six-exposure film (No. 116) 54
Sole leather carrying case 6.84
Portrait attachment 1.50

The Ansco Memo Camera—50 Pictures with One Film

A New Idea in Picture Taking

Simple—Sure—Inexpensive

Soft Suede Case Included free with each Memo Camera

The camera sensation of a decade. Not for motion pictures, but uses standard 35 millimeter motion-picture film, specially cartridged for daylight loading, 50 exposures to a cartridge. Films may be printed in three ways: (1) Contact strips, each picture exactly the size of one motion-picture frame, or 2 on 3¼x4¼ paper, using Memo Film Enlarging Printer, a rapid machine which does not require enlarging paper; and (3) on positive motion-picture film for use in still-film projectors.

Camera body measures only 2 x 2½ x 4 inches. Weight loaded, 12 ounces. Direct-vision telescope finder, F 6.3 lens, automatic exposure counter, simple rapid device for winding film. No focusing. Regular folding camera shutter with speeds 1/25, 1/50, 1/100, Bulb, Time. Retail price each, including soft suede case, $20. Memo Camera Film, per cartridge of 50 exposures, retail price $.50.

A 48-page booklet on the Memo Camera and its uses will be forwarded by Ansco Photoproducts, Inc., Binghamton, N. Y., to any address upon request.

E200+7 Ansco Memo Camera, with case $33.95
E200+8 Film, for above camera, 50 exposures 86

THE ABOVE PRICES ARE SUBJECT TO THE REGULAR DISCOUNT.

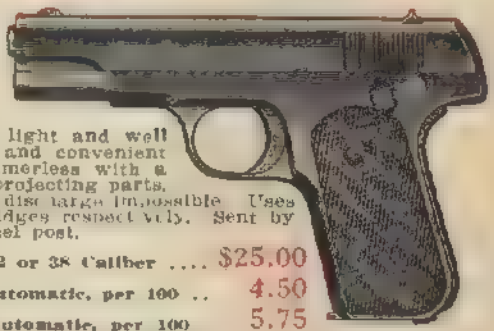
25 Caliber Colt Automatic Pistol

The 25 Caliber Colt is the famous POCKET MODEL, produced to meet the demand for an arm that would combine extra light weight and very small size with the essential features of a PRACTICAL and EFFICIENT MODEL. Being flat and compact (only 13 ounces in weight) and 4½ inches long, this model can be carried in vest pocket or ladies' handbag ready for instant use, with perfect safety, for it has a special double safety device that prevents accidental discharge. It has no equal for its size for POWER, ACCURACY and EFFECTIVENESS. Blue steel finish, checkered walnut grips Capacity 7 shots. Fires any 25 cal Automatic Cartridges Shipped by Express only Revolvers, Pistols and Cartridges cannot be sent by parcel post.

No. 9032. Colt Automatic Pistol, 25 Caliber. Price..... $20.00

No. 9057. Cartridges for above, 25 Caliber Automatic, per 100.. ..... 3.75

32 and 38 Caliber Colt Automatic Pistols



This is the well known pocket model Colt Automatic Hammerless Pistol. It is made in 32 and 38 caliber firing 9 and 8 shots respectively. Measures about 7 inches in length, and weighs about 1¼ lbs. Blue steel finish, checkered walnut grips. This pistol is popular because it is a light and well balanced arm, yet very powerful and convenient as a personal weapon. It is hammerless with a solid breech construction—has no projecting parts. The Safety Lock renders accidental discharge impossible Uses 32 and 38 caliber Automatic Cartridges respectively. Sent by express only. Not allowed by parcel post.

No. 9033. Colt Automatic Pistol, 32 or 38 Caliber $25.00

WIGL-Y-RIND.

IT SWIMS THE RIND AND GETS THE BIG FISH
THE NEW
WIGL-Y-RIND
CASTER CHUB BAITS CATCH MORE FISH
MADE BY CREEK CHUB BAIT COMPANY GARRETT INDIANA

New development in popular pork rind lure. The body is a weighted brass shell, highly nickeled and polished; the single hook is rigid, it can be easily and quickly removed and loose double hooks substituted or the body and spinner can be used with any standard bucktail or streamer fly. Four color card is 1¼ inches wide and 11 inches high and mounts six lures, with double easel.

Per Card

No. S-WR—Baits; Wigl-y-Rind Card; one card in a box. . . **$6.80**

Per Dozen

No. S-S10—Baits. **$13.60**

LUCKY MOUSE.

Life-like imitation of a swimming mouse, a top-water lure. Slowly reeled it gives every appearance of a mouse and when retrieved at a moderate fast speed, produces a churning effect in the water. The two hooks are so placed as to make it a very sure hooker and they cannot become entangled.

Four color card, 1¼ inches wide and 11 inches high, with double easel, mounts 2 each of 3 colors.

YELLOW KID.

A floater and surface bait, made of red cedar heavily coated with water-proof porcelain enamel, fitted with three nickel plated treble hooks which can be instantly detached. Polished spinner securely fastened to head of bait and revolves very freely on brass bearing. This bait is a killer for bass, either for river or lake fishing.

Per Dozen

No. S-YK—Baits; yellow with gold spots; weight doz., 2 lbs **$8.00**

CREEK CHUB.

THE NEW PIKIE.

This new nature lure so closely imitates the pike minnow in shape, color and movement that the combativeness of the bass is aroused and they strike to kill.

It's a near surface wiggler, or by turning up the screw-eye a few turns and reversing the mouthpiece you have a surface splatter.

Slim body 4½ inches long; weight, ⅝ ounce; rust-proof, bronze hooks to blend with color of body; all hooks including the tail hooks set in sockets to hold same away from the body.

Per Dozen

No. S-700—Baits; natural pikie, scale finish. **$16.00**

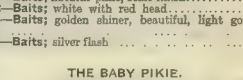
No. S-704—Baits; golden shiner, beautiful, light golden sides **16.00**
No. S-718—Baits; silver flash **16.00**

THE BABY PIKIE.



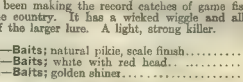
Patents pending.

This neat little 1¼ ounce lure, 3¼ inches long, is in answer to the demand for a smaller bait than the now famous Pikie Minnow, which has been making the record catches of game fish in every part of the country. It has a wicked wiggle and all the good qualities of the larger lure. A light, strong killer.

Per Dozen

No. S-900—Baits; natural pikie, scale finish. **$15.20**
No. S-902—Baits; white with red head. **15.20**
No. S-904—Baits; golden shiner. **15.20**

JOINTED PIKIE.



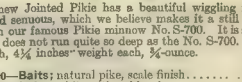
This new Jointed Pikie has a beautiful wiggling movement, flexible and sensuous, which we believe makes it a still better fish getter than our famous Pikie minnow No. S-700. It is a very easy caster and does not run quite so deep as the No. S-700.

Length, 4¼ inches weight each, ¾-ounce.

Per Dozen

No. S-2600—Baits; natural pike, scale finish. **$20.00**
No. S-2602—Baits; white with red head. **20.00**
No. S-2604—Baits; natural golden shiner, scale finish. **20.00**
No. S-2618—Baits; new silver flash. **20.00**

JOINTED BABY PIKIE.



This peppy little wiggler is about the size of the live bait generally used. A deadly killer in rivers and lakes, especially in the new silver flash finish, which so closely imitates the silver shiner minnow. In retrieving this lure, try stopping and starting it or changing the speed of reeling, it will win you many strikes. Length of body, 3½ inches; weight, ½ ounce.

Per Dozen

No. S-2700—Baits; natural pikie, scale finish. . . . **$18.40**
No. S-2702—Baits; white with red head and tail . . . **18.40**
No. S-2704—Baits; natural golden shiner, scale finish. . . **18.40**

ARTIFICIAL BAITS.

CREEK CHUB.

NEW CASTROLA.

Something new in a motion, just like a real live minnow chasing a fly hither and thither, up and down, sideways; the most erratic, puzzling, teasing motion you ever saw. You can't imagine it until you see it, just vary the speed at which you reel now fast, now slow, then a little jerk and the antics this baby cuts up will tease the wariest old he-bass into an excited rush and vicious strike. It is a perfect caster and equally good for trolling; 3½ inches long; weighs ¾ ounce.

	Per Dozen
No. S-3100—Baits; natural pikie, scale finish	**$13.60**
No. S-3101—Baits; natural perch, scale finish	**13.60**
No. S-3102—Baits; white with red head	**13.60**

No. S-3108—Baits; rainbow	**13.60**
No. S-3118—Baits; the famous silver flash	**13.60**

CHUB WIGGLER.

3½ inches long. A creek chub has always been considered the king of live baits. Exact in appearance and movement to the creek chub minnow is the Creek Chub Wiggler. Weighs only one ounce.

	Per Dozen
No. S-100—Baits; natural creek chub, scale finish	**$15.20**
No. S-101—Baits; natural perch, scale finish	**15.20**
No. S-105—Baits; red side minnow, scale finish	**15.20**
No. S-102—Baits; white with red head	**15.20**

BABY CHUB.

Has all the features of the Creek Chub Wiggler except that it is smaller in size and therefore does not run so deep. Length of body, 2¾ inches; weight, ½ ounce

Per Dozen

No. S-200—Baits; natural creek chub, scale finish **$15.20**

HUSKY MUSKY.

Husky Chub minnow for musky fishing. Length, 5 inches; weight, 1½ ounces. Large strong hooks, heavy yet light enough to cast. When reeled slowly makes a big swirl on the surface. Has big wiggle below surface. Is good for muskies and other large fish.

	Per Dozen
No. S-602—Baits; white, red head	**$20.00**
No. S-601—Baits; natural perch, scale finish	**20.00**

CRAWDAD WIGGLER.

Shell finish and nearest to the live crab in looks and movement. Natural shaped body and tail, black bead eyes, rubber legs and bronze hooks.

Floats when not going. Tail guards hooks.

Per Dozen

No. S-300—Baits; length of body, 2¼ inches; weight, ¾ ounce **$15.20**

NEW BABY CRAB.

Per Dozen

No. S-415—Baits; body, 2½ inches; weight, ½ ounce; natural shell finish; wonderful tail movement; gets the small mouth bass when other baits fail **$15.20**

INJURED MINNOW.

A great surface bait. Acts like a crippled or wounded minnow. Fish will always take a lure which they believe to be in trouble and easy to catch. Spinners have a buzzing vibration which is very attractive. This bait is a great killer on the surface. Length of body, 3¾ inches; weight, nearly ¾ ounce.

	Per Dozen
No. S-1505—Baits; red side, scale finish	**$16.00**
No. S-1521—Baits; luminous	**16.00**
No. S-1518—Baits; silver flash	**16.00**

NEW CREEK DARTER.

The Creek Darter, a rather slim lure, 3¾ inches long and weighing a little over one-half ounce, is as its name indicates a bait which when going through the water darts about near the surface in a life-like manner.

Per Dozen

No. S-2000—Baits; frog coloration **$12.00**

FLY ROD CRAWDAD.

A light little lure with body about an inch long, squirrel tail, claws, feather legs and tail. No. 1/0 O'Shaughnessy hook. Made to float and for use with split shot.

Per Dozen

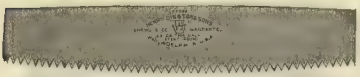
No. S-F-50—Baits; natural crab color **$12.00**

No. S-F-51—Baits; tan **12.00**

DISSTON'S.

Disston Cross Cut Saws are made of crucible saw steel, hardened and tempered, taper-ground, uniform in thickness on cutting edges and a relative and uniform thickness throughout the body of the saws; the taper being ground on lines conforming to the breast of the saw to a thin or extra thin back, gives the saw the maximum amount of clearance at all parts of the blade without sacrificing their weight, stiffness or elasticity.

TENON TOOTH.



Taper ground. Two gauges thinner on back than on tooth edge, to prevent binding of saw. Filed and set ready for use.

Saws	2T-5	2T-5½
Length, feet	5	5½
Width, center, ins	6¾	7
Width, ends, ins	3⅝	3⅝
Weight each, lbs	5½	7
Each	$6.60	7.30

CHAMPION TOOTH.

Thickness of cutting edge, 14 gauge; thickness at back, 18 gauge. Filed and set ready for use.

WEB SAW BLADES.

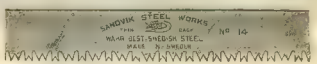
SANDVIK.

Made from the famous Sandvik steel which is known the world over for its high and uniform quality. Only specially selected material is used in the manufacture.

Uniform temper, extra thin backs, accurate and even thickness, scientific precision and keen, lasting sharpness of the teeth.

Saws are filed, set and ready for use.

CHAMPION TOOTH.



Per Dozen

No. 14—Saw Blades; width, 2 inches; length, 39 inches; weight per dozen, 7 lbs **$19.20**

PEG TOOTH.

Per Dozen

No. 970—Saw Blades; peg teeth, with square gullets; width, 1 inch; length, 42 inches; weight per dozen, 6 lbs **$21.50**

RAKER TOOTH.

Designed for work on soft and burnt pulp wood, but is now rapidly being adapted for all purposes; used successfully for both summer and winter cutting.

Per Dozen

No. 132—Saw Blades; four teeth and a raker; width, 1¾ inches; length, 42 inches; weight per dozen, 4⅛ lbs..... **$22.10**

Half dozen in a package.

WEB SAW FRAMES.

SANDVIK.

Made from selected quality of cold drawn, seamless Swedish steel, light in weight, well balanced, strong and able to withstand the tension of the saw blade. Special stretching device which gives this frame unequalled stretching power. The tightener is folded back into the tube, making the handle smooth and enabling a firm and easy grip. When changing blades, just release the lock on top of frame, open tightener downwards, insert saw and pull frame apart to obtain suitable tension.

Frames are easily taken apart and may readily be carried in the knapsack.

Without Blades.

Per Dozen

No. 25—Saw Frames; without blades; adjustable for saws, 36 to 42 inches; weight each, 4 lbs **$67.20**

One in a package.

ELECTRIC FANS.

DAY-FAN.

Cast iron, fully machined case, insuring permanent accuracy and alignment of the heavy bronze bearings. Oscillating mechanism a part of the fan; simple and flexible in construction and operation; emergency release and start; single knurled knob controlling oscillation or fixed position. Guard and supports welded throughout, amply strong and cannot loosen or rattle. Ball bearing spindle. Base cover of steel plate with flat rubber pads that cannot come loose, instructions are fixed to this plate. Insulation on all coils is moisture and fool proof. Have no equal in air delivery per size or per watt of current. Attractive appearance with good lines and a baked enamel finish, with nickel trimmings and black blades. In general, it may be said that no expense has been spared to make this fan the best product of its kind, a fan you can sell and recommend.

EIGHT INCH FANS.

EVEREADY RAYTHEON TUBES

YOU CAN

HEAR

THE DIFFERENCE

AND

SEE

THE REASON

Eveready Raytheon Screen Grid Tube, ER 224. *The size and weight of the elements in this super-sensitive tube make the 4-Pillar, cross-anchored construction absolutely vital to proper tube performance. Without Eveready Raytheon's sturdy construction, the tube is delicate, liable to severe damage in shipment*

FIND OUT for yourself what people mean when they say that Eveready Raytheon Tubes give greater distance, more volume, better tone—try them in your own A.C. receiver!

Then look at these tubes. See the solid, four-cornered glass stem, supporting four rigid pillars which hold the elements. This patented *4-Pillar construction* is anchored at the top as well—by a stiff mica plate.

These elements can't be distorted by the jolts and jars of shipment, or by the necessary handling of the tubes.

You can easily understand, now, why these tubes come to you, and go to the radio receivers of your customers, in perfect condition. They will perform as well for your customers as they must when we test them in our laboratory. They run uniform, too, and the A.C. *heater* tubes are quick acting. The wonderful performance of Eveready Raytheon Tubes means greater satisfaction for your customers. And a minimum of replacements for you to bother with.

4-PILLAR TUBES

EVEREADY RAYTHEON TUBES

NO OTHER TUBE IS SO STRONGLY BUILT AS

EVEREADY RAYTHEON

Look at this exclusive 4-*Pillar construction* —with its eight points of support—cross-anchored top and bottom. No other tube can be built like this, for it is patented!

No legal troubles with Eveready Raytheons. No "frozen" stock. And you stand to profit by all worth-while tube patents.

TELEVISION TOO!

Eveready Raytheon is among the first to produce television tubes for sending and receiving, for talking movies and similar uses. The Eveready Raytheon line is complete—with standard receiving tubes, battery and A.C. operated, rectifying tubes, Foto-Cells and Kino-Lamps. In addition, we developed and make the original gaseous rectifying tube for "B" eliminators the famous B-H tube —for which there is an enormous sale.

NATIONAL CARBON COMPANY, Inc.
General Offices: New York, N Y.
Branches: Chicago Kansas City
New York San Francisco
Unit of Union Carbide and Carbon Corporation

The Eveready Raytheon **Kino-lamp** *for television reception is the first tube developed commercially which will work with all systems*

The Eveready Raytheon **Foto-Cell** *is a long-life transmitting tube for television. Used also for talking pictures.*

NESTOR JOHNSON'S NORTH STAR.

These skates have features that have made them famous the world over One piece cold drawn seamless heel cup, no seams to spread, no joints that loosen, is a masterpiece in drawing of steel There is a patented rub on the runner tube, strong rigid, runner cannot spring or bend High carbon crucible tooled steel runners tempered by Nestor Johnson process that insures speed, safety and a firm grip.

No aluminum or aluminum alloy is used anywhere in their construction. Remember that Nestor Johnsons are all steel and full tubular. Aluminum finish is only used as a surface to give them their beautiful attractive appearance.

NORTH STAR MEN'S RACING.

Aluminum Finish.

No. S-32—Skates; men's racing; sizes, 5 to 12.
Full sizes only.

Nickel Finish.

Same as aluminum finish listed above, except nickel plated finish skate.

Same as aluminum finish listed above, except nickel plated finish skate.

No. S-35—Skates; ladies' racing; sizes, 3 to 9.
Full sizes only.

	Per Pair
Aluminum finish, all styles and sizes	$10 00
Nickel finish, all styles and sizes	12.00

NORTH STAR MEN'S HOCKEY.

Aluminum Finish.

No. S-34—Skates; men's hockey; sizes, 5 to 12.
Full sizes only.

Nickel Finish.

Same as aluminum finish listed above, except nickel plated finish skate.

No. S-33—Skates; men's hockey; sizes, 5 to 12.
Full sizes only.

NORTH STAR LADIES' HOCKEY.

Aluminum Finish.

No. S-38—Skates; ladies' hockey; sizes, 3 to 9.
Full sizes only.

Nickel Finish.

Same as aluminum finish listed above, except nickel plated finish skate.

No. S-37—Skates; ladies' hockey; sizes, 3 to 9.
Full sizes only.

Note—Average weight per pair, men's skates and shoes, 4 lbs.; ladies' skates and shoes, 3 lbs. Shoes not made in half sizes as there is only a difference of $\frac{3}{8}$ inch in length between sizes. Length of skate depends on size of shoe.

NESTOR JOHNSON'S NORTH STAR.

FANCY OR EXHIBITION.

This splendid outfit is primarily a rink skate. It is very fast and thus adds a new charm to graceful exhibition skating. The saw tooth blades are rockered to a very small radius. Wonderful skating exhibitions have resulted from the use of the tubular style of skate.

Skates furnished with ladies' or men's shoes. Nickel plated finish only.

Nickel Finish.

Per Pair

No. S-61—Skates; men's fancy; sizes, 6 to 11.....$15.00

No. S-65—Skates; ladies' fancy; sizes, 3 to 8..... 15.00

Full sizes only.

MEN'S SPECIAL HOCKEY WITH HARD BOX TOE.

This special hard toe hockey outfit has the patented Nestor Johnson rattan feature. Strips of rattan sewed in so as to prevent injury to the foot, forming the best and safest shoe for hockey. The box toe is guaranteed to be moisture proof and stand up under any condition. The skates are regular Nestor Johnson quality with patented rib feature, known as the sturdiest tubular skates made.

Nickel Finish.

Per Pair

No. S-733—Skates; men's hockey; sizes, 6 to 12.....$15.00

Full sizes only.

NESTOR JOHNSON FLYERS.

This is a new line of tubular skates, complete with shoes, known as the Nestor Johnson Flyers. They will be furnished in hockey and racer styles, men's and women's. The skates will be of a quality that will surpass any of the so-called competition skates.

TUBULAR HOCKEY.

Attached to shoes that are made from leather and that are lined on the inside with webbing to prevent them stretching.

Aluminum Finish.

Per Pair

No. S-44—Skates; men's hockey; sizes, 5 to 12.....$7.50

No. S-48—Skates; ladies' hockey; sizes, 3 to 9..... 7.50

Nickel Finish.

No. S-41—Skates; men's racing; sizes, 5 to 12..... 8.50

No. S-45—Skates; ladies' racing; sizes, 3 to 9..... 8.50

Full sizes only.

JUNIOR TUBULAR.

A skating outfit especially designed and made for children from six to twelve years of age.

An all steel full tubular skate. High quality, comfortable, well fitting shoe; skates of hockey type; aluminum finish. In sizes 11 to 4 only. Complete with shoes.

Aluminum Finish.

Per Pair

No. S-77—Skates; junior hockey; sizes, 11, 12, 13, 14, 1, 2, 3 and 4.....$7.00

Full sizes only.

Note—Average weight per pair, men's skates and shoes, 4 lbs.; ladies skates and shoes, 3 lbs. Shoes not made in half sizes as there is only a difference of $\frac{1}{6}$-inch in length between sizes. Length of skate depends on size of shoe.

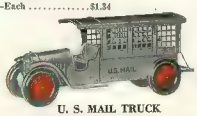
No. N93945—Each $1.34

SPEED WAGON

A delivery truck with driver's seat and canopy. Roomy body, drop tail gate with latch and moves on large imitation balloon tires. Length 17".

No. N93949—Each $1.34



U. S. MAIL TRUCK

A duplicate of the U. S. Mail truck in miniature. Has large imitation balloon tires, tail gate and steel body. Its realistic design is quickly noticed in the crossbar body effect. Strongly reinforced of heavy pressed steel, it will stand up under a lot of abuse. Length 17".

No. N93952—Each $1.34

POLICE PATROL

Featuring inside seats, canopy driver's seat, rear step and hand rails. Here is a toy that is built with a large motor hood and a well designed body. No playroom is complete without a police patrol, and to play policeman is a favorite game of all youngsters. Length 17".

No. N93950—Each $1.34

GIANT GRAB BUCKET

Exactly like the big steam operated machines you have seen in gravel beds. Picks up sand, swings and dumps it wherever you choose. Length 15".

No. N93963—Each $2.68

The same as above but smaller size 14" long.

No. N93956—Each $1.34

SAND LOADER

A practical sand loader. Operates like the big ones. Height 12¼".

No. N93954—Each . . $1.34

GIANT STEAM SHOVEL

Cab, crane and all, swing around on the turntable base. Scoops up sand, gravel or stones and dumps them wherever you choose. Length 22½"

No. N93962— Each $2.68

The same as above but smaller size 16¾" long.

No. N93955 Each . . . $1.34

AIR MAIL TRANSPORT

A new pull toy model of the six-wheel U. S. Air Mail Transport featuring latticed sides, tail gate and large imitation balloon tires. Length 24".

No. N93961—Each $2.68

MOTOR TRANSPORT

This new pull toy is especially designed and strongly constructed to haul sand, stones, doll furniture, etc. Features six large imitation balloon tired wheels and tail gate. Length 24".

No. N93960—Each $2.68

Printed in U.S.A.

BUILT TO LAST STRUCTO TOYS A PLAYTIME AGE

Structo Toys are real models of real things. They are made of heavy pressed steel and are beautifully enameled. Some of them are run by powerful spring motors.

WHIPPET TANK

Just like the big ones they used in the World War. Driven by strong steel geared spring motor equipped with brake. Length 12".

No. N93945—Each $4.00

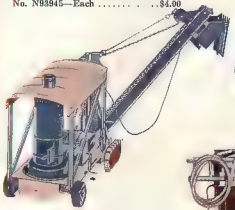
TRACTOR and SAND TRAILER

Driven by a powerful spring motor with steel gears

No. N93944—Each $4.00

The same as above but with three trailers.

No. N93946—Each $4.68



EXCAVATOR

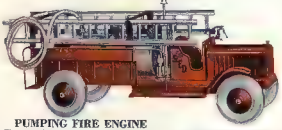
Chuck full of play value with its distinctive "seven operating features." This new item offers tremendous possibilities in construction work. Made of heavy pressed steel and beautifully enameled. Length 29".

No. N93966—Each $6.68

HOOK AND LADDER

A popular number with 6 four-section 8' extension ladder, hose reel with imitation hose and brass nozzle, brass bell, imitation balloon tires, rear step and hand rails. Length 24"

No. N93959—Each $2.68



PUMPING FIRE ENGINE

This realistic fire truck will actually put out fires. Has a large water tank and a real, accurately made pump which forces a stream of water out of the hose nozzle many feet into the air. Ladder extends 6'. Length 21".

No. N93964 Each $6.68

AMBULANCE

A pull toy featuring drop side cushions, inside seats, rear step and ladder. Strongly constructed of heavy gauge steel so as certain to stand up against exceptionally heavy abuse. Has a long Packard type hood. The top is removable. Length 19".

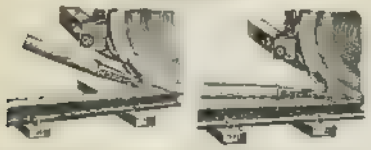
CAR MOVERS

BADGER



At Beginning of Movement At End of Movement

The Most Powerful Device Made for Handling Freight Cars.

Has Two "Never-slip" Four Cornered Spurs which Catch the Outer Edges of the Rail where it Is Soft and Not Alone on Top of the Rail Which Has Become Case Hardened from Contact with Car Wheels; These Spurs Can be Removed and Turned Three Times and Ends Changed Should the Edges Become Dull; By Use of the Double Spur a Double Hold Upon the Rail is Obtained and Thereby Double Resistance Offered Against Slipping.

It is Also Provided with a Cam, which is Pivoted to the End of the Main Lever in Such a Way that When the Handle is Pressed Down it Lengthens and Follows the Wheel, Adding an Immense Rolling Power.

So Constructed that When the Handle is Raised to Push the Mover Forward it Raises the Spur from the Rail, thus Doing Away with All Springs, which Weaken and Wear Out and Become a Source of Detriment and Trouble.

Black Japanned Malleable Iron Socket and Shoe; Special Tool Steel Spurs; Hard Maple Handle; Varnished Two Coats; Length Over All, 62½ inches; Diameter of Handle at Socket, 2¾ inches.

Each

No. BADGER—Weight Each, 15 lbs. . . **$12 50**

No. BEH—Handles Only **4 00**

Loose

RICHTAL
SAMPSON PATTERN

Light in Weight, but Powerful and Compact, the Leverage of this Mover Being Compound, as Soon as Pressure is Brought to Bear Upon the Handle the Two Points Will Come in Contact with the Car Wheel at the Proper Rolling Distance from the Point Where the Wheel Rests on the Rail and in Consequence the Car Wheel is Forced to Turn Instead of Being Lifted from Track as is the Case with the Ordinary Pinch Bar and Many Modern Car Movers.

CAUTION—When Moving Heavy Loaded Cars, Turn the Cam (0) Back and the Power is Increased Over 25 per Cent. (But the Speed is Decreased). When Moving Light Loaded or Empty Cars Turn the Cam (0) Forward and the Speed is Increased Over 25 per cent. (but the Power is Decreased). When the Edge of Spur Becomes Dull, Simply Loosen the Nut on Bolt that Passes Through the Clamp (11) and Shoe (8) and Turn the Spur Over to a Sharp Edge. Keep the Opening Under the Spring (4) Reasonably Free from Dirt, Gravel, etc.

Black Japanned Malleable Iron Socket and Shoe; Tool Steel Spurs; Hardwood Handle; Length Over All, 5 feet 3 inches. Diameter of Handle at Socket, 2¾ inches.

Each

No. RICHTAL—Weight Each, 15 lbs. . . . **$9 00**

Loose

CAR MOVERS

NEW SMILEY

Convenient, Efficient, Safe

Powerful in its Action; One Man Can Move Three Loaded Cars Coupled Together, or One Man Can Move a 180 Ton Locomotive. The Spur Spools have Twelve Cutting Edges on Each Side, Three Times More than Any Other Mover; The Special Safety Stop Feature Blocks the Wheels of the Car on a Grade, Also Prevents Bruised Knuckles and Knees for the Operator.

Malleable Iron Handle Socket, Cam and Shoe; Special Steel Spur Spool Grips Rail; Hardened Roller Rolls on Wheel Rim as Car Moves; Handle 4½ feet Long.

Each

No. SMILEY—Weight Each, 15 lbs. **$7 70**

Loose

CROW BARS

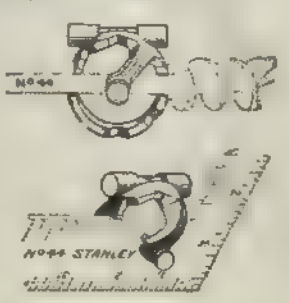
BIT AND SQUARE LEVELS

STANLEY

This Tool has Three Pairs of V Slots on its Back Edges. The Shank of a Bit will Lie in These Slots, Either Vertical or at an Angle of 45 Degrees, and Boring can be Done with Perfect Accuracy. It can also be Attached to a Carpenter's Square, Making it an Accurate Plumb or Level.



Per Dozen

No. 44—Cast Brass Frame and Set Screw; Proved Glass; Width, 1 1/8 inches; Weight Each, 3 ozs.; Weight per Dozen, 2 1/4 lbs. $9.50

Twelfth Dozen in a Box

FARM LEVELS

BOSTROM

Telescope is "Achromatic," giving a Clear Field, and was Designed Especially for this Instrument; and Gives the Operator a Longer Range and Clearer Sight; You Can Read the Cross on the Target at a Distance of About One-Fourth of a Mile, in any Direction, thus being Enabled to Cover a Scope of One-half Mile, as the Turret Carrying the Telescope Revolves.

The Line of Sight is Arrived at by Cross Hair Lines Set in the System of the Magnifying Glasses in the Telescope, and which Cannot be Dislodged or Destroyed. The Turret Carrying the Telescope and Bubble Revolves so that the Telescope may be Pointed in any Direction Desired, without the Necessity of Readjusting the Level.

Rod and Target Composed of a Telescopic or Sliding Target Rod, with Thumb Screw for Securing in any Position and is Graduated to Feet, inches and One-fourth of an inch. Telescoping to Five Feet when Closed, and to Nine and One-half feet when Extended, the Target is Sliding and of the Usual Form.

Plumb Bob Included which Adapts the Lever to the Use of Architects, Contractors and Builders.

TRIPOD Composed of Three Wooden Legs and Head Receiving the Adjusting Head, Which Supports the Face Plate.

Adjusting Head is Screwed on to the Tripod and Carries Three Adjusting Screws for the Adjustment of Face Plate and Level to a Perfectly Horizontal Position. Face Plate is Attached to the Adjusting Head by a Screw and Strong Spring which Presses the Face Plate Firmly Against the Ends of THREE Adjusting Screws, and at the same time Insures a Flexible Joint, so that the Face Plate can Adjust Itself to any Position. For the Purpose of Obtaining any Angle Desired, this Face Plate has a Graduated Circle, Divided into 360 Degrees, Numbered from Zero to 90 Degrees in Both Directions, Giving Zero Points on Opposite Sides of the Circle.

Each

No. F—Farm Level Complete with Level, Telescope, Target and a Plumb Bob, all Packed in a Neat Wood Box; Tripod and Sliding Target Rod Wrapped; Weight Each, 11 lbs. $32 00

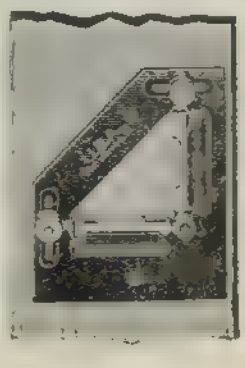
UBA



An All Around Level and Plumb which can be Applied to Any Length Straight Edge.

Quick to Apply, Easy to Adjust; Has Heavy Double Black Lined Glasses with Large Quick-Acting Bubbles; on Account of its Patented Adjustment Feature it has No Equal For Grades and Pitches; Rust Proof Finish

Per Dozen

No. UBA—3x8 1/4 inches; Weight per Dozen, 3 lbs. $22.50

Twelfth Dozen in a Box

LEVELING STANDS

STANLEY

Used in Connection with a Wood or Iron Level and a Pair of Level Sights will be Found in Many Cases a Very Satisfactory and Inexpensive Substitute for the More Expensive Surveyors' Instruments. Readily Determines Levels from a Given Point to One at a Distance Such as Locating or Setting the Profiles for Foundation Work, Ascertaining the Proper Grades for Drains, Ditches, etc.; May be Used on a Reasonably Level Surface or Placed on a Pole or Crow-Bar even when Same are not Exactly Perpendicular. Base has Three Supporting Arms on which the Stand Proper Rests and by Slightly Adjusting Screws the Swivel Part of the Stand can be Made Exactly Level. A Bolt Passes Through the Stand and is Screwed into the Base Holding the Two Parts Together When Adjusting the Level for Use. The Swivel is Accurately Machined so that it Works Freely and can be Locked in any Position Desired by the Small Knurled Screw under the Center.

Used on a Pole

AIR COMPRESSORS

CURTIS—SINGLE STAGE OUTFITS

Pure Air for Your Customer Means Good Service, Because Oil Ruins Tires, and Air Free From Oil Means Fewer Blowouts—Fewer Punctures—Greater Tire Mileage—Less Repairs; Saves Them Many Dollars Up-Keep Every Month.

A Few Curtis Exclusive Features

Controlled Splash Self-Oiling System, with Cylinder Oiling Permanently Regulated. No Oil gets into the Tires to Rot them. Compressor will Run Ten to Fifteen Times as Long on the Same Amount of Oil.

2. High and Low Level Oil Filling Gauge, so You can Tell at a Glance the Amount of Oil in the Crank Case.

3. Fan Fly Wheel Assists in Cooling the Cylinder.

4. Valves of Light Weight and Large Area, Inspectable Without Removing Head.

5. Safety Cage Prevents Possibility of Broken Valves Dropping and Wrecking the Machine.

6. Hand Unloader Permits Starting Against Dull Tank Pressure Without Burning Out Motor, Blowing Fuses, Burning or Jumping of Belt.

7. Large Drop-Forged Crank Shaft. Adjustable, Renewable, Die Cast Non-Cutting Bearings.

8. Head Removable Without Breaking Pipe Connections. Only One Gasket.

W&D BULLET

W&D RECORD

Golf the fastest-growing game in America, is putting Golf Balls near the top of the list of all sporting goods for fast selling and quick turn-over merchandise. When you stop to consider that the consumption of golf supplies for the year 1928 is estimated to show an increase of over 100% over the year 1924, some idea can be gained as to the rapid development of this sport. Golf Balls should interest every wide-awake dealer, as they not only show a good return for themselves, but stimulate the volume and profit on other sporting goods. New private clubs and civic links are being opened every year, as well as the new "Pay As You Play" clubs which are proving to be very successful. We strongly urge a stock of Golf Balls for all dealers and know of no item which enjoys better repeat sale. We believe the desire of the individual player, as well as the dealer, should be carefully considered in the selection of Golf Balls and this theory has been foremost in our minds in assembling our stock. Our range of values and numbers are offered with the firm conviction that they are the best to be had, from the SIREN and SILVER KING for the professional, to the ARCH COLONEL and MIRACLE for the beginner.

IRON PUMPS

SET LENGTH PUMPS

3×10 in. cylinder, best grade plunger and valve leathers, cast iron standard with flanged top. Flanged cap with three bolts. Painted red. Tapped for 1¼ pipe.

Has the regular four-foot set length and is especially adapted for cisterns or wells not over 25 ft. deep. By lowering the cylinder to within 15 ft. of the water, it may be used in deeper wells.

No. T50—Iron cylinder, **with brass valve seat,** w't 63 lbs.....each $12.75

No. T210—Brass lined cylinder, **with brass valve seat,** brass plunger yoke, and poppet valve, w't 63 lbs., each $16.10

W't each, lbs.	2	2¼	2½
Each	$1.65	2.00	2.20

LOOSE

SET–LENGTH FORCE PUMPS

ANTI-FREEZING, FOR HAND USE

Strong and serviceable, intended for use over shallow wells and cisterns, and can be used for forcing water through a hose, or through pipes attached to the back outlet.

STOCKS are tapped in rear of spout for 1¼-in. pipe, so water can be conducted to any desired point. **SPOUTS** are bolted to the standard, and the **COCK SPOUTS,** shown below, will interchange with the Plain Spout. All spouts have a connection for ¾-in. hose. Pipe screws into the standard at the spout, and three wooden wedges are driven between base of pump and the pipe, holding the pipe firmly in position and preventing injury to the threaded joint at the spout. **AIR CHAMBER,** above the spout has an inner tube running down from the stuffing box to prevent the escape of air around the piston rod. **PISTON ROD** is polished steel, but brass covered piston rods can be furnished at an additional cost. **STUFFING NUT** is brass. **STROKE** of Pumps, 6 inches.

PUMP has a flanged cap or bearer and an extra link below the end of handle provides necessary play to avoid cramping of piston rod and wear at the stuffing box.

Set-lengths regularly measure 4 ft. from base to bottom of cylinder, but longer set-lengths can be furnished at an extra charge.

These pumps are furnished with our regular 10-in. cylinder, equipped with high grade valve and plunger leathers.

Never use more than 20 feet of pipe below the cylinders.

WITH PLAIN SPOUT

No. T415½—With iron cylinder, size cylinder 3×10 in., size pipe 1¼ in., w't 85 lbs.....each $19.75

No. T415½B—With brass lined cylinder, size cylinder 3×10 in., size pipe 1¼ in., w't 85 lbs.....each $23.45

WITH COMPRESSION COCK SPOUT

No. T515½—With iron cylinder 3×10 in., size pipe 1¼ in., w't 80 lbs.....each $22.00

No. T515½B—With brass lined cylinder 3×10 in., size pipe 1¼ in., w't 80 lbs.....each $25.65

COCK SPOUTS

No. T415½S—Compression Cock Spouts, each $3.00

LOOSE

UNDERGROUND VALVE FORCE PUMPS

ANTI-FREEZING

REVOLVING Flanged Top

Especially adapted for 2 and 2¼ in. Tubular Wells also for 1¼ in. pipe for open and drilled wells. By operating the wheel at the top of the Goose Neck, the water is discharged either through the spout or through the under-ground discharge. Suitable for operation by hand, windmill or pump jack.

Has a 1¼ in. **BRASS PACKING TUBE** with **2-LEATHER PLUNGER.** This Packing Tube is more satisfactory, as the leathers working in a brass tube wear much longer without leaking, than the ordinary stuffing box. **AND IN OUR CONSTRUCTION, THE LEATHERS ON THE PLUNGER IN PACKING TUBE CAN BE REPLACED WITHOUT DISCONNECTING THE PUMP FROM THE WELL PIPE.**

PACKING TUBE can be removed from the bridge piece, leaving an opening large enough to pull the Tubular Valves up through. **SET SCREW COUPLING,** connecting slide rod to plunger rod, is strong and convenient, and is better than the union often used.

All parts of this pump are strong and well made. Air chamber pipe is 1¼-in., and discharge pipe is 1¼-in., with Goose Neck threaded for 1-in. Hose Coupling. **UNDERGROUND DISCHARGE** is regularly for 1-in. pipe but can be for 1¼-in., when so ordered at the same price.

Length of this pump is 4 ft. 8 in. from base to elbow on underground discharge. Longer set lengths furnished when ordered, at additional cost.

REGULARLY FITTED; 2-in. well pipe, 1-in. underground discharge and 6-in. stroke. They can be furnished for 2½-in. well pipe at a small additional charge. They can also be furnished with adjustable (6, 8 and 10-in.) stroke, as listed below. Plunger of Packing Tube is threaded for ⅞-in. rod, and for ¾-in. pipe to fit regular wood rod coupling.

Suitable for use in wells of any depth.

Air chamber and discharge pipe are galvanized.

Nos.	T665	T665A
Length of Stroke, in.	6	Adjustable
W't each, lbs.	122	125
Each	$29.45	30.90

Cylinders not included. Must be ordered separately according to requirements, based on depth of well.

IRON WINDMILL PUMP STANDARDS

For Hand, Windmill or Pump Jacks

FORCE

WITH FLANGED CAP

Six inch stroke and adjustable 6 in. and 10 in. stroke, **PLAIN SPOUT** and **COMPRESSION COCK SPOUT** are interchangeable. Suitable for wells of any depth. Tapped in rear of spout for 1¼ in. pipe. Tapped just below the spout for 2 in. well pipe, and a 2x1¼ in. bushing is attached so that pump can be used with 1¼ or 2 in. well pipe. A tube, extending down from the cap prevents the escape of air from air chamber.

CAP IS FLANGED, and is fastened to the flanged top of standard by **THREE STRONG MACHINE BOLTS.** Six slots in flanged top of standard permit handle to be placed in any desired position. This construction is a decided improvement, much better than set screws or hook bolts generally used to fasten cap to pump standard.

PISTON ROD is polished steel, connected to the 1x3 in. slide rod by a strong set screw coupling. Piston Rod is threaded at the lower end for ⅞ in. rod, and for ¾ in. pipe. **STUFFING NUTS** are cast brass. Removal of Cap permits the withdrawal of tubular valves. **COLD ROLLED STEEL PINS** § in. diameter connect cap handle and fulcrum, and are much better than the rivets or common bolts commonly used by other manufacturers. Regularly furnished with plain spout. Be sure to specify if compression Cock Spout is wanted.

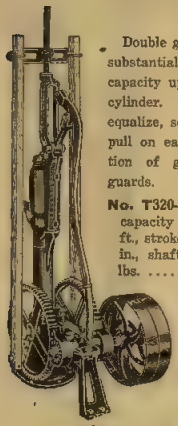
No. T415½S—Compression Cock Spout for Nos. T160 and T160A.....each $3.00

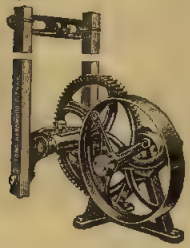
PUMP JACKS



Model TJ

Double geared clamp jack. A strong substantially built jack with a lifting capacity up to 200 feet, with a 2 in. cylinder. The gears automatically equalize, so there is always an equal pull on each set of gears. Intersection of gears protected by small guards.

No. T320—Gear ratio 5 to 1, lifting capacity 2 in. cylinder 150 to 200 ft., strokes 5, 7½, 10 in., pulley 13×2 in., shaft 1¼ in., shipping w't 100 lbs. .....each $15.10



Model KJ

Center-drive jack. May be placed in any position—on the floor, wall, ceiling, on a post or simply clamped to the pump standard and it will work more smoothly than the ordinary double geared jack. The single gear and single pulley reduces the friction surfaces nearly one-half.

Positive lubrication. All jacks are furnished with hard oil cups.

Gears are wide faced and mesh perfectly, transmitting all power of engine or motor.

Front clamp fastens firmly to any style pump standard, whether it be a single or two pipe stand or double cylinder pump. When the jack is clamped to pump, it is not necessary to bolt base to foundation. Nor is it necessary to clamp the jack to the pump if the base has been bolted to the platform.

No. T300—Gear ratio 5 to 1, lifting cap. 2 in. cylinder 200 to 250 ft., strokes 5, 7½, 10 in., pulley 13 in., shafts 1¼ in., shipping w't 85 lbs.....each $13.35

IRON WINDMILL PUMP STANDARDS

For Hand, Windmill or Pump Jacks

LIFT

With Flanged Cap

Can be furnished with 6-in. stroke, or with adjustable (6, 8 and 10-in.) stroke. Tapped just below the spout for 2 in. pipe. A 2×1¼ in. bushing is sent with each pump for use with 1¼ in. pipe, when used with 2 in. pipe and adjustable stroke.

Handles strong and heavy, proportioned to size of the pump. **Fulcrums** have extra wide base to provide long bearing on the pin. **Cold Rolled Steel Pins,** ⅝-in. diam., connect cap, fulcrum and handle. **Slide Rod** is 1×⅜ in., threaded at the lower end for ⅞-in. rod except on adjustable stroke pump when they are threaded for ⅞-in. rod and for ⅜-pipe to fit ordinary wood rod coupling.

Regularly fitted for 2-in. pipe and with 6-in. stroke. In ordering, be careful to state the size of the pump, length of stroke, and size of tapping.

	Medium	Medium	Heavy
Nos.	**T61**	**T61A**	**T62**
Length of stroke, in.	6	Adjustable	6

BREMER CHECK VALVES

Plunger

Check with Red Rubber Packer and Poppet Washer

All valves are of late pattern, mechanically developed for strength. Parts are made of very best brass metal mixture and surfaces not requiring to be machined are in natural rough finish, giving to valves added strength of the skin of the casting, its strongest part. Valves are fitted with best-quality Clayton Mark Red No. 707 cup leathers, and all rubber parts are made from special highgrade red rubber compound.

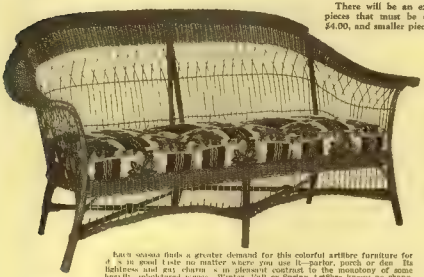
No. 478A—2 in. Plunger and check complete, per set $6.65

No. 478—Plunger only.....each 3.35

No. 479—Check only.....each 3.35

Karpen's Cool, Colorful Artfibre Furniture

There will be an extra charge for pieces that must be crated — sofa, $4.00, and smaller pieces, $2.00.



Each season finds a greater demand for this colorful artfibre furniture for it is in good taste no matter where you use it—parlor, porch or den. Its lightness and gay charm is an pleasant contrast to the monotony of some heavier upholstered pieces. Winter, Fall or Spring Artfibre knows no changing season, for its sunny cheerful colors give any room an animating loveliness which no other pieces bring. Davenport, 67 in. long; 28 in. deep; 33 in. high. Weight 56 lbs. uncrated.

Karpen furniture is nationally famous for its loveliness of design and goodness of quality All Karpen coverings are guaranteed against damages by moth for a period of three years from date of shipment from the factory Buy with confidence—own with pride.

This remarkable and dainty fibre table is as strongly built as it is original in appearance. Combines a two-fold utility with a shelf for books or magazines and a top for a lamp or a vase. Note particularly how strongly braced are the legs with the additional strength of double stretchers. Wood top, 22x11 in.; height, 28 in Weight, 12 lbs

No. 15F177. Each $20.00

Karpen Fibre Furniture—AwakeWith Laughing Color

This Karpen fibre suite is one of the newest and most popular designs of the season. It is hand woven around a steel cone for strength while sides and backs are of the stick fibre variety. Comfortable loose auto spring cushions. A suite any home may well be proud to show to either the living room where it is in good taste—the den, where its resilient comfort is fully appreciated, or on the porch where everyone can enjoy its cool, comfort all year 'round. This splendid suite is distinctly fashionable and our tremendous buying power has made its price so low as to offer huge savings on each piece. It's fairly awake and alive with color that laughs throughout the year. Cool in summer—warm in winter such fine fibre pieces know no changing seasons. And you may be sure that Karpen quality will make it last, to be enjoyed for many years. Davenport, 67 in. long, depth, 28 in.; height, 33 in. Weight, 39 lbs. uncrated.

Per Dozen

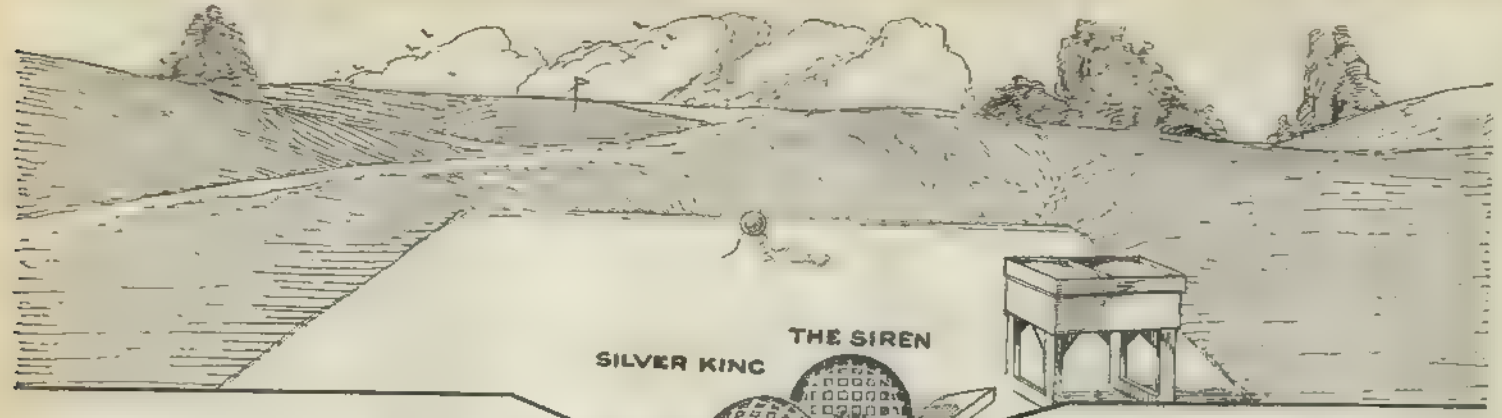
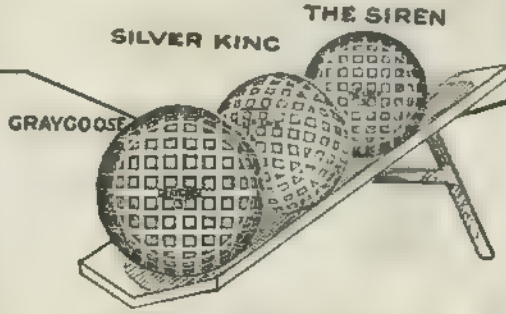
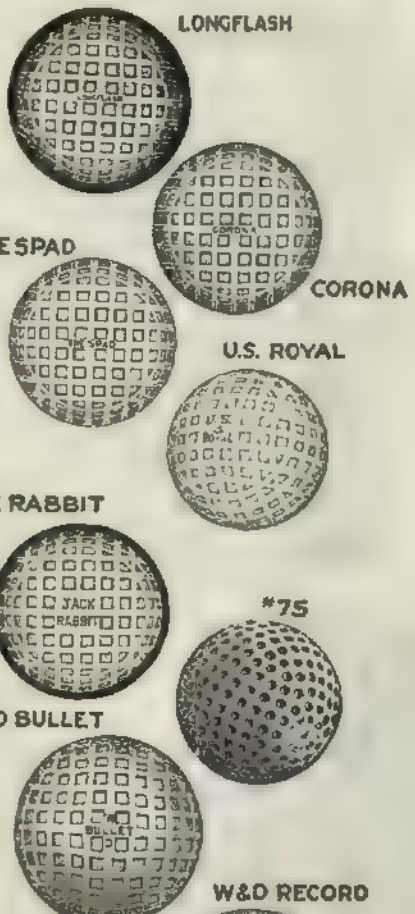
No. 1071—Height, 17¾ inches; Weight per Dozen, 27 lbs. **$96.00**

Twelfth Dozen in a Package.





Golf the fastest-growing game in America, is putting Golf Balls near the top of the list of all sporting goods for fast selling and quick turn-over merchandise. When you stop to consider that the consumption of golf supplies for the year 1928 is estimated to show an increase of over 100% over the year 1924, some idea can be gained as to the rapid development of this sport. Golf Balls should interest every wide-awake dealer, as they not only show a good return for themselves, but stimulate the volume and profit on other sporting goods. New private clubs and civic links are being opened every year, as well as the new "Pay As You Play" clubs which are proving to be very successful. We strongly urge a stock of Golf Balls for all dealers and know of no item which enjoys better repeat sale. We believe the desire of the individual player, as well as the dealer, should be carefully considered in the selection of Golf Balls and this theory has been foremost in our minds in assembling our stock. Our range of values and numbers are offered with the firm conviction that they are the best to be had, from the SIREN and SILVER KING for the professional, to the ARCH COLONEL and MIRACLE for the beginner.



GOLF BALLS

THE SIREN

Illustration Shows Perfect Centering of Core

OUR LARGEST AND BEST

Mirroscope

YOU CAN HAVE A

NEW SHOW EVERY NIGHT

Not a Toy—A Regular Machine

This Size Mirroscope Will Enlarge From Postcard Size to Seven Feet Upon the Screen

HERE is our largest, best and most powerful MIRROSCOPE. The Lenses are SO POWERFUL that the machine, if placed at a distance of about 16 feet away from the screen, will actually enlarge a picture from ordinary post card size to NO LESS THAN SEVEN FEET wide on the screen. This you can actually show pictures LIFE SIZE. Any thing not the picture placed in the machine will be shown greatly enlarged. Thus, at a distance of eight feet, a picture the size of an ordinary postage stamp will appear on the screen FOUR FEET. If pictures smaller than 3" inches long are used, the magic will be proportionately greater. The MIRROSCOPE provides home entertainment at its best. Post cards from the many interesting scenes of vacation trips, also snap shots or photos collected here and there. Even the old family album pictures all can be thrown on the screen with faithful fidelity. In fact any illustration from any source, COLORED or ALL IN ONE COLOR can be reproduced in enlarged and perfectly detailed form for a highly amusing entertaining evening. Thousands of pictures in great variety are always available. Picture post cards showing every part of the world, the leading buildings, streets, monuments, parks and other scenes in every city of any size are easily obtainable. Then there are pictures of sculpture and paintings in galleries all over the world, famous warships, exposition views, nature studies and countless others. The "Comics" from the daily and Sunday newspapers and pictures from magazines and newspapers yield plenty of new and interesting subjects.

And the beauty of it all is that it costs Nothing to see New Pictures

With the old magic lantern or even the most modern moving picture machine you are forced to continually replenish your slides and reels as the old ones quickly become uninteresting. Not so with this interest keeping, never growing

The Mirroscope or Projecting Lantern

PROJECTS POST CARDS OR ANY PRINTED PICTURES, SHOWS GREATLY MAGNIFIED VIEWS OF OPAQUE OBJECTS UPON SCREEN

The Mirroscope is a great improvement [illegible] **on magic lanterns because you have an unlimited supply of pictures** [illegible] **Post-Cards, photographs, engravings from illustrated papers and, in fact, any opaque object, such as moving works of a watch, living insects, and so on, can be projected upon the screen in exactly the same manner as the transparent slides in a magic lantern. With the Mirroscope you can have a REAL PICTURE SHOW. You can bring out the pictures you** [illegible] **last summer's** [illegible] **of that** [illegible] **picture and look at them just as you would. You can show all of the pictures collected on your vacation trip last summer and you can** [illegible] **Next Fall. You can do up to old family pictures and** [illegible] **pictures of their youth. You can have regular evenings of fun, when the whole family can be together and share the good times of a Mirroscope with you. And the beauty of it all is that it COSTS NOTHING to See NEW pictures. It is unlike the old magic lantern or even the more modern** [illegible] **in that** [illegible] **to** [illegible] **and** [illegible] **under the most favorable conditions, daylight. Not so with the Mirroscope, which shows the pictures clearly by artificial light, colored postal cards, illustrations from books or magazines, photographs, etc., as well as by daylight. It is the most instructive and entertaining toy ever invented for the home. Its use will not only afford the greatest pleasure to the children, but will also be a source of education to them. Where else can you find so much fun and instruction combined? Where else can you get so much for so little money? IMMEDIATE SALE. Send Now. Delay is not necessary. Your money back if you are not satisfied. Remember, the Mirroscope is not a toy, but a practical instrument, which will last for years. Can be used by old and young. Makes a useful present for any occasion. Great fun for evening entertainments.**

A COMBINATION OF

FUN and ENTERTAINMENT

For YOUNG and OLD

Snapshots, School Drawings, Sunday Comics, ANY PICTURE, ANY COLOR, ANY TIME.

Use it in connection with your Camera

All you need is an electric light socket.

MIRROSCOPE NO. 6011

[illegible] cost. It is equipped with [illegible] and polished lens, one [illegible] ventilator to [illegible] and [illegible] weight [illegible] picture, any color, any [illegible] No. 6011 Mirroscope. Price **$5 00**

MIRROSCOPE NO. 6012

[illegible] most [illegible] and [illegible] two [illegible] KEEP [illegible] No. 6012. Mirroscope. Price, [illegible] **$7 50**

source of amusement. With it you can show a different set of pictures every night for a week with the MIRROSCOPE there is always something new to see and never anything to buy. In the long winter evenings, stereo and other photos making charming vacation and picture post cards showing places visited can be seen over again to bring back pleasant memories and impressions of a trip. You can arrange quite an evening's entertainment by getting together a series of pictures, post cards, photos, interesting and newspaper pictures showing the sights of the larger cities, the Exposition, a trip to Washington, a trip through the Rockies, or to Florida. History spots of the Civil War, etc. In other evenings there can be a trip to London or to Paris, a trip down the Rhine, or to Egypt, Bible Scenes, and so on. Short lectures can be given, and if the occasion warrants it, an admission fee can be charged and is usually willingly given. This new Mirroscope can be a source of profit as well as pleasure. If you are interested in animals or birds or electricity or postage stamps or any other subject, it is easy to find all sorts of pictures that will form good illustrations for talks on the favorite topic you are interested in. For parties and entertainments, the MIRROSCOPE can be used to great advantage. Guessing contests can be arranged and prizes awarded to those guessing the greatest number of correct answers. For instance pictures of well known actors and actresses, public men and women, etc., are shown, and calling upon the audience to name them. Or advertising contests can be arranged. Part of an advertisement illustrating a well known article can be thrown upon the screen and the audience asked to state what it represents. It is impossible to tell you even one tenth of the ways you can entertain yourself, your family and your friends with the MIRROSCOPE. Every bright boy or girl will be able to think of dozens of other ways in which pictures of any kind can be combined with explanations, descriptions, jokes, etc., to the enjoyment of young and old.

The Mirroscope is exceptionally well made, the actual size being 13 inches long, 13 inches wide, 10 inches high; weight about 12 lbs. It is fitted with two No. 110 Plano-Convex Mirroscope Lenses of highest quality mounted in gun metal plated adjustable tubes with rack and pinion. The Reflector System comprises two parabolic reflectors, heavily plated, converging the light rays on the subject with great intensity. There are two large, adjustable Card Holders attached to self-closing doors mounted on a double compartment sliding carriage. The subjects are inserted in the holders without detaching the latter from the Mirroscope. A turn of the adjustment knob locks a square or rectangular subject in the card holder. The illuminating is really effected by two high efficiency lamps, with insulated lamp cord and attachment plug that is screwed into any existing lamp socket and the current is already for use. It is a highly efficient model, perfect working and brilliantly illuminated image.

No. 6013 MIRROSCOPE. Price Postpaid $22.50

A MARVEL IN BIBLE MAKING

Complete MINIATURE BIBLE

The Smallest COMPLETE *Bible in the World.*

Entire Text of Old and New Testaments

This is a Complete Bible of almost 1300 pages, containing the WORDS OF THE OLD AND NEW TESTAMENTS, in the exact order of the words, and about 2¼ in. long, yet **EVERY WORD** can be easily read by persons with normal eyesight. For those whose sight is failing or slight there is a low powerful magnifying glass, not only concealed when not in use within the cover, but making the printing easily readable from afar and without strain. **The Bible is not quite an inch thick, has red edges, handsomely bound in genuine leather, overlapping, and with snap fastener, as shown in illustration. The words "HOLY BIBLE" are printed in gold lettering on the cover. It is the most unusual Bible on the market. Wherever it is shown it arouses the liveliest interest. Everyone who sees it wishes a copy. It appeals not only to those who are interested in the Bible, but to anyone who values the unusual in the book-making art. Clergymen, Sunday School Teachers, Parents and others will recognize in this Bible a unique gift that cannot fail to be highly prized and cause the giver to be long remembered.**

No. 1383. Complete Miniature Bible, with Leather Binding (overlapping), square corners, red edges. Price each, postpaid $1.50

MOTO METERS

BOYCE

RED BALL ILLUMINATED STEERING COLUMN MOUNTING

Special for Fords and Chevrolets

Identical to Model "L" in Operation, But Different in Design to Accommodate Special Arm for Mounting on the Steering Column.

A Simple Strap that Fits Around the Steering Column Quickly Secures the Instrument Right Under the Driver's Eyes, and Makes it Unnecessary to Drill Through the Dash Board.

A Regular Tail Light Bulb Placed within the Instrument Provides Illumination for Temperature Reading at Night, But Night or Day, the Green or Red Ball Tells at a Glance the Thermal Condition of the Motor.

This Beautiful Silver Dial with the Car Name Plate in Color, Together with the Special Black Enamel Finish on the Mounting Arm, Add a Distinctive Note.

Special for Fords	Each	
No. FSMM—Model FS, Weight Each, 1½ lbs.....	$11.35	8.50

RADIO BAND MOUTH ORGAN

TWO MOUTH ORGANS for PRICE of ONE

FINE ORGAN TONE

80 Bell Metal Reeds

[illegible] want to know what a really excellent Mouth Organ sounds like, get a RADIO BAND. [illegible] SETS OF REEDS, [illegible] and in different keys in the [illegible] Mouth Organs combined [illegible] We can supply either of [illegible] of keys but we find [illegible] is the combination [illegible] [illegible] [illegible]

The MOST HANDSOME and BRILLIANT-TONED MOUTH ORGAN MADE

Length, Nearly 8 Inches. (The engraving is reduced in size to fit the catalog). Two Mouth Organs in One.

96 Finest Quality Steel Bronze Reeds on Heavy Brass Reed Plates.

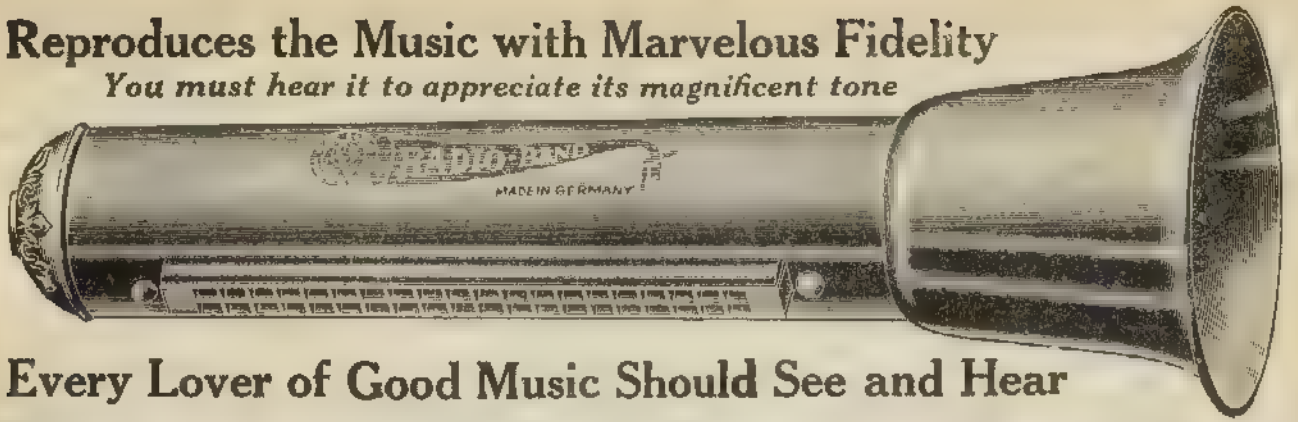
One of the Best Double-Sided Mouth Organs Made

Do you know what a really exceptional [illegible] IN TONE IT RESEMBLES THE ACCORDEON, as some of the finest players in the world have selected it for its [illegible] tone. Like unto all other [illegible] really **two Mouth Organs**, [illegible] on each side. [illegible] front key and [illegible] 48 **Reeds** of the **finest non-corrosive steel bronze**, [illegible] heavy **Brass reed plates** [illegible] securely screwed [illegible] made it for strength [illegible] the most costly [illegible] Thus you have 96 R[illegible] in the Mouth Organ unexcelled for quality of tone. It is one of the new[illegible] and best Harps made in the world.

No. 1158. NERO MOUTH ORGAN. Price Postpaid $2.50

Reproduces the Music with Marvelous Fidelity

You must hear it to appreciate its magnificent tone



Every Lover of Good Music Should See and Hear

The New Improved Radio Band Jazz Mouth Organ

Unusually loud, yet sweet in tone.

ALMOST 11 INCHES LONG. (Illustration is reduced to fit this catalog.

40 BELL METAL REEDS ON REAL BRASS PLATES.

THE illustration will give you a very good idea as to the general appearance of this Mouth Organ, but it must be seen and heard to be appreciated. This is the same brand as our "Radio Band" Mouth Organ Number 4456 listed elsewhere in this catalog but the manufacturers, in response to popular demand, have added some notable improvements which now consist of intensifying the sound and at the same time enabling the player to produce jazz effects. This is accomplished by making the metal case cylindrical in shape, with a large bell shaped attachment at one end. This has the effect of forcing the sounds through the ends, the metal bell having the effect of greatly intensifying the tone without detracting from its beautiful soloroids tone for which this instrument is so famous. By manipulating the hands over the end various jazz or tremolo effects can be obtained. The instrument is a magnificent piece of workmanship. It measures nearly eleven inches long from end to end. There are 40 Bell Metal Reeds on real Brass Plates that produce the most beautiful and clear tones of a ringing organ tone perfectly blended. If you want a Mouth Organ that will carry its tone for a considerable distance, yet without distortion we can thoroughly recommend this one. The instrument comes packed in a nice box and our price includes postage to any address. Please specify from what catalog you ordered

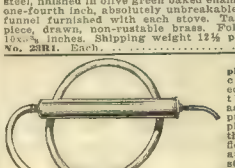
Prentiss Wabers Camp Equipment

AUTO COOK KIT No. 8

Auto Cook Kit No. 8. The burners produce a well spread even intense cooking heat. After generation of the master burner, the second burner can be turned on or off at will. Flame can be regulated to any size desired. One-piece unit assembly, makes one unit of entire burner and tank assembly, no movable joints or strains in working parts of the stove, assures long life. Made of 24 gauge sheet steel, finished in olive green baked enamel. Grates of one-fourth inch, absolutely unbreakable. Pump and funnel furnished with each stove. Tanks of one-piece, drawn, non-rustable brass. Folds to 16¾ x 10x5¾ inches. Shipping weight 12½ pounds.
No. 23R1. Each..... 3.26



Gasoline Syphon, a most convenient equipment of the camper, as a slight pull on the plunger starts the gasoline flowing from auto tank to stove. Weight ½ lb.
No. 23R3. Each .... .33

AUTO PICNIC ICE BOX

Auto Picnic Ice Box No. 35. Made of heavy galvanized non-rustable steel, prepared especially for enameling. Because of the small size of the box, it can be conveniently tucked away in the inside of an automobile. It is not equipped with clamps for fastening to running board. Has ice container, hinged cover, removable handles and is absolutely leak-proof and rust-proof. Size 20x11x8¼ inches. Shipping weight 14½ pounds
No. 23R5. Each..... 2.62

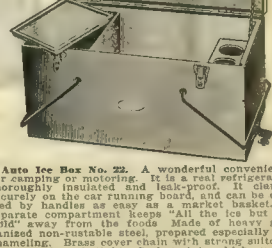
AUTO COOK KIT No. 10
With Built-In Oven and Heater

Auto Cook Kit No. 10 is made of 24 gauge sheet steel, finished in olive green baked enamel. An even, well spread, intense cooking heat is produced by the burners. After generation of the master burner, the second burner can be turned on or off at will. Flame can be regulated to any size desired. One-piece unit assembly is an exclusive patented feature. This arrangement makes one unit of the entire burner and tank assembly, which means no movable joints, stresses or strains in the working parts of the stove, thereby assuring long life. Tanks of one-piece, drawn non-rustable brass. Folds to 16⅜x10x5⅝ inches. Oven space 16x9½x 9¼ inches. Shipping weight 17½ pounds.
No. 23R2. Each..... 5.22

FOLDING CAMP STOVE STAND

Folding Stand. Raises cooking surface of stove to a height of 26 inches, increasing the safety and comfort camp cooking. It is equipped with stout braces to support the warming compartments. Folds to compact size of 19x2½ inches. Shipping weight 3½ pounds
No. 23R4. Each..... .98

AUTO RUNNING BOARD ICE BOX



Auto Ice Box No. 22. A wonderful convenience for camping or motoring. It is a real refrigerator, thoroughly insulated and leak-proof. It clamps securely on the car running board, and can be carried by handles as easy as a market basket. A separate compartment keeps "All the Ice but It's Cold" away from the foods. Made of heavy galvanized non-rustable steel, prepared especially for enameling. Brass cover chain with strong suitcase clamps to keep it tight. Sockets into which removable handles snap. Equipped with bottle holder. Size 21⅛x15x10¾ inches. Shipping weight 23½ lbs.
No. 23R6. Each..... 3.92

Coleman Quick-Lite

QUICK-LITE LANTERN

This Quick-Lite Lantern is a most popular seller. A dependable outdoor light that can be used in hundreds of places where the ordinary lantern is useless. Gives more light than 20 old style oil lanterns. Keeps right on shining anywhere any night in any kind of weather, Mica Chimney makes it windproof, storm proof, bug proof. Easy to keep ready for use,—no wicks to trim, no chimneys to clean. Fount holds two pints of gasoline which gives from 12 to 16 hours of brilliant lighting service. Each lantern in carton, complete with mantles, pump, wrench, cleaning pick and extra generator.

No. 23R11. (Mfg. No. L327.)
Each 4.61

BUILT-IN-PUMP LANTERN

The New Built-In-Pump Lantern has hand-operated filler plug. A dependable outdoor light which can be used in many places. Especially adapted for campers and tourists. Gives more light than 20 old style oil lanterns. Has Mica chimney which makes it wind proof, storm proof, bug proof. Each lantern complete with chimney, 2 mantles, wrench, cleaning pick and extra generator.

No. 23R12. (Mfg. No. L427.)
Each 5.63

REFLECTOR TOP LANTERN

This new model Quick-Lite lantern, has a green vitreous enamel flange top or reflector, 8¾ inches in diameter. Top will not discolor or tarnish—heat does not affect it. The under side of top is white enameled so that it reflects the light downward. This makes the lantern especially suitable for concessionaires and showmen as well as campers. Has built in pump and hand operated filler plug. Each lantern in carton complete with chimney, 2 mantles, wrench, cleaning pick and extra generator.

No. 23R14. (Mfg. No. L227.)
Each 5.63

STANDARD MODEL QUICK-LITE LAMP

This is the Standard Model Quick-Lite Lamp, a handsome practical lamp for general home use. Lights with matches Makes its own gas from common motor gasoline. Gives beautiful light. Fount holds three pints of fuel, enough for 15 to 18 hours of brilliant service. It is a safe lamp, can't spill even if tipped over, can't be filled while lighted. Equipped with opal paneled shade of exclusive coleman design. Each lamp in carton complete with shade, 2 mantles, pump, wrench, hanger, cleaning pick and extra generator.

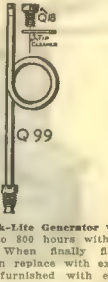
No. 23R13. (Mfg. No. C329.)
Each 5.29

COLEMAN JUNIOR MANTLES

Coleman Junior Mantles should always be used on Quick-Lite lamps and lanterns for best results. Made just right in size, shape and texture and chemically treated to give proper incandescency. Seam at bottom where pressure is strongest. No side seams to split under pressure and of uniform quality. One dozen mantles in box, 12 boxes in handsome counter carton.

No. 23R16.
Per gross.. 7.85 | Per dozen.. .73

GENERATOR

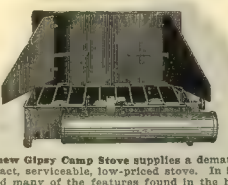


The Quick-Lite Generator will burn 500 to 800 hours without renewing. When finally filled with carbon replace with extra generator furnished with each lamp. The hole in gas tip (Q18) is easily cleaned with tip cleaner as illustrated. If tip becomes clogged, clean or replace with new tip furnished free with every lamp.

No. 23R17. (Mfg. Q99.)
Per dozen..... 2.75

The Coleman Camp Stove

COLEMAN GIPSY STOVE



The new Gipsy Camp Stove supplies a demand for a compact, serviceable, low-priced stove. In it you will find many of the features found in the higher priced stoves. Made with large size, wind-proof gray iron burner caps that won't burn out. Hot-blast preheater quickly generates the stove to full cooking heat in any wind. Single unit construction of tank and burners—tank easily removed for filling. Tank holds one quart of fuel and has built-in funnel. Sizes when folded 4x9½x16¾ inches. Net weight 10¼ pounds

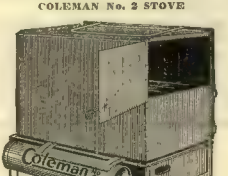
No. 23R25. Each..... **4.61**

COLEMAN No. 9 STOVE

The Coleman stove model No. 9 has a tall wind baffle to protect the two wide action burners. Is equipped with detachable fuel tank. Featured with a built-in pump, built-in filling funnel and a hand operated filler plug. Hot blast starter gives full cooking heat in two minutes. Folds to suitcase size 18⅛x11¼x4 inches. Net weight 13⅛ pounds.

No. 23R21. Each..... **6.12**

COLEMAN No. 2 STOVE



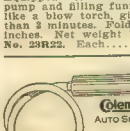
The Coleman camp stove model No. 2 is acknowledged by outdoor experts to be the finest camp stove made. The built-in oven can also be used as a drum heater, a warming cabinet, a wind baffle or a handy shelf, as it nests right in the lid. Equipped with detachable fuel tank with built-in pump and filling funnel. Hot blast starter works like a blow torch, gives full cooking heat in less than 2 minutes. Folds to suitcase size 18½x11¼x4 inches. Net weight 18½ pounds.

No. 23R22. Each..... **8.33**

THE COLEMAN RADIENT HEATER WITH MATCH GENERATING PREHEATER

The Coleman Radient Heater is portable and not restricted in use to length of hose or pipe. Makes and burns its own gas. Produces a clean, invigorating heat—no soot, no smoke, no odor. Match generating preheater is hot blast type. Consists of cast metal cup, control valve and tube vaporizer. Black vitreous enamel top, black baked enamel body and dress guards, nickel trimmings, aluminum back and heat reflector. Removable tank, capacity one gallon, made of heavy steel electrically welded and equipped with air gauge, hand operated filled plug, double fuel valve and built-in pump. Quick action generator is easily cleaned. Gray cast iron burner fitted with non-corrosive clay gas tips. Packed in carton. Shipping weight 40 pounds.

No. 23R19 (Mfg. No. 4). Each..... **17.15**



The Coleman Auto Siphon is designed especially for gasoline camping equipment. If the Coleman Camp stove fuel tank goes dry or your Quick-Lite Lantern needs refilling, just siphon the necessary gasoline from your automobile tank and go on. The siphon has a ⅜ inch nickel plated brass barrel, 4 inches long and 34 inches of high grade ⅜ inch rubber hose. Each packed in a carton.

No. 23R23. Each..... **.64**

COLEMAN STAND FITS ALL STOVES

Coleman No. 10 universal high stand as illustrated above is of single unit all steel construction. When set up all folding joints lock automatically and makes positively rigid high stand. Fits any make of camp stove and has lid support. Folds to size 2½x2x26 inches. Net weight 7½ pounds.

No. 23R24. Each..... **1.57**

U. S. Post Office Instructions for the Shipping of Vacuum Vessels by Parcel Post

When shipping any vacuum vessels by U. S. Parcel Post, the article should be left in the original container in which it was packed at the factory, and this container then enclosed in either a wooden or corrugated paper box of sufficient size to permit of the inner container being surrounded by excelsior or some other similar material, to the depth of at least one inch, between the inner and outer coverings at sides and ends.

Two-Quart Quart Pint

Stanley—Super-Vac

Stanley is the one vacuum bottle which measures up to the word indestructible. It has no breakable parts to be replaced. Has a highly glazed and flexible enameled metal container fused to the steel shell covering, is sanitary as glass. It has no removable parts, except the cork and cup, and no unsealed openings into which liquids may leak and become foul. It is absolutely non-breakable and is guaranteed for efficiency and durability.

Will keep boiling liquids hot for over twenty hours and iced liquids cold for forty hours. All have large sized nickel plated drinking cups.

ONE IN A BOX

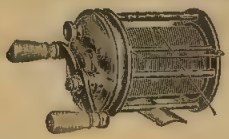
SOUTH BEND ANTI-BACK LASH REELS



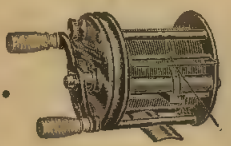
ORENO

The Oreno Anti-Back-Lash Reel is of the same general design and operating principles as the famous original South Bend Anti-Back-Lash Reel which has been proven in the hands of anglers for over 16 years, and is priced at a figure that will enable everyone to own a reel of reliable performance.

It is of dual use, and can be operated as an Anti-Back-Lash, or by a simple adjustment it is converted into a reel of the ordinary type for those who prefer it. Either way it has a smooth, easy, free-running action.

No. C900—Satin finish with double grip; quadruple multiplying gear; capacity, 100 yards 16-to-20 pound test silk casting line; spool diam. is 1⅛ in. and 1⅞ in. wide, w't each 8 ozs. .....each *$6.50*

ONE IN A BOX



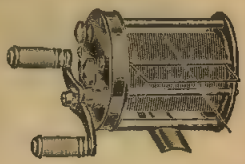
ANTI-BACK-LASH

This reel is the same in every respect insofar as action and operation are concerned, as the South Bend Level Winding Anti-Back-Lash. It is so priced that every angler can now own a Level-Winding Anti-Back-Lash of South Bend construction.

Thumbing and spooling are entirely eliminated. It cannot back-lash, snarl or tangle, and it automatically spools itself, winding the line smooth and even. It is of dual use and by a very simple adjustment can be converted into a straight level-winding reel. New improved reel seat.

No. C1000—Satin finish with double grip; quadruple multiplying gear; capacity, 100 yards 16-to-20 pound test silk casting line; jeweled spool caps, spool diam. is 1⅞ in. and 1¼ in. wide, w't each 9 oz., each *$8.50*

ONE IN A BOX



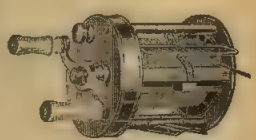
A guarantee for one year with each reel. This reel is the only one of its kind made which has a brake that works automatically with the proper force as the line slackens at the end of the cast.

The spool and gear journals are of special steel, accurately turned ground, lapped and burnished to mirror like surface, turning in solid phosphor bronze bushings.

The gearing is of special hunting tooth tram, the gear of which is cut from hard drawn brass, the pinion from special tool steel.

Can be used with or without back lash as desired.

No. C1131A—100 yds., 1⅞ in. pillar, 2 in. in diameter, jeweled bearings, hand polished, solid German silver, balanced white ivoroid handles with back sliding click.....each *$10.00*



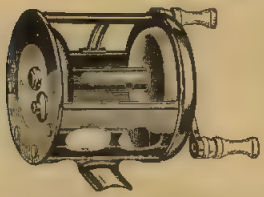
ANTI-BACK-LASH

Level winding, plain, light in weight, strong and rigid in construction, frame and all component parts of satin finish Liberty silver, agate jeweled spool caps of screw-off pattern, adjustable spring tension grip, equipped with click, white ivoroid double grips. Complete in genuine chamois bag with practice casting weight.

No. C1200—Capacity 100 yds., measured by standard 16 or 20 lb. test silk line .....each *$20.00*

ONE IN A BOX

LEVEL WINDING REELS



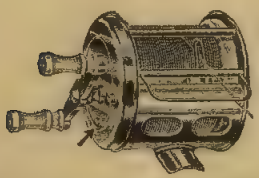
THE BRONSON "MODERN" LEVEL WINDING REEL

Finest tempered gears, transverse screw and pawl of a special alloy, bushings of both screw and spool of same material used in the most expensive reels, perfectly balanced crank handle with ivoroid grips, slightly more than quadruple multiplying. Radiant nickel finish.

There are only four loose parts when the reel is entirely taken apart. The removal of two screws accomplishes this result and makes every part available for oiling and cleaning. It cannot—it will not—go wrong.

No. C100—Capacity 100 yds., diam. 2⅛ in., pillar 1⅜ in., w't each 8 oz. ..... each *$3.50*

ONE IN A BOX

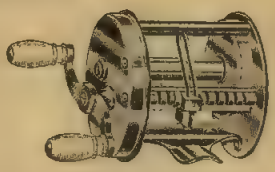


BRONSON "MODERN" LEVEL WINDING ANTI-BACK LASH

Nickel finish with scribed panels in head and tail plates. Equipped with perfectly balanced crank handle with two ivoroid grips, tempered gears, transverse screw and line carriage of special alloy, bushings of both screw and spool made of metals best suited for this purpose and generally used in much higher priced reels. A. B. L. drag lever made of nickel silver alloy to afford strength and prevent rusting and corrosion. A. B. L. drag lever adjusting spring is of the finest tempered bronze to withstand corrosion and maintain quick and reliable action in the A. B. L. mechanism. Click and drag combined in one member.

No. C500—A. B. L.—Capacity 100 yds. of average size silk casting line. Length of spool 1⅝ in., diam. of spool 1⅛ in., w't each 7½ oz. ..... each *$5.00*

ONE IN A DISPLAY BOX



BRONSON "LION" LEVEL WINDING REEL

No. C1800—Satin finish tail plate and head caps, special sanded finish on spool. It is equipped with perfectly balanced double crank handles, tempered gears, transverse screw of phospher bronze and line carriage of a special alloy to give best service, spool shaft of tempered steel, running in bushings of metal alloy best suited for this purpose and generally used in much higher priced reels, slightly more than quadruple multiplying, click and drag combined in one member, capacity one hundred yards of average size silk casting line, length of spool 1⅞ in., diam. of spool 1⅛ in., w't 7 oz., each *$2.75*

ONE IN A DISPLAY BOX

BRONSON "PEERLESS" DOWN

Transverse screw of phosphor bronze and line carriage of special alloy to give best service. All bushings are a nickel silver alloy—the same as used in the highest priced reels. Special design of double crank ivoroid handles. Both click and drag combined in one member of extraordinary durability. Slightly more than quadruple multiplying. capacity, 100 yards of average size silk casting line.

Length of spool 1⅞ in., diameter of spool 1⅛ in., w't 7½ oz.

No. C700—Each *$6.00*

ONE IN A DISPLAY BOX

Adams A. C. Radio

No Batteries
All Electric

In Handsome Console Model

Abreast with the times this all electric radio set offers you the latest that the radio engineers have been able to produce in elimination of batteries, simplicity of operation and the quality and volume of tone that it was formerly thought could only be obtained in high priced sets. Our price places it within the reach of all.

SELECTIVITY—At all times the operator is assured of extreme selectivity. There is no loss of tone volume.

TONE—This set is free from regenerative noises and alternating current hum. Gives a clear natural reproduction from the lowest to the highest notes.

VOLUME—Three stages of tuned radio-frequency amplification, including tuned impedence coupling between the radio-frequency and detector stages, with two stages of transformer coupled audio frequency amplification. The volume control, consisting of a variable high resistence shunted across the impedence controls oscillation as well as volume.

SHIELDING—Tube sockets are of the finder-ring type, coils wound on moulded bakelite forms completely shielded in individual copper shells, carborundum resistances and grid-leak (insuring dependable operation because they cannot burn out), these are some of the features of this set which make it a better receiver than many being offered for much higher prices.

TUBES—Set contains 6 Tubes and Rectifier and are of the A. C. type, noted for their long service.

THE CONSOLE—Made with five-ply walnut top and panels. Front doors of selected matched butt walnut. Finished in walnut and hand rubbed. The woods used are selected quality and the workmanship is high grade. Outside dimensions—height 40 inches; width 27 inches; depth 15 inches. Equipped with a Peerless Cone Speaker. Comes complete ready to operate.

Adams A.C. All Electric Six

Means New Radio Pleasures

Depth 16½ inches
Height 51 inches
Width 25 inches

No "A" Batteries—No "B" Batteries

De Luxe Console Model

Combining

Volume — Tone — Simple Operation

At Last

The perfect radio is here. Designed by prominent radio engineers who have long sought relief from battery power, you can now secure better reception without battery worries. Simply turn on electric light switch and enjoy radio reception of the finest kind. A single dial selects the stations.

All materials used in Adams receiving sets are of the highest grade possible to obtain and must pass a most rigid inspection.

DE LUXE CABINET—The doors are five ply, with matched butt walnut veneer selected for beauty of grain and color. The top and panels are also five ply walnut veneer. Equipped with a Jensen dynamic speaker well known for its clarity and sweetness of tone.

TUBES—The tubes used in the Adams Electric Six are the A. C. type, assuring perfect reception during a long period of time.

SHIELDING—Finder-ring tube sockets, coils wound on moulded bakelite forms completely shielded in individual copper shells, carborundum resistances and grid-leak (insuring dependable operation because they cannot burn out), these added to the many other features of this set put it in a class with those of the better makes.

VOLUME—Three straight stages of tuned radio-frequency amplification, including tuned impedence coupling between the radio-frequency and detector stages, with two stages of transformer coupled audio-frequency amplification. The volume control, consisting of a variable high resistance shunted across the impedence, controls oscillation as well as volume.

Set comes complete with 6 A.C. Tubes and 1 Rectifier Tube ready to operate. Positively reliable. A snap of the switch and the room is flooded with sweet music. A set that is built not for today or tomorrow but for the years to come.

No. 1R112. Set Complete 123.75

Adams A. C. All Electric Six

Scientifically Built

No Batteries

Just Plug-In the Light Socket

In Combination Phono-Radio

Console Model

With Jensen Dynamic Speaker

This new all electric radio embodies the latest ideas in radio reception. Simple of operation, compact and with the trouble of batteries entirely eliminated, you have only to switch on the power supplied by your lighting circuit to obtain the ultimate in radio. In addition you have a phonograph turntable with GE electric motor, volume control and adapter and electric pick-up with tone arm and automatic shut-off attachment. A switch is provided for changing from radio to phonograph.

Tone—Natural, clear reproduction over the entire scale from the low notes of an organ to the highest range of the voice.

Volume—Three straight stages of tuned radio-frequency amplification, including tuned impedence coupling between the radio-frequency and detector stages, with two stages of transformer coupled audio-frequency amplification. The volume control, consisting of a variable high resistance shunted across the impedence, controls oscillation as well as volume.

Tubes—The Adams electric six uses the A. C. type, meaning excellent reception.

Shielding—Finder-ring tube sockets, coils wound on moulded bakelite forms completely shielded in individual copper shells, carborundum resistances and grid-leak (insuring dependable operation because they cannot burn out), these and many other features indicate the high quality of the component parts of this receiving set.

The Console Cabinet—Made of selected walnut with matched butt veneer doors and front panel. Equipped with Jensen A. C. Dynamic speaker whose sweetness of tone is marvelous. Outside dimensions: Height 50 inches, width 23 inches, depth 19 inches.

Set comes complete ready to operate with 6 A. C. tubes and one rectifier tube. This set is built to give years of service and can be depended upon to do it.

RADIO ACCESSORIES

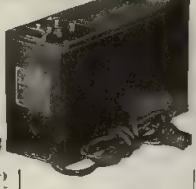
Balkite Power Units

Balkite Model N (Electrolytic) Trickle Charger, is noiseless and can be used in operation. Charging volts .5 and .8 amperes, for either heavy or moderate service requirements. Size 4⅛x1½x6¼ inches. Net weight 6¼ lbs. Operates from 110 120 volts AC, 60 cycles.

No. 3R38. Each.... 5.59

Balkite Model F (Dry) Trickle Charger. Employs new Balkite rectifier unit, the most efficient of its type, and requiring no attention. Does not use a tube. May also be used to supply field voltage for 6 volt dynamic speaker. Charging rate .5 and .8 amperes for either moderate or heavy service. Size 4⅛x7½x6¼ inches. Net weight 6¼ lbs. Operates from 110-120 volts AC, 60 cycles.

No. 3R39. Each.... 6.47

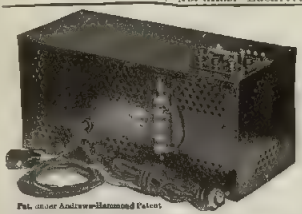


Balkite Model T (Dry) "B" Power Unit includes several new developments among them the new Balkite filter condenser insuring smooth, hum-free operation not hitherto possible in any "B" unit. Output 30 mills at 157.5 volts. Size 4½x8⅛x8 inches. Net weight 12½ lbs. Operates from 110-120 volt AC, 60 cycles.

No. 3R40. Each... 16.46

Balkite Model E (Electrolytic) "B" Power Unit uses standard Balkite electrolytic rectifier and new Balkite filter condenser. Smooth and hum-free at all times. Output 30 mills at 157.5 volts. Size 4½x8⅛x8⅛ inches. Net weight 13½ lbs. Operates from 110 120 volt AC, 60 cycles.

No. 3R41. Each... 18.82



Pat. under Andrews-Hammond Patent

Balkite "A B" Combination Power Unit

Balkite "AB" combination, Model G (Dry) supplies both "A" and "B" current from the light socket. Replaces both "A" and "B" batteries. Contains no battery in any form. Operates only during reception. Complete in itself and requires no outside accessories, no attention or adjustments of any kind. May also be used to supply power to 6 volt dynamic speaker. Output 2 amperes at 6 volts; 2½ amperes at 5 volts. Dry "B" using UX 280 rectifier, output 30 mills 157.5 volts. Size 8 inches high, 15 inches long, 7 inches wide. Weight 25 lbs. Operates from 110-120 AC, 60 cycle current.

No. 3R42. Each (less Tube)..... 40.87

French Ray-O-Vac "A" Batteries are the result of constant scientific engineering research, are built especially for radio. Maximum use can be obtained by using two of these cells in parallel or three of the cells in series.

ABOX A.C. CONVERTER

The Abox A.C. Converter is a batteryless device that converts 50-60 cycle AC to 6-volt direct current. With the use of the ABOX and any "B" unit a set using ordinary tubes is converted into an electric set. Consists of a rectifier and a filter. Mechanical noises are entirely eliminated. The ABOX works only when the set is in operation and it does not store up current like a storage battery.

No. 3R43. Each..... 20.58

The One Best "Buy" *in* Radio
A. C. . . . . *All-Electric*

FROM TIME TO TIME there comes to every Dealer an opportunity to make a good radio "buy" . . . an extremely popular seller, priced right! Seldom, however, does this opening come, where the radio is ultra-modern . . . A. C. ALL ELECTRIC . . . with an excellent new type speaker . . . and the latest radio improvement—the 245 wonder tube!

All this, we now present to you . . . and more . . . in the Model 1001 . . . in a splendid sturdy walnut cabinet, attractively highlighted and trimmed in today's fashion. An A. C. radio which gives you distance, extreme selectivity, volume, and tone quality unexcelled at twice the price!

This Model has all the features of ADAMS A. C. ELECTRIC RADIO as outlined for the Model 87 . . . you have noted these important details! It comes to you complete . . . with 4 No. 226 tubes, 1 No. 227 tube, 1 No. 280 tube and 1 No. 245 tube . . . all ready to operate . . . and when you offer it to your trade at the price you can, you'll see that it defies competition. It is indeed a "real" value, and a most excellent "buy" in modern radio!

The newest development in radio is the wonder tube. The new 245 audio tube. It brings much improved tone quality and the volume is better than two of its predecessors. The 371 used in push pull amplification. This set is equipped with every new feature, including the remarkable 245 tube.

Get Behind the Line That Gets Behind You!

This improved line of Knapp Toys is backed by one of the best merchandising plans and the largest advertising campaign in the history of Knapp—

Liberal space in seventeen national magazines has already been ordered, reaching a total of 28,000,000 prospects for Knapp dealers thruout the country—

Improved models, covers designed with a real sales punch, and prices within the reach of all, have put Knapp Toys in the front rank of the best and most profitable sales producers for 1929—

Make This a Banner Year!—Get Behind the Line That Gets Behind You!

THE KNAPP WORKSHOP

AMERICAS INDUSTRY IN MINIATURE

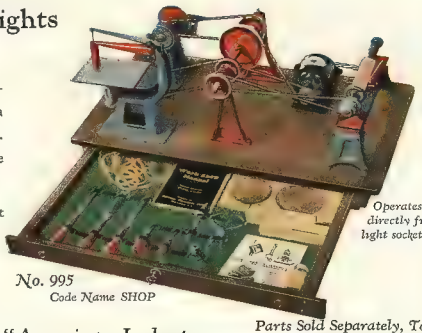
REG. U.S. PAT. OFF.

Reaches the Heart of Every Boy and Delights Dad Too

That is the appeal of the Knapp Workshop. Dad wants it himself—not as a toy but as a complete model workshop. And what fun he and the boy will have together.

The swing to higher priced gifts at Christmas and Birthdays is answered by the Knapp Workshop—it doesn't take much more effort to sell—and the added profit brings joy to every dealer's heart every time the cash register rings.

And when you sell the Knapp Workshop you'll be making a new friend—and the repeat business on tools, blocks, etc., is most pleasing.



Operates directly from light socket

THE KNAPP ELECTRIC QUESTIONER

THE WONDER GAME

Demonstrate The Famous Electric Questioner

It is a true saying that to demonstrate is to sell—and what is more easily demonstrated than the Knapp Electric Questioner with its appeal to all ages?

The mysterious buzzing answer, its beautifully pictured cards, its funny conundrums, its puzzling questions, holds everyone's attention—and makes the sale 9 times out of 10.

The next time a consumer comes in for a dollar game, demonstrate the Questioner —the sale follows naturally —and more profit to you.

And don't forget the extra sets of cards which keep the Questioner ever new and up to date—repeat business the year around.

No. 325

THE KNAPP TELL BELL

RING THE BELL AND IT WILL TELL

The Companion to the Electric Questioner

We all wondered last year how the new Tell-Bell would "go"—it did! The Tell-Bell this year will take its place right next to the Questioner in sales.

Its principal appeal is for children from 5 to 12 years, but we have also put in some cards (each one a game in itself) for the older folks to use in their games after the children have gone to bed.

And again you have the demonstration-selling feature. Three sliding knobs and the tinkling bell when the answer is correct. Instructive, amusing, mysterious.

No. 399
Code Name TELL

Substantially constructed in a wooden box, beautifully decorated, furnished with twelve colored cards containing thousands of problems and their solutions. Operates on a flash light battery (furnished). No electric connections

No. 399, List Price, $5.00

Denver, West, $5.50

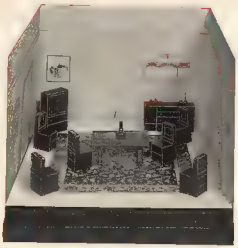
"TOYS THAT TEACH"—Happy Contented Children.

"TOYS THAT TEACH" FURNITURE SETS



TRANSIT TOYS

An answer to the need for durable, attractive and safe furniture sets for children is given in "TOYS THAT TEACH" FURNITURE SETS. This is a new idea in toy furniture. The pieces are finished with a wax finish in attractive colors. Most of the pieces are made in two or more parts with a friction slot so that the children may put them together, or take them apart easily. Each set contains just enough pieces to furnish an up-to-date room. With each set is furnished a room design printed in colors on heavy cardboard, and the room is locked into position by a special arrangement which is explained on the box. These sets met with immediate success.

Living Room	retails at	$2.00
Dining Room	retails at	$1.00
Bed Room	retails at	$1.00

TRANSIT TOYS—A new addition to the "TOYS THAT TEACH" Series. Any toy on which a child can use its own initiative and duplicate something in reality is always a sure seller.

"TOYS THAT TEACH" TRANSIT TOYS give children the biggest thrill of their lives when they build a complete train of cars from engine to caboose, or four or five different styles of automobiles.

There is plenty of color to the set, and full instruction sheet inside the cover. Retails at $1.00.

The above illustration shows both the train of cars and a set of four automobiles. Either the complete train of cars, or four automobiles can be made from one set.

No. 272 "TOYS THAT TEACH" TRANSIT SET consists of various shaped wood pieces, including a large number of attractive wheels, pieces enameled in bright color combinations. Packed in attractive cardboard box with six-color label. Size of box 9" by 10¾". ¼ dozen to package 1/6 gross in carton. Weight 270 lbs. per gross.

Send for Catalog and Samples.

THE EMBOSSING COMPANY, ALBANY, N. Y.

New York Office and Display Room — **Room 440 200 Fifth Ave.**

The all year 'round line—"TOYS THAT TEACH".

FIRST STEP "TOYS THAT TEACH" COLORED PLAY BLOCKS

The name FIRST STEP "TOYS THAT TEACH" COLORED PLAY BLOCKS was adopted for this set because we believe this type of toy is what should be given to the child first. The set will teach colors, simple designing, and the blocks are just right for piling. The set contains blocks in two sizes and six colors.

No. 2910 FIRST STEP COLORED PLAY BLOCKS. Six 2-1/8 inch cubes and twenty-four 1-1/16 inch cubes in various attractive colors. Packed in cardboard box 9¾ x 7 inches. One-quarter dozen in package. Weight 260 lbs. to gross.

Retails at $1.00

COMPLETE POCKET CHECKER SET

The demand for a popular priced combination Pocket Checker Set led us to bring out No. 2912 Complete Pocket Checker Set which is illustrated here. The set is compact with embossed wood Checker board and interlocking Checkers made to fit snugly into holes in board—see illustration. The ideal set for playing anywhere, especially convenient for travelling.

No. 2912 POCKET CHECKER SET. Checker board with set of interlocking checkermen, arranged in neat cardboard box size 6¾ x 4½ inches. One-half dozen in package. Weight 75 lbs. to gross.

Retails at 50c

The items on this page and the three preceding ones are but a few of those recently added to our lines. For description of our complete lines, send for our latest catalog and price list.

"TOYS THAT TEACH"—A Toy Department in Itself.

MODERN "TOYS THAT TEACH" BLOCKS

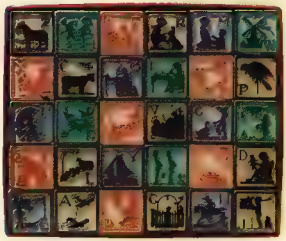
Patent applied for

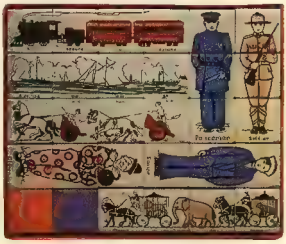
These Blocks contain six educational features, and it is remarkable that all of these features could be incorporated into one set of blocks; in fact a set of these Blocks is really six toys in one. Remember that all of these features are contained in every set of MODERN "TOYS THAT TEACH" BLOCKS.

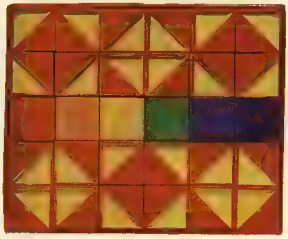
In selecting the features we have obtained the advice of a number of recognized kindergarten authorities, because it is very evident that Toy Blocks with real educational features are a very important factor in the education of children. Naturally these Blocks will replace the old-fashioned spelling blocks, although there still remains enough of the alphabet where this is desired.

A most important feature of these Blocks is that a young child can by forming the picture of the Clown and Soldier and piling the three Clown Blocks on top of the three Soldier Blocks automatically produce the prismatic colors in their proper order, and the numbers from one to six in consecutive order, also a nursery rhyme complete.

We are proud to add MODERN BLOCKS to our family of "TOYS THAT TEACH," believing that children will have many hours of instruction and entertainment with them.







Modern Blocks are made in all sizes to retail from 10c to $2.00. Send for Catalog and Samples.

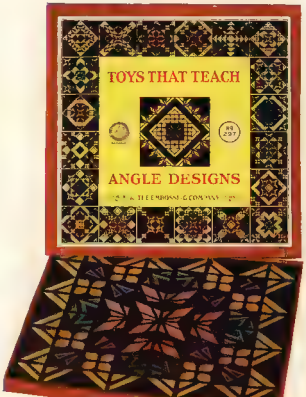
With proper display "TOYS THAT TEACH" Sell on sight.

HOUSE BUILDING BLOCKS
COLONIAL DESIGN

"TOYS THAT TEACH" HOUSE BUILDING BLOCKS. In 1927 we introduced House Building Blocks and these items sold exceptionally well. The need for a larger block is very apparent, and we are now offering the Colonial Design House Building Block. This set is simplified even more than our smaller sets, and offers unusual possibilities for children to construct houses of very attractive design as shown on the label.

No. 2911 "TOYS THAT TEACH" HOUSE BUILDING BLOCKS, COLONIAL DESIGN.

Set consists of various shaped pieces, finely painted and printed. With this set it is possible to build many varieties of houses. Packed in strong box with wood frame, measuring 15-5/8 x 11-3/8 inches. One-twelfth dozen in package. Weight 740 lbs. to gross. Retails at $5.00.



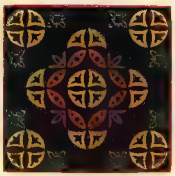
"TOYS THAT TEACH" ANGLE AND CURVE DESIGNS

These are our latest designing sets, and they are highly recommended because of their simplicity. There is only one shape block in the set and five different designs, in various Colors. With these blocks it is possible to make hundreds of different designs, many of which are shown on the label in colors.

They are offered in two sets, the Angle Designs and Curve Designs.

No. 297 "TOYS THAT TEACH" ANGLE DESIGNS. Sixty-four pieces. Painted in bright colors. Packed in cardboard box, size 11-¼x11-½ inches. One-quarter dozen in package. Weight 220 lbs to gross.

No. 298 "TOYS THAT TEACH" CURVE DESIGNS. Sixty-four pieces. Painted in bright colors. Packed in cardboard box, size 11¼ x 11¼ inches One-quarter dozen in package. Weight 220 lbs. to gross. Either set retails at $1.00.



Send for Catalog and Samples.

CHEMCRAFT

THE CHEMICAL OUTFIT

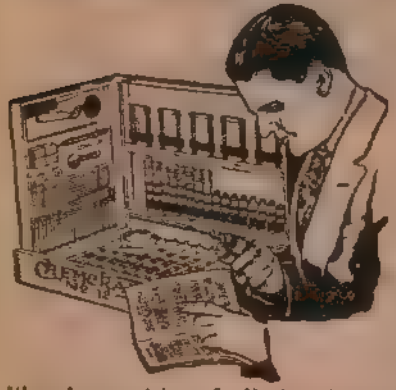
OUR LARGEST AND BEST CHEMCRAFT OUTFIT

A Real Beauty. Only $12.95 *Postpaid.*



More practical work which will give a greater understanding of the subject may be done with this big CHEMCRAFT No. 6712 Outfit. It is the most complete and practical outfit of its kind obtainable, and is in every respect much more than a toy. The manual of Instruction explains 500 different experiments, all of which can be worked with the 93 chemicals and pieces of apparatus which the outfit contains.

The wood cabinet in which this No. 6712 set is packed, opens out into a regular chemical laboratory and provides convenient places in which to keep each chemical and piece of equipment. The picture shows the cabinet open and ready for work.

Please remember that this, as well as all the other **CHEMCRAFT OUTFITS** contains everything necessary to work all the experiments given in the instruction book which accompanies the outfit. Most liberal quantities of all the chemicals are furnished, and they will last for a long time. Additional supplies can be obtained any time at small cost.

book which accompanies the outfit. Most enough to repeat the experiments many times.

CHEMCRAFT OUTFITS do not contain any dangerous poisons. Chemistry is sometimes looked upon as a dangerous profession. But this is not the case. Contrary to an old popular idea, a chemical experiment does not necessarily result in an explosion. Chemicals as a class are not intended for use as food and should not be eaten, but very few of them are violent poisons. You can safely place any of these Outfits in the hands of any boy old enough to be interested in them.

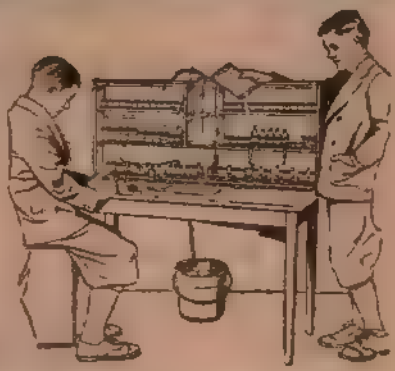
No. 6712. CHEMCRAFT OUTFIT. Price Postpaid to any Address .. $12.95

CHEMCRAFT LABORATORY WORK BENCH

THE CHEMICAL OUTFIT

The CHEMCRAFT Laboratory Work Bench provides running water, a sink, shelves for chemicals and apparatus together with plenty of table space for carrying out experiments. It is a real complete chemical laboratory where everything can be kept in their proper places and ready for use.

The Work Bench is strongly constructed and attractively finished. It is shipped knocked down, and can easily be set up in 10 minutes. It is 44 inches long, 28 inches wide, and 47 inches high. The top of the table is 27 inches from the floor. The chemicals, apparatus and instruction Manual which are contained in the No. 32 set, are included with the CHEMCRAFT Laboratory Work Bench together with a quantity of extra containers and special equipment.



The CHEMCRAFT Laboratory Work Bench makes a chemical laboratory which any one can be proud to own and it will give years of useful service.

It is crated for shipment by Express only. The Express Charges are to be paid by customer. If you wish to ascertain what the Express Charges will amount to [illegible] at any Express Office. If you wish to [illegible] sufficient to cover the Express Charges, otherwise it will be shipped collect.

No. 6713. CHEMCRAFT LABORATORY WORK BENCH. Price, Shipped By Express Only $35.00

CHEMCRAFT MAGIC

GIVE A MAGIC SHOW

Famous magicians agree that chemical tricks are the most weird and puzzling of all magic. With CHEMCRAFT-MAGIC and a little practice anyone can perform a great series of surprising amazing feats of mystery that will keep the audience sitting on the edges of their chairs and wondering, "What next?"

The Magic Wand is a seemingly plain stick of wood with fancy ends. But a lick on one end into a glass of plain water and lo! you have a glass of lemonade, or cider, or grape juice, or chocolate, or anything you want. And stick the other end into another glass of water and the water instantly becomes ink! The Magic Paints are also wonderful. You can paint a picture orange, and then turn it red; or red and turn it black; or pink and turn it blue. The Magic Knife is a wicked looking weapon and looks like it will inflict horrible wounds. But it's harmless. You can "cut" your hand, or your arm, and the "blood" will flow, to the amazement of your friends.

There are only a few of the things in every CHEMCRAFT MAGIC outfit. There are also many different kinds of chemical. All formulas and directions are given in the endless variety of tricks can be performed.

Complete instructions are given in the Showing Manual on how to get up a show, how to make the stage with materials found in every home, how to run the show, and give the performance. Even the "patter" or talk given by the magician is included, and also a quantity of Admission Tickets.

No. 6700. CHEMCRAFT MAGIC. PRICE POSTPAID $3.50

THE HEARTS PUZZLE

There are two hearts, one somewhat larger than the other, that have to be separated. It needs some ingenuity to take them apart; when you learn the knack it is quite easy, but it will puzzle your friends.

No. 3655. The Hearts Puzzle 15c

Mutt and Jeff Puzzle

Mutt and Jeff is altogether different from any other puzzle. It is difficult to put the two pieces together or to take them apart, yet it is simplicity itself when you have learned how. It is strongly made of heavy wire, nickel plated.

No. 3660. Mutt and Jeff Puzzle 10c

"Over the Top" Puzzle

"Over the Top" Puzzle is made of heavy nickel plated wire, and if you can take the three pieces apart without looking at the directions, you may consider yourself cleverer than most people. It is extremely interesting.

No. 3661. "Over the Top" Puzzle. 10c

The Three Rings Puzzle

This is a good pocket puzzle that is not too difficult, yet even the cleverest of people often fail to separate the three rings. When you learn the knack it is quite easy.

No. 3663. The Three Rings Puzzle 10c

DAY-FAN.

GREAT BROADCASTING STATIONS USE DAY-FAN RADIO TO LISTEN TO THEIR OWN PROGRAMS.

8 FEATURES OF DAY-FAN.

Sensitiveness	Volume Undistorted
Tone Quality	Increased Selectivity
Moderate Price	Beauty of Appearance
Self Contained Set	Illuminated Single Dial

Day-Fan eight-tube installed in table model with Egyptian design cabinet of burled walnut with highest grade workmanship. Illuminated single dial control. Self-contained set, power supply incorporated in chassis. Eight tubes, 4 radio frequency stages, detector and 3 audio amplifying; all stages shielded. Push-pull amplification, giving greatest volume without distortion and eliminating hum. There is an adjustable transformer connection to take care of high or low line voltage conditions; the entire set is protected by a renewable fuse. Accessible connection for phonograph "pick-up". Rigid all steel frame. Simply plug into light socket, attach aerial and ground connections and set is ready for operation.

The paramount idea in designing the new Day-Fan radio set was to create superior quality of reception for the owner, in a receiver operating direct from the lighting current. The excellence of the new Day-Fan radio is very easily demonstrated. Engineering specifications have accomplished tonal quality, increased selectivity, range, volume and sensitiveness.

True reproduction of musical tone is the most essential requirement of a receiver. The great broadcasting stations of today send out splendid music. Its reproduction in the home should be as good as the broadcast. The new audio amplifying system is designed after that used by the great broadcasting stations producing a complete musical scale range without distortion. With the many stations now on the air, selectivity is of great importance. Yet selectivity must be obtained without sacrificing tone quality. Day-Fan is unexcelled in this characteristic. Volume should be variable according to the desire of the operator. Any Day-Fan set will fill your home with music sufficient for the gayest dance, yet its tone may be controlled to permit full appreciation of the finer harmonies of music. A soft and loud switch is provided which may be turned to soft when strong local stations are tuned in. Day-Fan sets are built and guaranteed by a company with exceptional factory facilities and 39 years of electrical experience.

	Each
No. E-D2SAC—Radio Receivers; 8-tube; alternating current; no batteries, no acids, no recharging necessary; no extra accessories, except tubes and speaker required to complete set; size of cabinet, 26 inches wide, 10¾ inches high, 15½ inches deep; shipping weight, 112 lbs.	$150.00

DAY-FAN.

CONSOLETTE.

To meet the widespread demand for a Utility table, Day-Fan has designed the Consolette with built-in speaker. The beauty of color and grain of the Consolette harmonizes with the walnut table model No. E-D25AC set and makes a very attractive combination. Set with base is entirely self contained and employs eight tubes, four radio frequency-detectors and three audio amplifying.

	Each
No. E-D27AC—Radio Receivers; assembled with set No E-D25AC; complete with the exception of tubes; simply plug into light socket, attach ground and aerial connections and the set is ready for operation; shipping weight, 157 lbs.	$205.00
Consolette Base Only—Equipped with speaker	55.00

DAY-FAN.

CONSOLE.

New Day-Fan AC receiver in Egyptian design walnut console cabinet, with burled walnut panelling. Beauty of color and graining and exquisite carving make this model very desirable as a graceful piece of furniture. A No. RCA100 speaker built in apparatus is very easy of access through a rear screened door. Whether doors are open or closed the cabinet is unusually attractive and occupies a minimum of floor space.

Set is entirely self-contained. Employs eight tubes, four radio frequency, detector and three audio amplifying. Completely shielded. Push-pull amplification, giving greatest volume without distortion and eliminating hum. There is an adjustable transformer connection to take care of high or low line voltage conditions and the entire set is protected by a renewable fuse. Accessible connection for phonograph "pick-up". Rigid all-steel frame. Simply plug into light socket, attach aerial and ground connections and set is ready for operation.

Each

No. E-D26AC—Radio Receivers; eight tubes; no batteries, no acids, no recharging; attach ground and aerial and plug into light socket; size of cabinet, 25 inches wide, 50½ inches high, 18 inches deep; weight each, 156 lbs. $295.00

DAY-FAN.

FOR BATTERY OR BATTERY ELIMINATOR USE.

Absolutely the best and most efficient battery or eliminator set on the market.

The circuit is identically the same as that used in the Day-Fan A. C. set No. E-D25AC, with the exception of its being adapted for use with batteries or eliminators and standard D. C. tubes.

Has unequalled tone quality and gives true reproduction. Set is very selective. Abundance of volume which permits controlling volume to get best reception possible. A soft and loud switch is also provided which may be turned to soft when local station is tuned in. Has push-pull amplification, giving greatest volume without distortion. Illuminated single dial control. Seven tubes, three radio frequency, one detector and three audio amplifying. Rigid steel frame. Cabinet finished in brown mahogany.

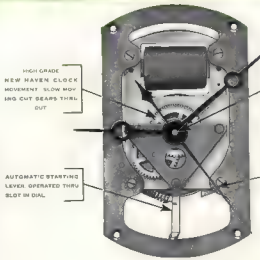
The New Haven Clock Co.

Announces

"ELM CITY" ELECTRIC CLOCKS

This is the electrical age. Electricity has revolutionized modern home life and is responsible for many of the comforts of present day civilization. Clockmaking is one of the oldest industries. The requirements for a good clock are very exacting, and the life expected of a good clock is long. Electric clocks are not new, but the production of a popularly-priced, dependable electric clock requires a high degree of skill and long experience in clock manufacture. THE NEW HAVEN CLOCK COMPANY, which has manufactured clocks continuously since 1817, now presents electric clocks of unquestioned reliability, at prices within the reach of all.



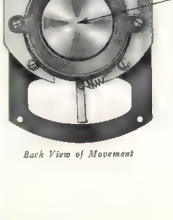
HIGH GRADE NEW HAVEN CLOCK MOVEMENT. SLOW MOTION CUT BEATS THRU OUT
AUTOMATIC STARTING LEVER. OPERATED THRU SLOT IN DIAL
HANDS SET FROM FRONT WITH LEVER. MOTOR RUNS NO NECESSITY OF LIFTING CLOCK FROM WALL OR MANTEL
LONG SECOND HAND IN CENTER. SET AND OPERATED IN SAME WAY AS OTHER CLOCKS

Front View of Movement

Progressive dealers can now meet the demand with the popularly priced "Elm City" Electric Clocks, distributed through legitimate clock channels. Progressive power stations furnish the majority of homes with alternating current. These regular electric vibrations are utilized in Elm City Electric Clocks by a simple, dependable, synchronous motor which operates a dependable clock movement.

All moving parts of the motor are sealed in a metal case, where they turn silently in an oil bath. The motor and field coil may each be quickly detached by removing two screws. The movement is of New Haven design. All mantel and wall clocks are constructed to permit convenient setting and starting from the dial, without disturbing the original position or getting in back of clocks. All clocks are completely equipped with cord and plug, attachable to any convenient outlet.

"Elm City" Electric Clocks are cased for every purpose and are adapted to any room in the home or office. The smaller models are for desk, radio or boudoir table. Cheerfully colored wall models add a decorative touch to kitchen or sun porch. Larger mahogany cases in banjo, tambour and upright designs harmonize with their surroundings in beautifully furnished homes. All wooden cases are durably finished with several coats of hand-rubbed Duco and are solid, without veneer.



REMOVABLE COIL. TAKE OUT TWO SCREWS ONLY.
REMOVABLE SYNCHRONOUS MOTOR. TAKE OUT TWO SCREWS IN BRACKET ONLY. MOVING PARTS TURN SLOWLY IN OIL. SEALED IN ROUND CASE. THIS INSURES QUIET OPERATION AND LONG LIFE.

Back View of Movement

METHOD OF OPERATION

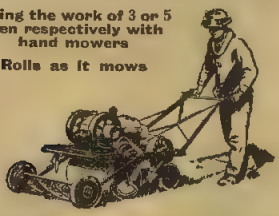
1. Plug cord into convenient outlet.
2. Push automatic starting lever across slot and release. The motor will instantly pick up timed impulses from your central station
3. Set minute and second hands to correct time, forward or backward as with ordinary clock. Adjustments are made from the front on mantel and hanging clocks. Clocks do not have to be turned or lifted from wall.
4. Correct operation of clock is indicated by rotation of a long second hand. Stopping of second hand denotes current interruption. Re-start and re-set as previously indicated.
5. Clock will indicate correct time as long as current supply is continuous.
6. Electric current used is negligible and cost of operating is but a few cents a month

IMPORTANT

Elm City Electric Clocks are regularly furnished for 110-120 volts, 60 cycle. Clocks for 50 cycle current are furnished on special order, without extra charge. If the generating stations deliver the frequency of current they are supposed to, clocks will keep absolutely accurate time when properly started and set. Progressive stations closely control their frequency. In other cases, the error in time is small and may be corrected as in ordinary clocks.

For use on alternating current only, regularly furnished for 110-120 *volts,* 60 *cycle.*

IDEAL ROLLER TYPE POWER MOWERS



The manufacturers have followed this type of construction over a period of nine years, thereby assuring you of its entire dependability.

You can use either of these Power Mowers for spring rolling, without mowing. The cutting unit is raised several inches clear of the ground by a lever at operator's right. This is also helpful in transporting mower when mowing is not desired.

Slow speed, 4 cycle engine. Roller bearings on crankshaft. Sturdily constructed cutting unit. Timken roller bearings on reel shaft. Zerk lubrication.

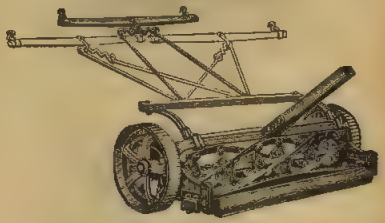
CRESTLAWN THIRTY

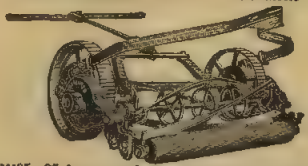


This mower is used extensively on many of best kept lawns and estates of the country.

No. W30—30 in. cut, 11 in. ball bearing drive wheels, 7 in. revolving cylinder with five blades, accurately machined and fitted throughout, frame construction is interlocking, patented cutter bar adjustment, reel equipped with Timken roller bearings, automatically adjusted, durable positive throw ratchet geared on both sides, three section iron rollers, w't 140 lbs.....each **$100.00**

ONE IN A CASE

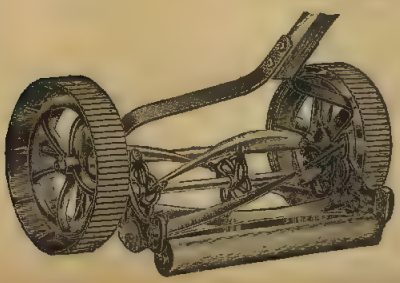
PENNSYLVANIA PONY OR TWO MAN



No. W25—25 in. cut, large open cylinder, rear cut, 6 blades, upturned bed knife, self-sharpening, shifting clutch for throwing out of gear, brass boxes, long bearings, complete with handle and draft irons, w't 160 lbs., each $213.30

ONE IN A CASE

FLORIDA SPECIAL BALL BEARING LAWN MOWERS



The special feature of this mower is the 2¼ in. wide tread of the wheel. It is especially adapted for loose sandy soil, new lawns or other ground where the regular narrow tread will not easily grip the ground. Will also give more traction in heavy grass. It has a high carriage and can be adjusted to cut 2 in. from the ground.

Four blade cylinder of high grade crucible steel, tempered in oil. Reel bearings have patented automatic self adjusting ball bearings which automatically take up the wear in the cones. Screw adjustment on lower cutter bar.

Decoration—Gold bronze and Blue. Attractively striped. 10½ in. Drive Wheel, 2¼ in. tread. Hardwood roller and handle.

Reel bearings are fitted with oil cups.

Can be furnished with seat and shafts or with draft pole for two horses at additional price of $20.00 net.

★Items Thus Marked ★ Are Shipped from Factory Only

COLDWELL ELECTRIC LAWN MOWERS

This model has been made to meet the demand for an electric mower and one somewhat less expensive than the gasoline power Mowers.

It is suitable for lawns which are not extensive enough to warrant the purchase of the higher priced mowers.

The Electric Mower is simple, clean, and quiet. Its operation requires no knowledge of mechanics or electricity. The self-winding cord is attached to an electric light socket and mower is ready for use.

Blades—Five, tempered crucible steel.
Bottom Knife—Best quality tool steel.
Gears—All Cut Gears; enclosed and run in oil.
Bearings—Drive wheels, revolving cutter and main drive shaft operate on Timken Tapered Roller Bearings.
Lubrication—Alemite-Zerk Automatic force feed for all bearings; gears run in oil.
Motor—½ H. P. General Electric Universal, special design.
Current—Ordinary house lighting circuit alternating or direct current; 110 or 220-240 volts.
Current Consumption—About the same as for an electric iron.
Reel—Automatic positive drive; takes up or pays out the supply cable automatically.
Equipment—150 feet supply cable on reel; drop cord and anchor pins.

No. W1828—Width of cut 18 in., height of cut ⅜ to 2½ in., cutting cap. 2 to 3 acres per day, shipping w't crated 295 lbs. ..... each $283.30

PENNSYLVANIA FAIRWAY PONY MOWER

This improved PENNSYLVANIA quality machine consists of one of the units of the nationally known Fairway gang mower, fitted with seat and shafts. Wheels 17×2½ in., each fitted with two sets of Timken Roller Bearings. Cylinder, 6⅜ in. diameter, with five crucible steel blades, hardened and tempered—with ball bearing journals. Gears cut from solid blocks—roller bearing on intermediate gear running in oil-tight housings. Grease-tight gear cases. Alemite lubrication throughout. Bottom knife, 30 in., upturned edge. Iron roller adjusted for different heights. Throwout device to idle cylinder.

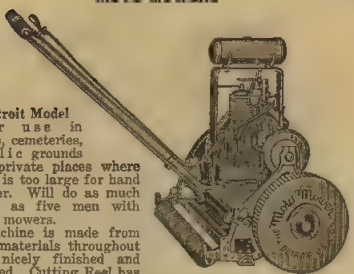
No. F1130—30 in. cut, 5 blades. Shipping w't 375 lbs., each ..... $266.65★

JUNIOR MOTO-MOWER

With this Junior Model Moto-Mower you can cut two acres of grass a day with little physical effort. The machine can be operated on a gallon of gasoline a day. The final result of mechanical design and materials in this Moto-Mower model is measured by the economy with which it can be operated, the ease with which it can be manueuvered over many different kinds of ground, up sharp grades and along steep terraces; and lastly, by its fine grade of work over a long period of time.

No. W118—Cuts 18 in. wide, has a three-quarter horse power motor, capable of 1750 revolutions per minute under variable throttle control. Five-bladed cutting reel runs on Timken bearings. Clutch is a dry disc type engaged and disengaged from a position within easy reach from handle grips. Materials used are of highest quality—the crank shaft a carbon steel forging, heat treated, running on bronze bearings. Connecting rod is a one-piece I-beam drop forging fitted with bronze bushings. Piston is close grained gray iron. Gray iron cylinder is specially designed to prevent heat flow into cylinder walls and its combustion chamber machined. Valves are of silichrome steel. Shipping w't crated 190 lbs. ..... each $276.95

MOTO-MOWERS



Detroit Model

For use in parks, cemeteries, public grounds and private places where lawn is too large for hand mower. Will do as much work as five men with hand mowers.

Machine is made from best materials throughout and nicely finished and painted. Cutting Reel has 5 crucible steel blades, carefully tempered and hardened. The motive power is furnished by a 2½ H. P. engine.

Fully guaranteed. Dry disc clutch in wheels. The power from engine is transmitted direct to cutting reel through chains and sprockets. The Moto-Mower is provided with automatic friction release between the motor and cutting reel.

If a stone, root or other object becomes caught in the machine, this device by automatically slipping, protects the blades against injury or possible breakages.

The Machine cuts as close to trees and other objects, as a hand mower. It can operate on any terrace or hillside on which a man can walk.

MOWER

Dry disc. clutches in wheels.
Control: one or both wheels can be engaged, either together or separately
Reel bearings: Timken roller bearings.
Sectional wood roller, running on steel rod.
Steel wheels.

FRAME

Width of Cut, 27 inches.
Cut Adjustable, ¼ to 3½ inches.
Cutting Speed, 2 to 3½ miles per hr.
Cutting Capacity, 5 acres per day.
Climbs, 25 per cent grade.
Color, Battle Ship Grey, silver trimmings.
Blades, 5, crucible steel.

MOTOR

Single Cylinder, Air Cooled.

Gasoline Consumption per day, about 1 gallon.
H. P. (A. E. S. rating), 2½.
Bore, 2½ inches.
Speed, 600 to 2200 R.P.M.
Stroke, 2½ inches.
Ignition Magneto.

No. W127—27 in. cut, net w't each 200 lbs., shipping w't 300 lbs. ..... each $544.45

ONE IN A CASE

SICKEL-BAR ATTACHMENT

No. W100—For use with W127 Moto-Mower. The clipping attachment will cut grass and weeds 3 or 4 in. above the ground after which the Moto-Mower will clip the portion left, and leave lawn cut smoothly. Can be attached in five minutes to 27 in. Mower, w't 20 lbs., each $100.00

MOTO-MOWERS

City Model

A typically efficient labor-saving product for the city lawn of slightly more than average size. It cuts grass closer, more evenly than the old-fashioned hand mower. It finishes the job in one-fourth to one-fifth the time. Its operation requires no physical strain. Easily run up and down over terraces, it may be guided close enough to trees, hedges and flower-beds to eliminate hand trimming. Anyone can operate a Moto-Mower. Twisting of two rubber handle-grips causes it to stop, start or turn in any direction. Gasoline and maintenance costs are negligible. Occasional lubricating at but four points keeps mechanism in perfect order; and simplicity of construction renders it practically fool-proof.

SPECIFICATIONS

Cutting adjustment, ¼ to 2¾ in.; cutting speed, ½ to 3½ M.P.H.; cutting capacity, 2½ to 3 acres per day; climbs, 35% grade; gasoline consumption per day, about 1 gallon; color, gray enamel.

Motor

Four Cycle Valve in Head, Air Cooled

Bore, 2 in.; stroke, 2 in.; horsepower, 1; speed, 600 to 2000 R.P.M.; control, throttle; ignition, magneto; carburetor, set jet.

Mower

Blades, revolving, 5 crucible steel (tempered); blade, bottom turned up edge (tempered); clutches, dry band type; control, one or both wheels can be engaged either together or separately; reel bearings, Timken roller; handle, tubular steel, full braced; side frames, malleable iron; chains, diamond roller.

Coxwell and Student Chairs for Real Comfort

The splendid coxwell chair above is outstanding for its upholstered comfort and generous proportions. It is large and roomy yet remarkably low in price. Very substantially made with an exceedingly comfortable shaped spring back and comfortable spring filled cushion resting on a deep, buoyant spring underconstruction. Filled with the crowning comfort of moss and cotton. Strong birch frame, mahogany finish. Covered in tapestry of Jacquard velour. Weight, 55 lbs.

No. 11F112.	Chair in Jacquard velour. Each	$57.60
No. 11F113.	Chair in Tapestry. Each	57.60

Ottoman to match. Much larger than the ordinary ottoman Spring filled. Slanting top leg rest. Weight, 75 lbs.

No. 11F114.	Jacquard velour. Each	$20.00
No. 11F115.	Tapestry. Each	20.00

The student who receives the splendid student's chair above will be more than delighted with its magnificent form fitting comfort. Designed so perfectly for comfort and easy sitting that the whole family will soon claim it as their favorite chair. Note the restful reclining back with its pleated back for coziness and full roll top. Note too the curving of the padded arms. Built to stand the hard knocks a student is bound to give it. Frame is of thoroughly kiln dried, first quality clear birch for strength and finished in dark brown mahogany. Covered in tapestry or Jacquard in any of the popular shades. Width, 25 in.; depth, 42 in., height, 38 in. Weight, chair and stool, 110 lbs.

No. 27F33.	Jacquard velour. Each	$60.00
No. 27F34.	Tapestry. Each	60.00

Ottoman to match made of the same materials. Top 24x16 in.; height 12 in.

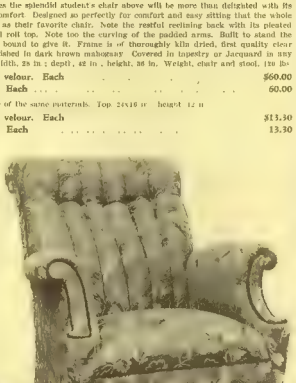
No. 27F35.	Jacquard velour. Each	$13.30
No. 27F36.	Tapestry. Each	13.30

The coxwell chair above with its reclining upholstered back, full spring seat and buoyant spring filled cushion is an outstanding example of real comfort. It is smartly trimmed with fancy cord edging and button effect base on the chair and ottoman. Padded arms, beautifully shaped. Carved front legs and arms finished in mahogany. An ideal chair for reading, smoking studying or merely sitting. Covered in silk moquette or linen frieze (please specify) on the inside back and top of the cushion. Balance in mohair with the outside back in velour. Width, 39 in.; depth, 40 in., height, 37 in. Weight chair and stool, 180 lbs.

No. 27F37.	Frieze. Each	$69.30
No. 27F38.	Moquette. Each	69.30

Ottoman to match above coxwell. Top of silk moquette or linen frieze. Balance in mohair. Carved legs. Spring filled. Top, 23x19 in.; height, 14 in.

No. 27F39.	Frieze. Each	$14.70
No. 27F40.	Moquette. Each	14.70



The cozy comfort of the student's chair above is matched only by its faultless style and fine good taste. Gracefully curved arms and full roll edge top. In its buoyant seat is spring filled cushioned comfort with a crown of moss and cotton filling. Easy, restful tufted form fitting reclining back to make sitting and studying a pleasure. Mahogany finished legs. Hardwood frame for strength and durability. Seat, 19½ in between arms; 22 in. deep; 35 in. height. Weight about 125 lbs.

No.	Grade (See Table, Page 12)	Each
25F67.	Grade 675	$ 82.70
25F68.	Grade 800	92.70
25F69.	Grade 1000	106.00

Table for Grades of Coverings

Grade 100 consists of a fair quality of tapestry, damask, Jacquard velour and mohair.

Grade 115 consists of a finer quality of tapestry, damask, plain rayon velour and mohair.

Grade 125 to 150 consists of a fine tapestry damask, figure velour, velour and mohair.

Grade 150 to 200 consists of a splendid quality of linen frieze, moquettes and fine damasks.

Note: When ordering, be sure to specify grade and kind (i. e. Grade 125, Mohair, etc.) of covering wanted.

In This Dining Room Group Artistry of Design Is Low Priced

Hospitality and friendliness is apparent in every graceful line of this "Cornelius" dining room group. And the deep beauty of the woods and artistry of design mark it as a suite of good fashion and good taste. The Buffet drawers, China door rail and server door are faced with beautiful four-way matched rotary Walnut veneer, while the overlays are faced with African Walnut veneer. Tops and fronts are of five-ply and ends of three-ply construction to make each piece warp-proof. Structural parts are of selected gum cabinet wood for strength. Drawers are dovetailed, semi-boxed and are fashioned from Oak. The upper Buffet drawer is sub-divided and a portion lined for silverware. The suite is finished in a warm nut brown shaded Walnut. Table equipped with lock. Chairs obtainable in a wide selection, of new tapestries and Jacquard velours. The real beauty of these splendidly constructed pieces lies in the pure simplicity of the design. Sufficient embellishment is accomplished in the beauty of the woods and through a panel effect on the cupboard doors of the buffet server door, and bottom center panel of the China. Each of the cabinet pieces offers a compact, modern convenience seldom found in furniture as low priced as this suite. The Buffet has two side compartments as well as two drawers for linen and silverware while the China offers ample space for china display. The Server too, in addition to being a handy piece has a large center compartment.

No. 6F33. Buffet. Top, 18x60 in.; height, 40 in.; weight, 155 lbs. Each . . $45.00

No. 6F34. China. Top, 16x38 in.; height, 62 in.; weight, 125 lbs. Each . . $38.50

No. 6F35. Server. Top, 16x34 in.; height, 38 in.; weight, 90 lbs. Each . . $26.90

No. 6F36. Table. Top, 44x58 in.; height, 29 in.; weight, 165 lbs. Each . . $43.70

No. 6F38. Arm Chair. Slip seat, size, 16x19 in.; height of back, 38½ in.; weight per set of five Side chairs and one Arm chair in carton, 85 lbs. Each . . $9.90

No. 6F37. Chair. Slip seat, size, 14¾x17½ in.; height of back, 38½ in. Each $6.70

REMINGTON BB AIR RIFLES

MODEL 26, PUMP ACTION REPEATER
50 Shot—Shoots BB Air Rifle Shot

Similar in design to Remington's high grade, .22 caliber firearms with their hammerless, solid breech type of construction. Genuine American walnut stock and extra large, grooved, fore-end; adjustable rear sight mounted far enough from the eye to insure proper alignment with the front sight. The metal parts are made of stronger material than is used in ordinary air rifles. The barrel is made from a heavy, seamless, drawn brass tube which gives maximum accuracy and is non-rustable.

An important feature is the safety; when the air rifle is loaded the fore-end must be pushed to the extreme forward position before the air rifle can be fired. This prevents accidental discharge.

No. C4026—Length 38¼ in., w't each 4 lbs. 2 oz., packed w't per doz. 72 lbs.....**per dozen $133.35**

The manufacturers recommend lead air rifle shot only for use in the above air rifles.

ONE IN A BOX, ONE DOZEN IN A CARTON

BENJAMIN BB AIR RIFLES

TAKE-DOWN, SINGLE SHOT
Operated by Compressed Air

Nickel plated barrels, walnut stock, single shot take-down, larger barrel is the pump and air chamber, smaller one is the shooting barrel, length 36 in., w't per dozen 33 lbs.

The air is compressed with a self-contained pump—one or two strokes will produce power to deliver a light tap or to penetrate a ⅛ in. board.

Pneumatic, operated entirely by compressed air, not a spring gun.

No. C5025—Per dozen.....$88.90

The manufacturers recommend lead air rifle shot only for use in the above air rifle.

ONE DOZEN IN A CASE

BENJAMIN'S SPECIAL ADVERTISING PACKAGE

No. C5026—Special Package of three No. C5025 Benjamin BB Air Rifles with a free counter-window display rack and a supply of advertising pamphlets entitled "The Shooter's Art." The rack is made of heavy paper board, handsomely lithographed in four colors, 27x8¼ in. The air rifles, rack and advertising matter make up a package 6x4x24 in., w't about 10 lbs....per package **$22.20**

WE DO NOT BREAK PACKAGES

LIQUID PISTOLS

Designed after the latest automatic pistol and would readily be taken for one.

Will throw a fine stream of water a distance of 25 feet. When filled with ammonia diluted with water it makes a very effective weapon against vicious dogs.

No. C8—Daisy, length 5¼ in., steel, blued finish, simple to load and discharge, no rubber bulb to get out of order, w't per doz. 4 lbs.....per dozen $4.45

ONE IN A CARTON

QUACKENBUSH BB AIR RIFLES

TAKE-DOWN, SINGLE SHOT

No. C7—Shoots strong and accurately, 17-100 felted slugs, BB air rifle shot or 17-100 darts, 17 in., round barrel, blued finish, metal parts all steel except inner barrel which is made of brass, American walnut finished stock, nicely varnished, action and trigger gray blue finish, six steel darts and three paper targets packed with each rifle, length over all 38 in., w't each 2¾ lbs., per dozen $136.00

ONE IN A BOX

By simply pushing in the barrel the gun is cocked and the breech opened for handy loading. An excellent arm for small game, also well adapted for target shooting.

ONE IN A BOX

No. C17-100 Felted slugs for No. C7 Quackenbush and other makes of single shot air rifles....per 1000 **$2.55**

Felted slug prevents leakage of air, more desirable than BB air rifle shot for accurate shooting.

ONE HUNDRED IN A BOX

BB AIR RIFLE DARTS

No. C47—Sharp, steel points, with assorted colors, red, white and blue flight guides, fits No. C7 Quackenbush and other makes of single shot BB air rifles, w't per gross ⅛ lb.....per gross $4.45

ONE DOZEN IN AN ENVELOPE

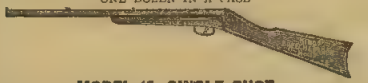
KING BB AIR RIFLES

MODEL 10, JUNIOR SINGLE SHOT

Blued finish steel barrel and frame, walnut finished stock, good sight, perfect action, shoots BB shot, length 29 in., w't per doz. 15 lbs.

No. C5010—Per dozen.....$16.00

ONE DOZEN IN A CASE

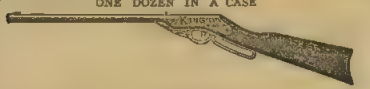


MODEL 17, SINGLE SHOT

The new "King Breech Loading Air Rifle", is the first really good air rifle, at a moderate price, that will shoot darts as well as steel and lead shot with accuracy. It "breaks" about the center of the rifle for loading purposes, has an automatic locking device and is built very substantially. Equipped with a very practical safety trigger. A deep notch in the trigger permits it to "bite" on the lower part of the frame and it is impossible for the plunger to slip off the trigger when gun is cocked. This, however ,does not at all interfere with the pull of trigger, which is very smooth.

No. C5011—Barrel and all metal parts blued, walnut, finished stock, length over all 32 in., w't per doz. 27 lbs., per dozen $44.45

ONE DOZEN IN A CASE

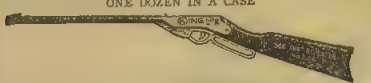


MODEL 21, SINGLE SHOT

Lever action, made of best grade highly polished blued steel, with barrel and frame of one piece, walnut finished stock, open rear sight. Shoots BB Air Rifle shot and darts with accuracy. Length 31 in., all parts interchangeable. W't per doz. 25 lbs.

No. C5021—Per dozen.....$26.65

ONE DOZEN IN A CASE



MODEL 22, 500 SHOT AUTOMATIC REPEATER

Lever action automatic repeater shoots 500 times without reloading, made of best grade highly polished blued steel, with barrel and frame of one piece, walnut finished stock, open rear sight. Shoots BB Air Rifle shot with accuracy. Length 31 in., all parts interchangeable. W't per doz. 25 lbs.

No. C5022—Per dozen.....$31.10

ONE DOZEN IN A CASE

MODEL 55, 1000 SHOT AUTOMATIC REPEATING

Lever action, automatic repeater, shoots 1000 BB shots without reloading, made of best grade, highly polished finish blued steel with barrel and frame of one piece, selected black walnut finish stock, carefully adjusted sights. Length 35 inches. This model is identical in appearance to No. C5022 excepting that it is about 4 in. longer and has a heavier stock. W't per dozen about 29 lbs.

No. C5055—Per dozen.....$35.55

ONE DOZEN IN A CASE

KING POP GUNS

MODEL 25, KING RAPID FIRE

Blued finish on all metal parts, stock and hand piece of polished black walnut, loads automatically, makes a loud report with both forward and backward movement of hand piece, no flying cork, safe, sane and substantial, length over all 27 in., w't per case of 3 dozen 45 lbs.

No. C5015—Per dozen.....$17.75

THREE DOZEN IN A CASE

MODEL 15, KING SAFETY LEVER

Break down action, blued steel barrel and frame, walnut finished stock, shoots a cork which is attached to a string and makes a loud report, length 17½ in., w't per case of 6 doz. 42 lbs.

No. C5014—Per dozen.....$4.45

SIX DOZEN IN A CASE

MODEL 19, KING AUTOMATIC POP

Break down action, blued steel barrel and frame, walnut finished stock. This gun embodies an entirely new principle heretofore never employed in the make-up of Pop Guns. You will notice the spring controlled poppet valve at the muzzle end, instead of a cork, a leather valve is used, providing longer life, positive action and extra loud noise. The gun is loaded automatically. Length 18 in., w't per case of 6 doz. 43 lbs.

No. C5019—Per dozen.....$4.45

SIX DOZEN IN A CASE

MODEL 16 KING POP

Blued finish steel barrel, break down model, walnut finished stock, a cork attacher to string, length 22 in., w't per case of 6 dozen 60 lbs.

No. C5013—Per dozen $8.90

SIX DOZEN IN A CASE

DAISY BB AIR RIFLES

MODEL 12, SINGLE SHOT

Lever action, single piece steel barrel, blued finish, walnut finished stock, shoots BB air rifle shot and 17-100 darts, length 31½ in., w't per doz. 29 lbs.

No. C5005—Per dozen.....**$26.65**

ONE DOZEN IN A CASE

MODEL 11, 350 SHOT AUTOMATIC REPEATER

Lever action, 350 shot, shoots BB shot, single piece steel barrel, nickel finish, all parts interchangeable, length 31½ in., w't per doz. 29 lbs.

No. C5007—Per dozen.....**$35.55**

ONE DOZEN IN A CASE

MODEL 30, 500 SHOT AUTOMATIC REPEATER

Lever action, 500 shots, shoots BB shot, working parts of steel and brass, blued finish, walnut finished stock, loaded automatically, length 33 in., w't per doz. 40 lbs.

No. C5018—Per dozen.....**$44.45**

HALF DOZEN IN A CASE

WE DO NOT BREAK CASES

See Page 2105PP for Prices

HAENEL IMPORTED .22 CALIBER AIR RIFLES

SOLID FRAME, SINGLE SHOT

One of the highest grade Air Rifles, solidly and reliably built. A side catch "breaks" the barrel for reloading and when the barrel is brought back into place the rifle is ready for firing; no pumping. It is accurate and hard shooting. Serves the same purposes as a 22 caliber firearm.

No. C4006—22 caliber, Model 1, adapted to any standard, 22 caliber, spool-shaped lead pells, or 22 caliber darts. Effective range about 35 yards. 15½ in. round, rifled, blued steel barrel, half pistol grip, polished walnut-finished stock. Length over all 38¼ in., w't each about 4 lbs. 10 oz.....each $20.55

ONE IN A BOX

No. C4007—22 caliber, Model 3, adapted to any standard, 22 caliber, spool-shaped lead pells, or 22 caliber darts. Effective range about 50 yards. 19 in. round, rifled, blued steel barrel, half pistol grip, finely-grained walnut stock fitted with metal butt plate. Length overall 42¼ in., w't each about 6 lbs. 10 oz.....each $28.75

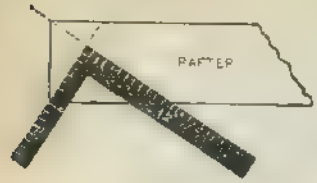
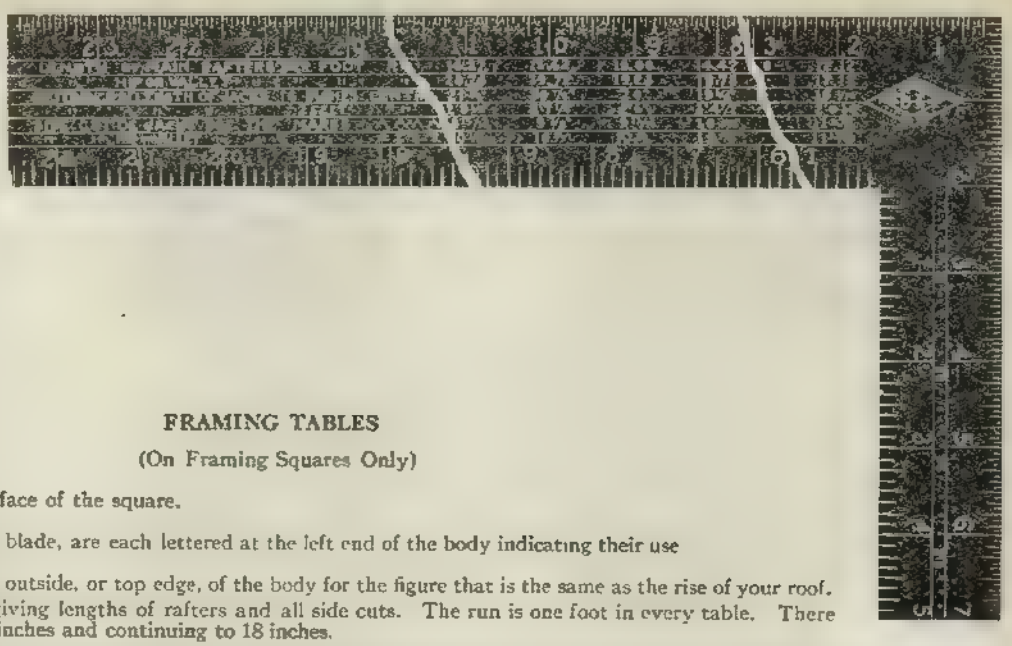
HOW TO READ A SQUARE





FRAMING TABLES

(On Framing Squares Only)

Framing tables on the trade-mark side, or face of the square.

The rows of figures on the body, or widest blade, are each lettered at the left end of the body indicating their use

First: Look at the inch line figures on the outside, or top edge, of the body for the figure that is the same as the rise of your roof. Under this figure will be found all the figures giving lengths of rafters and all side cuts. The run is one foot in every table. There are seventeen of these tables, commencing at 2 inches and continuing to 18 inches.

For Example: Take 8 inches rise to the foot, or third pitch, under the 8-inch line figure. For length of common rafters, use the first figures in the table 14 42 inches, multiply by half the width of the building, which will give the whole length of the rafters. Suppose the width to be 20 feet, the Rafters would be 144.20 inches long, or 12.01 feet.

For Length of "Hip" or "Valley" Rafter, use the second figures, 18 78 inches, and again multiply by half the width of the building, 10 feet and the result 15 65 feet is the length required For top and bottom cuts of rafters, common and "Jacks," use the 8-inch and 12 inch marks on body and tongue, either way as most convenient. (The 8 inches is the vertical, or top, of the rafter, and the 12 inches is the horizontal, or bottom.) "Hip" and "Valley" rafters, use 8 inches and 17 inches, proceeding same as before.

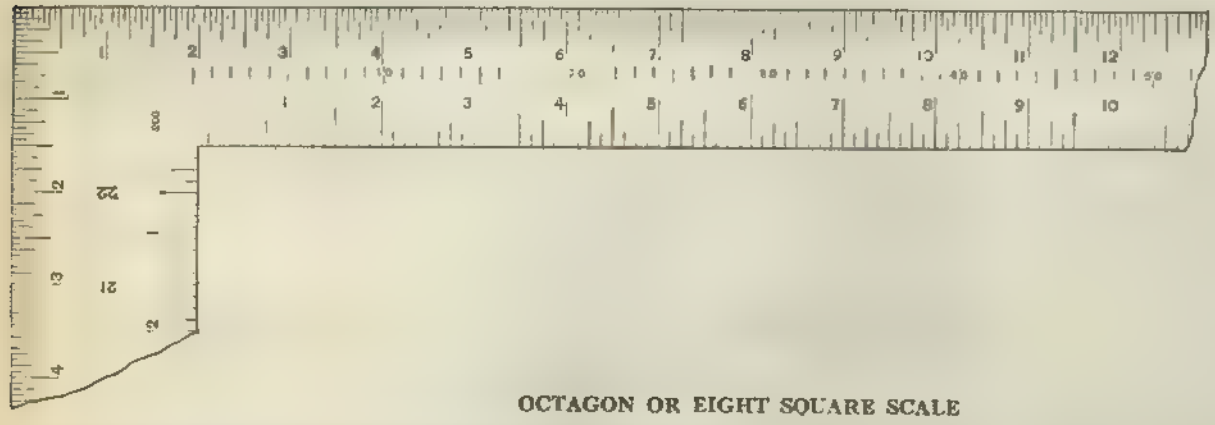
For Length of "Jack" Rafters, using third pitch, as in previous example the third number in the 8-inch table, 19 and ¼ inches is the length of the first "Jack" when they are spaced 16 inches between centers, and also the difference between the lengths of the others, each one 19 and ¼ inches longer than the one nearer the first one.

The fourth figure in the same 8-inch table, 2 feet 4 and 7/8 inches, is the length of the first "Jack" rafter 2 feet between centers, also the difference in length of the others.

For Side Cut on "Jacks," etc., the fifth figures in the table under the 8 inch mark are 10 3-16 inches. These refer to the graduation marks on the outside edge of the body Put that 10 3 16-inch mark on the edge of the "Jack" and the 12-inch mark on the tongue on same edge, mark the tongue for side cut of "Jack." This also gives the right angle to cut plancier and mouldings on the jet that runs up the gable. The level plancier and moulding cuts, roof boards and shingles can be marked on the body side of square, or the references transposed, using the 12-inch on the body and the body reference given in the table on the tongue.

"Hip" and "Valley" rafter side cuts are marked by using the last figure in the table, same as before.

Notice that the 12-inch mark on the tongue is always used in all angle cuts both top and bottom and side cuts, thus leaving the workman but one number to remember when laying out side or angle cuts. This is the figure taken from the fifth or sixth number in the table. The cuts come always on the right hand or tongue side When marking boards these can be reversed for convenience at any time by taking the 12-inch mark on the body and using the body reference on the tongue



OCTAGON OR EIGHT SQUARE SCALE

The Octagon Scale is arranged on a plan that enables the workman to lay out with a gauge, or in any convenient manner, lines parallel with the four sides of a timber. When the corners are chamfered off to these lines, there will be eight equal sides on the timber. The end may be used, or if the chamfer does not come to the end, a center line may be drawn through the length to be cut octagon, and the corner lines laid off by the scale. The rule is to take 5-24 of the width of the timber and lay it off each side of the center, then cut off the corners up to the line; thus, the marks on the square are 1/24 inch apart for one inch square Simply set the dividers into the first and fifth marks for a 5-inch square, etc.

LOVELL ONE-PIECE HOCKEY STICKS

The material is clear, straight grained, kiln dried second growth Rock Elm or White Ash—that's the sort of stuff that takes a stick through a season of the h ardest punishment with real satisfaction.

The carefully selected wood is steam bent by the most approved methods—taking ample time and using modern equipment.

Great care is taken in designing models from patterns based on the favorite sticks of famous hockey players.

WOMEN'S

No. C90HL—Shoe sizes 3 to 9.....per outfit $10.20

ALUMO ICE SKATE OUTFITS

Alumo Skates are semi-tubular, made of aluminum, and completed in one piece at one operation, without joints, seams, rivets, solder, welding or brazing.

An account of the patented constructive principle upon which they are built is nothing about them to work loose, wear loose, or rust loose. And the fact that their design is not limited by the mechanical necessities of assembling processes makes it possible to shape them without restriction into lines of beauty, into fitness to the foot, and into perfect structural form and balance. They are a combination of lightness, strength, rugged durability, and beauty of form and finish.

Special Hockey, satin finish, on specially constructed shoes of genuine Goodyear welt.

No. C901—Men's, shoe sizes 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12.....per outfit $11.65

GENUINE MARBLE'S HUNTING KNIVES

Marble's Hunting Knives are forged from Razor Steel, are hand tempered, tested and honed to a Keen edge. Each Knife is fully Guaranteed. These Knives have been honored by being imitated, but the original and genuine has "MARBLE'S" stamped on blade.

IDEAL HILT KNIVES

The thick, strong blade is relieved by hollow grinding which provides proper balance for weight and size. Strength of back is necessary for splitting kindling or digging holes in hard ground or ice. The hollows aid quick sharpening. Blade is adapted to sticking and skinning. Back of point is beveled for breaking small bones. The IDEAL is an every-purpose knife.

Laminated Leather Handle, with colored hard fibre and brass washers. Has flush aluminum tip. Complete in leather sheath.

Nos.	C454½	C455	C456

Blade, in.	5	6
W't per doz., lbs.	6½	7½
Per dozen	$42.00	45.00

HALF DOZEN IN A BOX

CANOE KNIVES

Some of the prominent canoeists of the country requested a knife for their use. Marbles Canoe Knife has won their approval as it is "short and stout."

When sailing a canoe or yacht, a short, keen sheath knife is a necessity for slashing rigging in case of sudden squall or capsizing.

Laminated Leather Handle, with colored hard fibre and brass washers. Has flush aluminum tip. Complete in leather sheath with point protector.

No. C41—4½ in. blade, w't per doz. 5 lbs., per dozen $30.00

HALF DOZEN IN A BOX

Genuine Stag Horn Handle, with colored hard fibre, leather and brass washers. Has real stag horn tip. Complete in leather sheath with point protector.

No. C42—4½ in. blade, w't per doz. 5 lbs., per dozen $39.00

HALF DOZEN IN A BOX

WOODCRAFT KNIVES

Acknowledged to be the best seller of all outing knives. Finest steel blade—tapering to point for sticking—just the right curve for skinning—thin enough for slicing and whittling—checkered for thumb or finger grip—back is bevelled for breaking small bones—perfectly and uniformly tempered. Proclaimed by sportsmen to be the best all 'round knife. **Just the Knife for Boy Scouts.**

Laminated Leather Handle, with colored hard fibre and brass washers. Has flush aluminum tip. Complete in leather sheath.

No. C49—4½ in. blade, w't per doz. 5 lbs., per dozen $27.00

HALF DOZEN IN A BOX

Genuine Stag Horn Handle, with colored hard fibre, leather and brass washers. Has real stag horn tip. Complete in leather sheath.

No. C504½—4½ in. blade, w't per doz. 5 lbs., per dozen $36.00

HALF DOZEN IN A BOX

DALL DE WEESE PATTERN

Designed by Dall DeWeese, for use on expeditions after big game, where every item of the outfit has to be figured down to the lightest and most compact form. It has a dull saw back on which the thumb is placed when skinning or cutting hard substances. When sticking the little finger should be doubled up, letting the end of handle rest against it. This takes the place of a hilt.

Stag Horn Handle, with groove to fit finger. Complete in leather sheath with point protector.

No. C62—4 in. blade, w't per doz. 4 lbs., per dozen $24.00

HALF DOZEN IN A BOX

EXPERT KNIVES

Particularly designed to meet the requirements of the professional hunter, trapper and guide, who requires a thin, keen-edge for dressing skins and furs.

The back of the blade is designed for scraping skins while on the forms.

Popular with auto campers, as it has the strength of a heavy knife, but is thin enough for slicing, peeling, and general camp use.

Laminated Leather Handle, with colored hard fibre and brass washers. Has flush aluminum tip. Complete in leather sheath with point protector.

No. C545—5 in. blade, w't per doz. 5 lbs., per dozen $30.00

HALF DOZEN IN A BOX

HUNTING KNIVES

A slight pressure on the shield opens the knife, swings blade out into cutting position, closes case or handle and you have a rigid knife that is ready for business.

No torn thumb nails or sore fingers, no projections to catch or tear clothing.

Adaptable for every outdoor use. For hunting, fishing, camping, etc., it has no superior. Blades can be easily changed. Unconditionally warranted.

No. C961—Neft safety knife, made of the highest grade crucible steel, scientifically tempered and ground to a keen and lasting edge, length of blade 4¾ in., length of knife when closed 5¾ in., scored hard rubber handle, large nickel silver bolsters with guard and toggle to attach to rope or key chain, small metal wrench for interchanging blades,.....per dozen $66.65

ONE DOZEN IN A BOX

MARBLE TROUT KNIVES

Latest addition to Marble Line. Designed expressly for dressing speckled trout and other fish.

No. C79—Forged from one piece of finest cutlery steel, handle terminates in a ring 1 in. in diam., full length 5¾ in., blade 2 in., w't each 1 oz., complete with metal bound leather sheath.....per dozen $13.35

ONE DOZEN IN A BOX

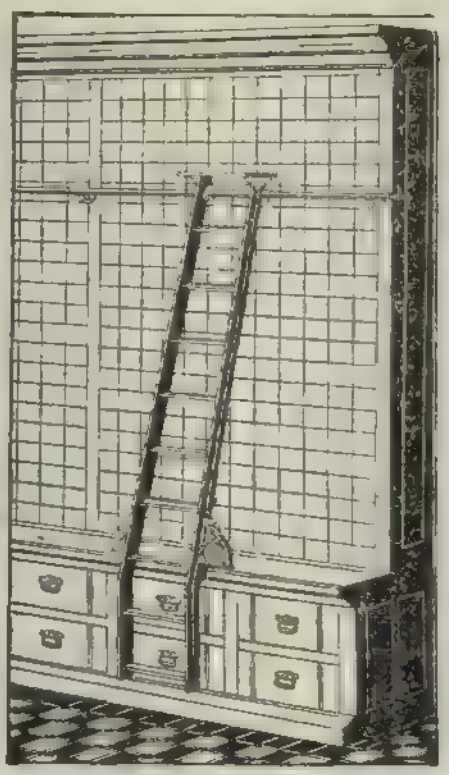
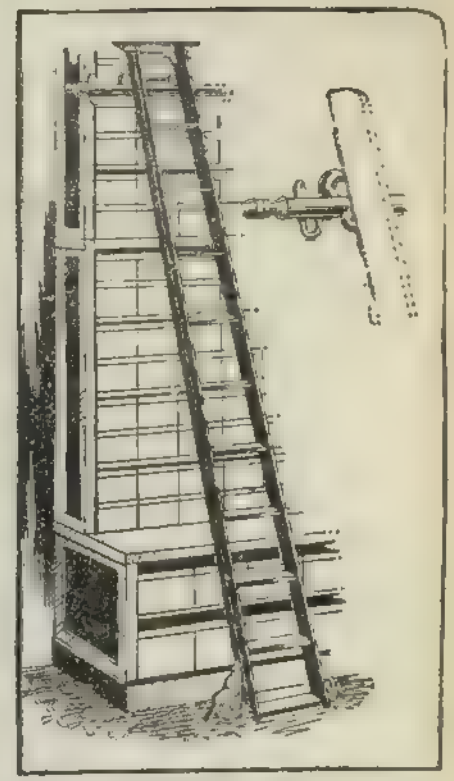
Nos. 65 and N65.
BENT FLOOR LADDERS



Nos. 75 and N75.
BENT BASE LADDERS



Nos. 85 and N85
STRAIGHT FLOOR LADDERS

Made of Selected Oak, Natural Finish, Varnished

In These Styles the Track is at the Bottom, Either on the Base Shelf or on the Floor, So That the Entire Weight of the Ladder and Operator is Supported from Below on a Solid Foundation, and Not Suspended Relieving All Liability of the Ladder Falling, or of Sagging the Shelving. The Track at the Top is a Light Turned Pole to Guide the Upper End of the Ladder in Moving it, Snug Hood Fit Over This Pole to Prevent the Ladder from Tipping Backwards, But Not a Pound of Weight Rests on This Pole. The Great Success of the Bicycle Ladder is in That **User Stands Directly Over the Wheels** and There is **No Side Friction** at All, and the Ladder Goes as Easily as Any Other Bicycle.

The Ladders All Have an Extra Wide Shelf at the Top for Convenience in Handling Stock, and the Wheels are Provided with Fenders to Prevent Them from Running Over Any Object, However Small, That May Have Been Left in Their Way.

The Track for Bicycle Ladders is a Double Track. At the Upper Part of the Shelving a Neat Turned Pole is Attached by Stout Malleable Iron Brackets, Serving to Guide the Top of the Ladder, and at the Bottom on the Base Shelf or the Floor, is Fastened a Small Half Round Rail on Which the Wheels Run Guiding the Bottom of the Ladder. The Bottom Rail is Little Larger Than Half of a Lead Pencil and the Upper Guide is a Little More Than One inch in Diameter. The Lower Track May be Either "Noiseless" Fibre Rail or Smooth Steel Rail, Next to Noiseless, Finished Either in Bronze or Polished Nickel Plating. The Brackets Holding the Pole at Top are **Either Nickel Plated or Japanned Finished.**

The Track for the Floor is So Small (but Three-Sixteenths of an inch in Height) That it Can Cause No Inconvenience.

Both the Floor Track and the Base Shelf Bicycle Ladders Have a Simple Device Which Entirely Prevents Them from Coming **Off the Track Unless They Are Lifted Off.**

HOW TO ORDER BICYCLE LADDERS

Refer to Cut at Side of This Page and Give the Following Measurements: D to A; A to B; and B to S. State Which Number Ladder is Desired; Whether Plain or Nickeled Plated Mountings are Required. State Length of Track Wanted and the Number of Uprights in the Shelving, and Say Whether Solid Uprights, Partition Boards, Turned Spindles or Iron Brackets are Used to Support the Shelving.

Items Marked ✣ Not Carried in Stock; Made to Order Only and Shipped from St. Louis, Mo., F. O. B.

ROLLING STORE LADDERS AND TRACKS

MILBRADT

Made To Order Only

TROLLEY OR CEILING LADDERS

Oak

For Steel Track Fastened to the Ceiling; Fiber Filled Wheels Run Noiselessly on the Steel Track; Cushion Tired Wheels at the Bottom Run on the Floor; the Track is Made of Round Tubing and Rests in Malleable Iron Brackets, Which are Screwed to the Ceiling About 4 feet Apart, or so the Lag Screws will Enter the Joists; if the Ceiling is Plastered, a Board 7 inches Wide Should First be Nailed or Screwed to Ceiling and the Brackets Screwed to the Board; in Every Instance, the Lag Screws Must Enter the Joists; Ceiling Board Not Furnished, Unless Specially Ordered.

This Ladder is Strongly Made and with Sufficient Incline to Make Easy Climbing; it is Especially Adapted for Hardware Stores, Wholesale Houses or Other Places where Heavy Goods are Handled; it Runs Independently of Shelving and is the Most Suitable to Use When Shelving is Not so Arranged that Ladders Can be Conveniently Applied to it. Width 14 inches; 4 inch Side Pieces; 5 inch Steps; Complete With Fixtures.

Each

No. 15—Average Shipping Weight Each, 60 lbs. $40 00

Per Foot

HOW TO ORDER STEEL TRACK

The Longest Length of Steel Track Made is 18 feet; if Track is to Be Longer than 18 feet, Two or More Lengths are Joined Together; Furnished in Such Lengths that All Joints Will Meet at Centers of Uprights or Partitions in Shelving, Which Will Bring the Joints Over Brackets. The Different Lengths are Screwed Together to Make a Continuous, Smooth Track for the Entire Line of Shelving.

First—Give the Entire Length of Each Line of Shelving.

Second—Measure from Outside of One End of Shelving to Center of an Upright or Partition Nearest to, but Inside of 18 feet from Starting Point; Give this Measurement, then Begin from the Center of the Last Upright or Partition Measured to, and Again Measure to the Center of an Upright or Partition Nearest to, but Inside of 18 feet from Last Starting Point, and so Continue to Measure for as Many Lengths as are Required.

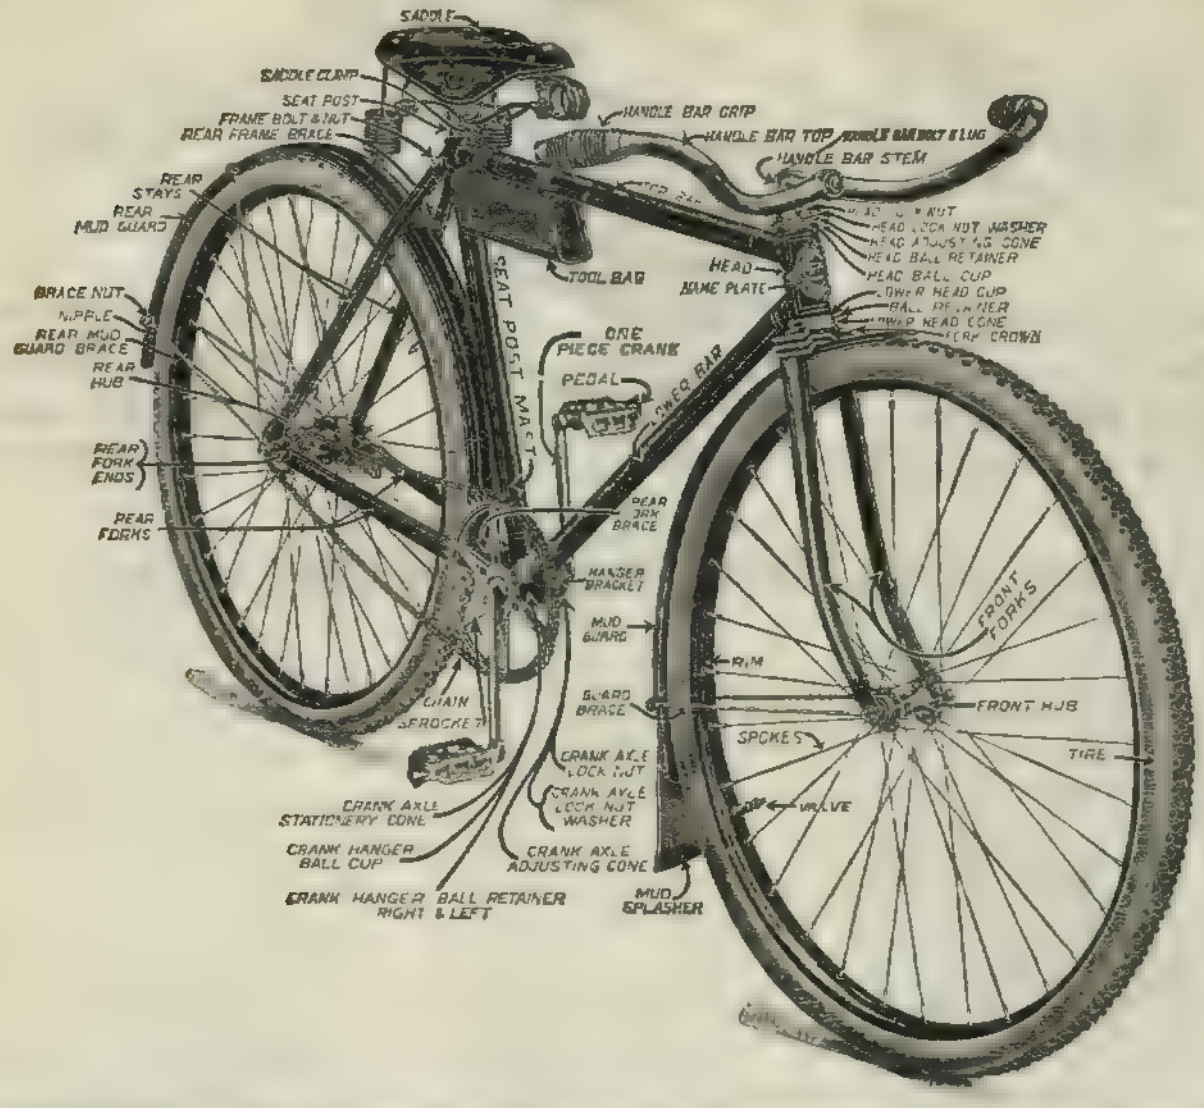
DIAGRAM OF BICYCLE WITH ALL COMPONENT PARTS INDICATED BY THEIR PROPER NAMES

"Originated By Us"



THIS DIAGRAM IS INTENDED AS A GUIDE, WHEN ORDERING REPAIRS, TO ANYONE NOT FAMILIAR WITH THE NAMES AND LOCATIONS OF THE DIFFERENT PARTS OF A BICYCLE. THE OBJECT IS ALSO TO AVOID LENGTHY DESCRIPTIONS OF PARTS WHEN ORDERING. THIS WILL BE A READY HELP TO THE DEALER, AND WILL SAVE MUCH TIME AND TROUBLE.

BICYCLE GUARANTEE

We Agree with the Purchaser of Each Bicycle, to Make Good, By Repairs or Replacements, **When Delivered at Our Store, Transportation Prepaid,** Any Imperfection or Defect in Material or Manufacture of Our Rugby or Shapleigh Special Bicycles **Not Caused by Misuse or Neglect.** Provided that All Imperfections or Defective Parts Shall be Referred to Us Before Any Claim for Repair or Replacement Shall be Allowed.

This Guarantee Continues in Effect to December 31st Following Date of Purchase.

TIRE GUARANTEE

We Guarantee Shapleigh Bicycle Tires to be Perfect in Workmanship and Material, and if Any Defect Should Develop Within the Season in Which They are Purchased of Us, We Will Repair or Replace Without Charge, Provided that They are **Returned to Us Charges Prepaid.** This Guarantee Does not Cover **Punctures, Damages or Torn Valve Stems Caused by Accident or Negligence** of the Rider.

This Guarantee **Expires in Any Event on December 31st, of the Year in Which They are Purchased.**

Factory Brand Tires are Guaranteed by the Manufacturers, and are Subject to the Same Conditions, Except They Must be Returned, **Charges, Prepaid, Direct to the Factory That Made Them,** for Their Inspection and Approval.

Bicycles and Bicycle Sundries

Although this is aptly described as the Motor Age and power vehicles greatly predominate in all modes of transportation, the Bicycle has its well established place and the demand for it steadily increases.

From the earliest introduction of the Bicycle, the Shapleigh House has held its leadership in their distribution.

Rugby Bicycles, because of the sturdiness of their construction, symmetry of lines and beauty of finish, are widely recognized as the finest and most satisfactory in point of service, to be had at any price in any market.

Shapleigh Special Bicycles, slightly less in price, are nevertheless entitled to the splendid reputation their excellent qualities have earned

This Catalog illustrates and describes a complete line of Bicycles and Sundries, nothing of proven worth is omitted. Moderate prices prevail throughout. Orders are handled accurately and efficiently.

Supplementing the Bicycle line is a large variety of Wheel Goods, consisting of Boys' Wagons, Juvenile Automobiles, Hand Cars, Park Cycles, Velocipedes, Scooters, Pedal Bikes, in all desirable styles and grades, at prices which yield the Dealer excellent profits.

Orders through our salesmen or by mail, are cordially solicited and will receive that prompt and careful attention which distinguishes Shapleigh Service.

"DIAMOND EDGE IS A QUALITY PLEDGE"

SINGLE BIT AXES

★DIAMOND EDGE

DIAMOND EDGE Axes are Recognized as Being the Best Made. They are **Hand Tempered** by an Improved Process. Every Axe Carefully Tested Before Leaving the Factory. This Practically Prevents Axes with Flaws or Soft Cutting Edges Reaching the User. It also Insures Uniformity of Temper, without which an Axe will not Hold a Fine, Sharp Cutting Edge.

The Eye is Tapered; this Holds the Handle Firmly and Prevents its Splitting.

In Ordering Axes on this Page, Give Numbers and Weights Only

SECTIONAL VIEW OF DIFFERENT SIZE FILES

Illustrations Full Size

GENERAL DESCRIPTION OF FILES AND RASPS

FILES AND RASPS ARE CLASSIFIED BY THREE FEATURES

1st, Their Kind or Name. 2d, Their Cut. 3d, Their Length

The Kind—By kind, is meant the varied shapes or styles which are distinguished by certain names as flat, mill, half round, etc. First, the kinds are divided according to the form of their cross-sections, into certain classes, namely: Quadrangular, Three and Four Sided or Triangular. Odd and irregular forms are collected under miscellaneous classes. These classes are subdivided according to their general outline into Taper and Blunt.

Taper—Designates a file, the point of which is more or less reduced in size (both width and thickness) by a gradually narrowing section extending from one-half to two-thirds the length of the file from the point.

Blunt—Designates a file that preserves its sectional shape throughout from point to tang.

The Cut—Is divided, with reference to the character of the teeth, into single cut, double cut and rasp cut, and with reference to the coarseness of the teeth, into rough, coarse, bastard, second cut, smooth and dead smooth. See Illustrations Below. Regarding the latter we may say that the coarse and bastard cuts are used upon the coarser, heavier classes of work while the second cut and smooth are used for the finer grades and for finishing the work started by the coarse and bastard. The rough and dead smooth are seldom called for, but correspond to the above use.

The Single Cut File—Is one in which a single, unbroken course of chisel-cuts is made across its surface, parallel to each other, but obliquely to the sides.

The Double Cut File—Has two courses of chisel-cuts crossing each other, the second course with rare exceptions being finer than the first.

Rasp Cut—Differs from single or double cut in the respect that the teeth are disconnected from each other, each tooth being made by a single pointed tool, called a punch.

Superfine, or Super Cut—A term applied by the Lancashire file makers to designate a grade of cut designated by us as dead smooth.

Middle Cut—A term used to designate the cut of a file when it is of a grade of coarseness between the rough and bastard. It is but little used in this country.

Recut or Recutting—The working over of old or worn-out files by the several processes of annealing, grinding out the old teeth, recutting, hardening, etc., and thus again preparing them for use.

This operation is sometimes repeated two and even three times, but the economy of recutting at all is very much questioned, and the practice is done away with in most of the best appointed shops of the present day.

The Length—Is the distance between its shoulder and the point. The tang handle is never included in the length.

TERMS COMMONLY USED TO DESCRIBE FILES

Back—A term commonly used to describe the convex side of half-rounds, cabinets, pit saws and other files of similar cross-sectional shape.

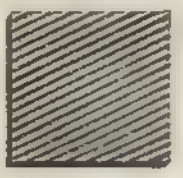
Bellied—A term sometimes used to describe a file having a fullness in the center.

Safe Edge (or Side)—Terms used to denote that a file has one or more of its edges or sides smooth or uncut, that it may be presented to the work without injury to that portion which does not require to be filed.

ILLUSTRATIONS SHOWING CUT OF FILES AND RASPS

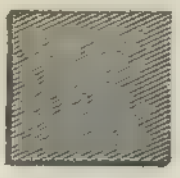
SINGLE CUT

Single Cut Files—Have a Single Unbroken Course of Chisel-cuts Across the Surface Parallel to Each Other, but Oblique to the Sides; Particularly Adapted to Saw Filing, Used on Lathe Work by Machinists; also used by Woodworkers, Carriage Builders, etc.



Coarse

Bastard

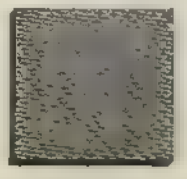


Second Cut

Smooth

DOUBLE CUT

Double Cut Files—Have Two Courses of Chisel-cuts Crossing Each Other, the Second Course with Rare Exceptions, Being Finer than the First; Especially Adapted to Machine Shops, Locomotive Works, Foundries and for Similar Classes of Work.



Coarse

Bastard

Second Cut

Smooth

RASP CUT

Rasp Cut Files or Rasps Have Teeth which are Disconnected from Each Other, Each Tooth Being Made by a Punch; Used by Blacksmith Horseshoers, Plumbers, Cabinet Makers, Woodworkers, etc.

STYLE
—but above all
ACCURACY

The external features of smart, masculine designs might tempt a man to choose a Warwick — but it is its unvarying accuracy, its faithfulness to its obligation to record time correctly, that *holds* his admiration.

Warwick Watches are the product of a craft thoroughly trained in centuries of fine watchmaking—the product of the most highly skilled watchmakers the profession knows.

COLEMAN INSTANT-LITE LAMPS AND LANTERNS

SIX NEW FEATURES OF INTEREST OF NEW DEVELOPMENT IN INSTANT-LITE LAMPS AND LANTERNS

Feature No. 1 -No Generation -Just Light the Mantle; New Triple "Life" Generator—It is Important to Stress that This Process is Not What is Commonly Known as "Vapor Lighter" Which Takes "Gasified Air" or Pressure From the Top of Tank for Lighting; the Coleman "Instant Lighting" Principle Causes Practically no Loss of Pressure in Lamp or Lantern, This Generator, All Conditions Equal, Will Average Five Times the Burning Life of a Regular Match Lighting Type of Generator; Since It Does Not Flood with Raw or Half Raw Gasoline Under the Imperfect Conditions of Match Generator Types, Naturally Much Less Carbon is Deposited in the Generator; the Tip is Also Automatically Cleaned Every Time the Lamp is Shut Off with no "Seating" However, or Pressure Against the Tip; This Generator is More Easily Removed and Replaced

Feature No. 2—New Safety—The New Lamp and Lantern Cannot Flood Raw Gasoline if the Generator Valve Should be Opened Through Error; if Turned on Full and Not Lighted, no More than a Tablespoon (Usually a Teaspoonful, of Gasoline Will be Released by the Time All of the Pressure is Out of the Fount.

Feature No. 3 -New Finishes, New Colors—The New Colac Finish is Being Used on All Three Models of Coleman Instant Lite Lamps; This Finish Has the Appearance of a Delicate, Silken Veil Drawn Tight Over the Handle and Fount.

Feature No. 4—New Design, Base and Handle—The Design of the Base is a Real Treat to the Eye—A Marked Advance from a Standpoint of Beauty; and the Handle, Finished Like the Fount, Is Artistically Shaped to Fit Hand.

Feature No. 5—New Kreme-Lite Shade—New in Color and New in Design.

Feature No. 6—Built-in Pump—A Neat Efficiently Designed Pump That Provides a Great Utility Service, with no Perceptible Loss in Appearance; One Model, Lamp No. 117, is Made with Separate Pump, for Those Who Wish a Slightly Lower Priced Lamp.

INSTANT-LITE LAMPS

Operation—Lights Instantly, No Preheating Required; Makes and Burns Its Own Gas From Ordinary Gasoline; Produces 200 to 300 Candle Power of Light, According to Pressure Used.

COLEMAN INSTANT-LITE LAMPS AND LANTERNS

SIX NEW FEATURES OF INTEREST OF NEW DEVELOPMENT IN INSTANT-LITE LAMPS AND LANTERNS

Feature No 1—No Generation Just Light the Mantle; New Triple "Life" Generator—It is Important to Stress that This Process is Not What is Commonly Known as "Vapor Lighter," Which Takes "Gasified Air" or Pressure From the Top of Tank for Lighting; the Coleman "Instant Lighting" Principle Causes Practically no Loss of Pressure in Lamp or Lantern; This Generator, All Conditions Equal, Will Average Three Times the Burning Life of a Regular Match Lighting Type of Generator; Since It Does Not Flood with Raw or Half Raw Gasoline Under the Imperfect Conditions of Match Generator Types, Naturally Much Less Carbon is Deposited in the Generator; the Tip is Also Automatically Cleaned Every Time the Lamp is Shut Off with no "Seating" However, or Pressure Against the Tip; This Generator is More Easily Removed and Replaced.

Feature No. 2—New Safety—The New Lamp and Lantern Cannot Flood Raw Gasoline if the Generator Valve Should be Opened Through Error; if Turned on Full and Not Lighted, no More than a Tablespoon (Usually a Teaspoonful) of Gasoline Will be Released by the Time All of the Pressure is Out of the Fount.

Feature No. 3—New Finishes, New Colors—The New Colac Finish is Being Used on All Three Models of Coleman Instant Lite Lamps; This Finish Has the Appearance of a Delicate, Silken Veil Drawn Tight Over the Handle and Fount.

Feature No. 4—New Design, Base and Handle—The Design of the Base is a Real Treat to the Eye—A Marked Advance from a Standpoint of Beauty; and the Handle, Finished Like the Fount, Is Artistically Shaped to Fit Hand.

Feature No. 5—New Kreme-Lite Shade—New in Color and New in Design.

Feature No. 6—Built-in Pump—A Neat Efficiently Designed Pump That Provides a Great Utility Service, with no Perceptible Loss in Appearance; One Model, Lamp No. 117, is Made with Separate Pump, for Those Who Wish a Slightly Lower Priced Lamp.

INSTANT-LITE LAMPS

Operation—Lights Instantly, No Preheating Required; Makes and Burns Its Own Gas From Ordinary Gasoline; Produces 200 to 300 Candle Power of Light, According to Pressure Used

Shade—No. 444 New Kreme Lite 12 inches in Diameter, Heat Resisting, Cream Colored Opal Glass; Decorated in Harmonizing Colors.

Burner—New Instant Gas Design and Construction; Equipped with New Triple-Lite Generator.

Fount—Made of Brass; Crown of Ribbed Embossing, Handle of Grecian Vase Design, Equipped with Hand Operated Filler Plug and Built in Air Pump; Fuel Capacity, 3 Pints, Enough for 15 to 18 Hours' Service; Diameter of Base, 8 inches; Finished in New Green-Gold Colac, Complete with Shade, Two Mantles, Wrench and Pick Tip; Height Over All, 19½ inches.

MANUAL TRAINING AND WOOD WORKERS VISES

ABERNATHY RAPID ACTION

Especially Suitable for Manual Training and Technical School Equipment.

Roller Nut Screw Style

These Vises Have But ONE Part in Addition to the Elements of an Old Style, Slow Acting Screw Vise, and that is the **"Roller,"** which is a Large Substantial Casting, Practically Impossible to Put Out of Order Even by Abuse. They **Have No Springs Whatever,** but Depend Upon the **Weight** of the **"Rollers"** for Their Action, and **this is a Permanent Factor.**

So Constructed that it is Absolutely Impossible for the Nut Section to Rise or the Screw to Spring Out of Engagement.

The **"Roller"** is a Practically Balanced Cylinder Containing a Tapered Dovetail Mortise Into Which a Nut Section is Removably Fitted; the **"Roller"** Simply Hangs Upon the Screw, and Due to its Weight and the Resulting Frictional Contact Between these Two Parts the "Roller" **Rolls** in Whichever Direction the Screw is Turned.

Made of the Very Best Quality Gray Iron Castings, Well Machined and Nicely Finished, with Cold Rolled Steel Slides; with an Extra Smooth and Accurately Milled Steel Screw and with the Highest Grade of Phosphor Bronze Hobbed Nut, of More than Usual Length, Which Insures Strength and Long Wear.

Standard Cabinet and Pattern Makers Roller Nut Screw Style

Jaws, 10 inches Long; 4 inches Deep; Opening, 12 inches.

MANUAL TRAINING AND WOOD WORKERS VISES

RICHARDS-WILCOX

Especially Suitable for Use in Manual Training Schools and Where Subject to Heavy and Sudden Strains.

Instantaneous Adjustment. Continuous in Action. Phosphor Bronze Nut Operates Entire Length of Screw. No Pawls, Racks or Triggers to Break or Wear. Nut is Released and Completely Disengaged When Pressure on Work is Removed by Slight Reverse Movement of Handle. When Pressure is Applied it Causes the Nut to Engage and Lock Screw Firmly Screw is Cut with Single Thread Four to One Inch Hence has Double the Power or Pressure of Vises having Screw Cut with Double Thread. Cold Rolled Steel Guides, Gray Iron Jaws with Working Surfaces Ground and Finished. Special Design of Ribs on Jaws Secures Minimum Deflection or Spring Under Pressure, as Well as Minimum Weight.

EXTRAS FOR CROWN BICYCLES.

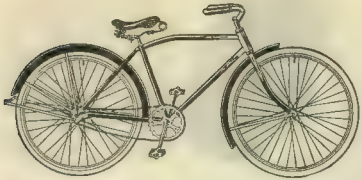
	Each
Bicycle Tool Bag and Tools	$1.20
Extra for G. & J. Tires; on 28-inch wheels only	5.00

Did you ever quit hunting because you didn't get a bird with every shell? No. You got better shells, took better aim and got better results, didn't you?

Now think about advertising. Did you ever quit advertising because it didn't produce results? If so, was your bird within range? Was your aim accurate? Did you use the right gun and ammunition?

A carelessly prepared advertisement is no ad at all. It's a waste of money. Advertising is like shooting. The more you do, the better you get. Good advertising easily pays for itself and nets you a nice profit.

BOY'S JUVENILE MODEL S3-5.



A model which made a real hit when produced last fall. A bicycle which can be used either by boys or girls, giving large wheels with a low frame. This is particularly well adapted for the growing child.

Directions for Laying Out a Double Court with the Prize Winner Marking Tapes

Select the Two Side Tapes Marked 78.2 feet and the Two Base Tapes Marked 36 feet, and Fasten with Four Pins Through the Grommets to the Ground at Points Lettered A, B, C and D in Diagram; Take the Two Service Side Tapes Marked 78.4 feet and Pin Through Grommets at Points Lettered E, F, G and H; Pin the Two Service Tapes Marked 27.3 feet Through Grommets at Points Lettered I, J, K and L and the Half Court Tape Marked 42 feet at Points Lettered M and N; Lastly, Take the Staples and Drive Them into the Ground and Over the Tapes at Regular Intervals.

SHAPLEIGH'S POINTERS

Remember
that quality, not price
is the criterion by which
a good Tennis Player
chooses his Racket—
Ultra Rackets meet
the most exacting requirements
in quality and still are
reasonable in cost.

MANUAL TRAINING AND WOOD WORKERS VISES

ABERNATHY RAPID ACTION

Especially Suitable for Manual Training and Technical School Equipment.

Roller Nut Screw Style

These Vises Have But ONE Part in Addition to the Elements of an Old Style, Slow Acting Screw Vise, and that is the **"Roller,"** which is a Large Substantial Casting, Practically Impossible to Put Out of Order Even by Abuse. They **Have No Springs Whatever,** but Depend Upon the **Weight** of the **"Rollers"** for Their Action, and **this is a Permanent Factor.**

So Constructed that it is Absolutely Impossible for the Nut Section to Rise or the Screw to Spring Out of Engagement.

The **"Roller"** is a Practically Balanced Cylinder Containing a Tapered Dovetail Mortise Into Which a Nut Section is Removably Fitted; the **"Roller"** Simply Hangs Upon the Screw, and Due to its Weight and the Resulting Frictional Contact Between these Two Parts the "Roller" **Rolls** in Whichever Direction the Screw is Turned.

Made of the Very Best Quality Gray Iron Castings, Well Machined and Nicely Finished, with Cold Rolled Steel Slides; with an Extra Smooth and Accurately Milled Steel Screw and with the Highest Grade of Phosphor Bronze Hobbed Nut, of More than Usual Length, Which Insures Strength and Long Wear.

Standard Cabinet and Pattern Makers Roller Nut Screw Style

Jaws, 10 inches Long; 4 inches Deep; Opening, 12 inches.

	Each

Maple Facings for Any Size Extras.....	**$1 00**
Larger Opening for Any Size, for Each Additional 3 inches	**1.00**

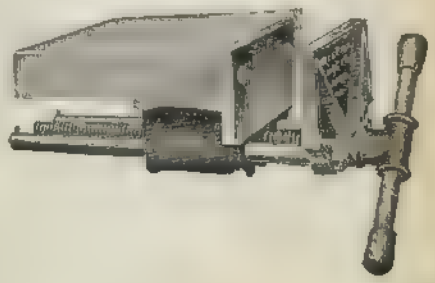
MANUAL TRAINING AND WOOD WORKERS VISES

RICHARDS-WILCOX

Especially Suitable for Use in Manual Training Schools and Where Subject to Heavy and Sudden Strains.

Instantaneous Adjustment. Continuous in Action. Phosphor Bronze Nut Operates Entire Length of Screw. No Pawls, Racks or Triggers to Break or Wear. Nut is Released and Completely Disengaged When Pressure on Work is Removed by Slight Reverse Movement of Handle. When Pressure is Applied it Causes the Nut to Engage and Lock Screw Firmly Screw is Cut with Single Thread Four to One Inch Hence has Double the Power or Pressure of Vises having Screw Cut with Double Thread. Cold Rolled Steel Guides, Gray Iron Jaws with Working Surfaces Ground and Finished. Special Design of Ribs on Jaws Secures Minimum Deflection or Spring Under Pressure, as Well as Minimum Weight.

Head or Side Vise



Each

IMPROVED DOMO CREAM SEPARATORS MODEL 1928

AN UNEXCELLED SKIMMER, PERFECTLY CLEANABLE

New Improved Bowl with Direct Cream Regulation in the Top Disc

Nos. H31 and H32 Cleans Skimming 50% Butter Fat

DOMO'S loose, overhung, self-balancing, small, all pressed steel bowl—Fig. 2—with gears (except No. HAX) running in a constant oil bath—Fig. 1—with bronze brushed bearings insures the smoothest, easiest running.

DOMO'S bowl is most simple and compact as made of fewest parts possible to cleanest skimming, is quickly and completely taken apart to clean as perfectly as a china plate and as readily re-assembled, features of the utmost importance in its daily use.

DOMO'S unexcelled skimming which is of first importance, combined with its superior construction, accounts for its most satisfactory service and the success it enjoys.

DOMO'S bowl discs are mixable, but best skimming results from keeping the discs in the same order after it is put into service. It will also skim cool milk, which however, is discouraged as a wasteful practice.

No. HBX

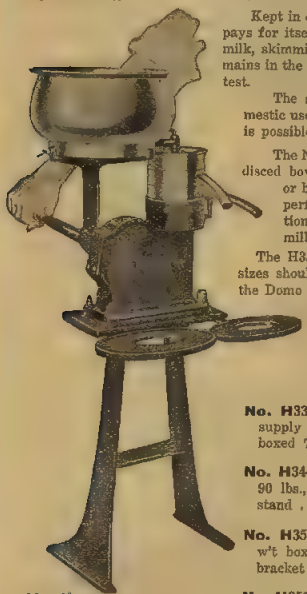
Figure 2 Self-Balancing Bowl and Automatic Spindle Coupling

Kept in condition and handled according to DIRECTIONS, DOMO pays for itself in a short time in the extra cream it takes out of the milk, skimming so perfectly that less than 2-100ths of 1% of fat remains in the skimmed milk, an amount imperceptible except by Babcock test.

The small "BX" size, 10×13 in. base and 16 in. tall—for Domestic use only—not more than two cows, will get more cream than is possible by setting the milk.

The Nos. H31, H32 and H34 are equipped with the most efficient disced bowl, described below. They may be mounted on a table or bench to operate successfully, but must stand solid to skim perfectly and not wiggle or vibrate in operation. Any vibration hinders skimming the same as does shaking or stirring milk on which cream is rising.

The H35 Domo, 25 in. high is intended for 5 to 10 cows. These sizes should always be mounted on a rigid stand to avoid jarring. Properly mounted, the Domo always runs smoothly and noiselessly.



Nos. H33, H34, and H35 With Stand

No. HBX—Domo—Capacity 120 lbs. per hour, w't boxed 35 lbs., without stand ..... each $33 35

No. H31—Domo—Capacity 200 lbs. per hour, w't boxed 50 lbs., without stand ..... each $52.75

No. H33—Domo—Capacity 350 lbs. per hour, supply tank on bracket like model H13, w't boxed 75 lbs., without stand ..... each $72.20

No. H34—Capacity 400 lbs. per hour, w't boxed 90 lbs., with supply tank on bracket, without stand ..... each $77.75

No. H35—Domo—Capacity 500 lbs. per hour, w't boxed 112 lbs., without stand, with tank bracket ..... each $97.20

No. H35S—Domo—Boxed with loose stand, w't 167 lbs. ..... each $106.10

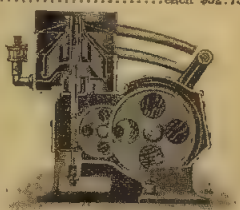


Figure 1—Oiling System

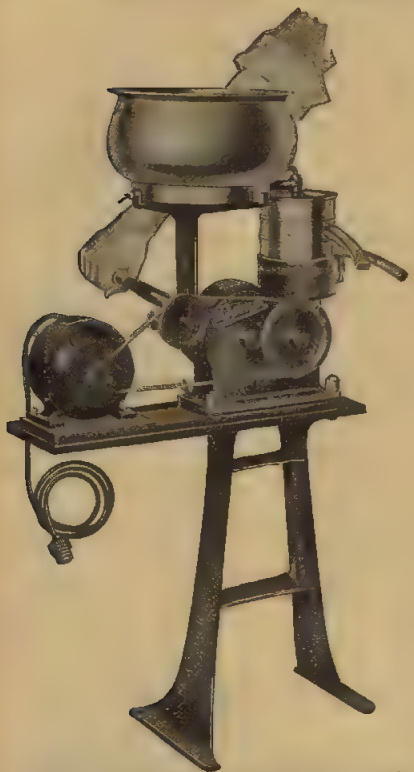
EXTRA STANDS

No. H1—For Nos. HBX, H31 and H33 Domos, w't each 45 lbs., loose extra ..... each $8.35
No. H2—For No. H34 Domo, w't each 50 lbs., loose extras ..... each 8.35
No. H3—For H35 Domo, w't 55 lbs., loose, extra ..... each 8.90
No. H5—For H1L Domo, w't 60 lbs., loose, extra ..... each 8.35

DOMO SEPARATORS



Domo Separator, 850 lb. capacity, equipped with intermediate plate, pulleys, belt, etc., to be operated with Motor. The Motor is ¾ horse power, 110 volts, 60 cycles, 1725 revolutions per minute, alternating current. Equipped with attachment plug for lamp socket.

This motor is absolutely guaranteed if operated according to directions accompanying the separator.

The crank for hand power is left on and remains stationary when operated by power motor but by slipping off the belt the separator can be operated by hand, for trial starts and cleaning. Hand cranking the separator as the current is turned on relieves the motor of starting the dead load.

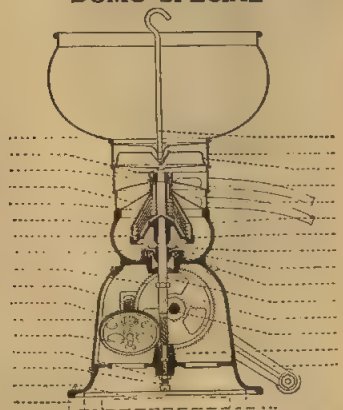
To compete with catalog houses, separator should retail for about $85.00 plus freight.

No. H33E—Complete with motor and driving gear, and stand, shipping w't 18 lbs. ..... each **$117.20**

No. H5—Extra Stand for No. H1L Separators, w't 50 lbs., each ...**$8.35**

No. H1L—Capacity 175 lbs., approximate 85 qts. hourly milk capacity, shipping w't 47 lbs., each **$38.30**

DOMO SPECIAL



Substantial, long wearing. Made in Domo factory to afford one cow keepers a low priced mechanical skimmer to supply strictly fresh cream and fresh skim milk for consumption at its best.

TRADE MARK REGISTERED DE IN THE U. S. PAT. OFFICE.

Carbon Finish Body, High Rased Bit, Trade Mark Rolled In, Gilt Lettering.

DIAMOND EDGE Axes are Recognized as Being the Best Made. They are **Hand Tempered** by an Improved Process. Every Axe **Carefully Tested** Before Leaving the Factory. This Practically Prevents Axes with Flaws or Soft Cutting Edges Reaching the User. It also Insures Uniformity of Temper, without which an Axe will not Hold a Fine Sharp Cutting Edge.

The **Eye is Tapered**; This Holds the Handle Firmly and Prevents its Splitting.

In Ordering Axes on this Page, Give Numbers and Weights Only.

★*DIAMOND EDGE*

DIAMOND EDGE Axes are Recognized as Being the Best Made. They are **Hand Tempered** by an Improved Process. Every Axe **Carefully Tested** Before Leaving the Factory. This Practically Prevents Axes with Flaws or Soft Cutting Edges Reaching the User. It also Insures Uniformity of Temper, without which an Axe will not Hold a Fine Sharp Cutting Edge.

The **Eye is Tapered**; This Holds the Handle Firmly and Prevents its Splitting.

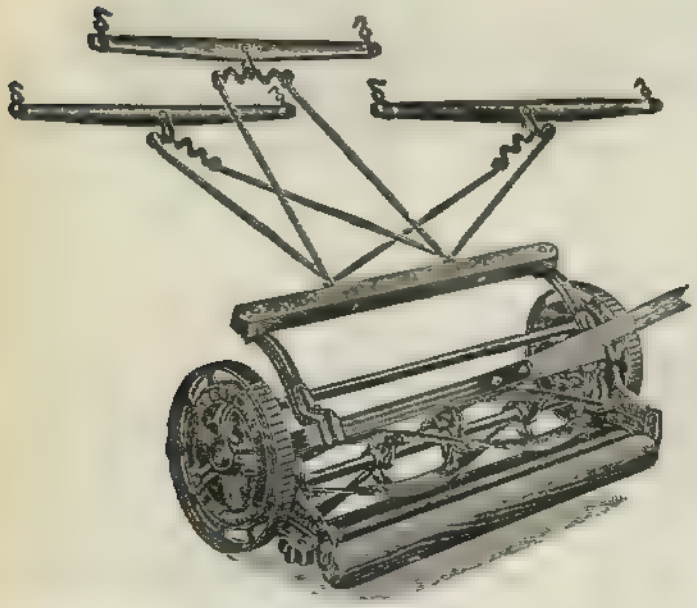
PONY LAWN MOWERS

CRESTLAWN

BALL BEARING

Five Blade



The Construction of this Machine is as Near Perfect as Can be Made; The Parts Making the Frame are all Lathe Turned and the Cast Bed Plate is Machined into the Side Plates, Forming an Automatic Interlocking Adjustment which Can not be Jarred or Twisted out of Alignment.

Pony Mowers are Often Used by Hand Power and the Crestlawn is Particularly Good for this Purpose, as it has Ball Bearing Drive Wheels; This Makes the Machine Easy-running and very little Harder to Operate than Many Hand Machines; Beautifully Finished.

The Reel is Made with Five Revolving Cutters and is Equipped with Timken Roller Bearings which are Automatically Adjusted thus Keeping the Revolving Cutters in Perfect Adjustment at all Times.

The Steel Bed Knife is Made with Raised Lip, which Adds Strength and Rigidity.

Drive Wheels 11 inches high; Diameter of Reel 7 inches; Reel Axle ¾ inch; Adjustable to Cut Grass to Lengths of ¼ to ½ inch; Cuts Grass Standing 7 inches High

Handle and Roller of Hardwood Maple, Thoroughly Seasoned and Finished.

Horse Attachment

Each Mower is Equipped with a Patented Horse Attachment; This Can be Adjusted Quickly and in Such a Manner that in Operation the Mower is Held to the Ground and the Disagreeable "Tipping up" of the Rear of the Mower is Impossible; The Draft of the Mower is Just the Same When Operated by Either Horse or Hand; With this Attachment the Horse Can Walk in the Middle, Front or to Either Side of the Mower and Yet Maintain a Central Draft at all Times.

Each

✣No. CP30—Width of Cut 30 inches; Extreme Width 37 inches; Weight Each, Boxed, 140 lbs $104.00

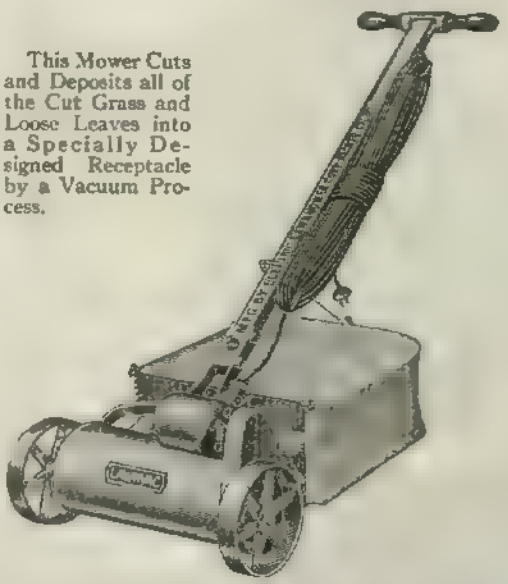
✣LAWNVAC

This Mower Cuts and Deposits all of the Cut Grass and Loose Leaves into a Specially Designed Receptacle by a Vacuum Process.



The Motor is ¼ H P., Wound for a Voltage up to 120 and for 50 or 60 Cycles.

Will Operate on Either Direct or Alternating Current; Equipped with Waste Packed Bearings and an Oil Reservoir.

Provided with a Detachable Plug for Disconnecting Motor From the Line, When Working on Reel.

Mower is Completely Housed Over to Create a Reduced Air Pressure at the Cutting Point; Aluminum Side Plates are Supported by Tie Rods and Bed Plate Holder; Cast Iron Wheels; Have Large Flange, 8 inches in Diameter.

Reel Has Two Cutting Blades, Divided in Half, Making Four Short Blades Equally Spaced for Balance; Revolving on Hyatt Roller Bearings, Running in Grease

Crucible Steel Blades Oil Tempered, are Large and Heavy, Insuring Long Life.

Reel is Adjustable, and Not the Bed Plate.

Bed Knife is of Highly Tempered Tool Steel and Has an Upturned Edge of ⅛ inch Giving Better Cutting Action.

The Belt is of Endless V-Type, Quickly and Easily Replaced

Hickory Handle has Trigger Switch Mounted Near Cross Handle, Within Easy Reach of Operator's Finger.

Regularly Equipped with 50 Feet of Double Rubber Covered, Non-Kink, Non-Stretch Wire Cable.

Catcher is of Special Design for This Mower and is Easily Removed and Replaced for Emptying Grass.

Height of Cut is From 0 to 3 inches and Adjustment is Made by Wheels.

Each

✣No. LV16—Width of Cut 16 inches; Net Weight Each, 42 lbs .. $240 00

✣No. LV21—Width of Cut 21 inches; Net Weight Each, 82 lbs. 240 00

GASOLINE POWER LAWN MOWERS

JACOBSEN JUNIOR

Designed Especially for Moderately Large Lawns; Cutting Capacity of Fully Two Acres per Day.

Equipped with 1 H. P. Full Power Briggs and Stratton, 4 Cycle Standard Design Motor; Has Built-in Fly Wheel, Magneto; Is Air Cooled with Forced Draft by Means of Fan Blades.

Throttle Controlled Giving a Travelling Speed of From 2 to 3 Miles per Hour.

Diamond Roller Chain and Sprockets are Used in Transmission Which is Completely Enclosed and Fully Protected from Dirt and Flying Grass; the Transmission Case Cover is Easily Removed so Enclosed Parts are Accessible.

Clutches are Standard Cone Type Design with Metal to Metal Contact Surface.

Cast Traction Wheels with Internal Drive Gears; Wheel Bearings are Graphite Bronze.

Cutting Unit is Made with Five Crucible Steel Blades, Accurately Ground; Reel is Mounted on Timken Roller Bearings Adjustable for Wear.

Rear Roller is of Hard Maple in Three Sections, Mounted on a Steel Shaft; Raising or Lowering This Roller Adjusts the Cutting Height from ½ to 1½ inches.

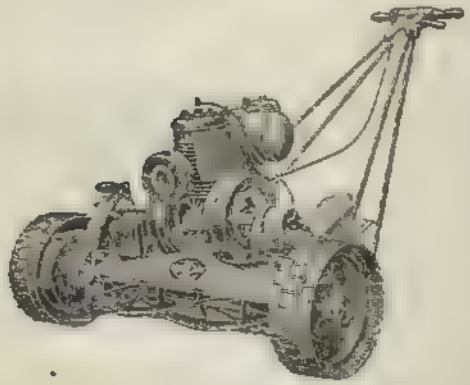
Cutting Reel as Well as the Traction Wheels are Power Driven with Separate Clutch Controls at the Steering Handle.

Each

+No. JJ19—Cutting Width, 19 inches; Net Weight Each, 150 lbs **$451 00**

One in a Crate

FOUR ACRE HEAVY DUTY



Special Built 1¼ H. P. Motor with 2½ in. Bore and 2½ in. Stroke; 1000 R. P. M. at 5½ Miles per Hour of Mower Travel; Consumes About 1 Gallon of Gasoline a Day; Fan Blades in Fly Wheels Force a Continuous Draft of Cool Air Over the Motor Providing an Effective Cooling System

Waterproof High Tension Magneto, Motor Fires on Every Stroke as Spark is Constant.

Carburetor is of the Float Type Keeping the Gasoline at a Constant Level; Hardened and Ground Gasoline Needle Valve Adjusts the Flow.

Cylinder and Piston are of Gray Iron, Accurately Ground.

Transmission Gears and Clutches are Enclosed in an Oil Tight Housing and Run in a Bath of Oil; Gears are Machine Cut.

Traction and Reel Clutches are Embodied in the Transmission Gears and Are of Standard Cone-Type; Design with Metal to Metal Contact Surfaces.

Traction Wheels and the Cutting Unit are Both Driven Direct from the Motor with Separate Clutches to Control the Power on Each Unit Independent of the Other; a Separate Control Lever at the Steering Handle Enables the Operator to Engage or Disengage the Reel Clutch so that it is Not Necessary to Revolve the Cutting Unit Except While Cutting.

Reel Has 4 Blades of Finest Steel.

Reel Bearings are Made of Phosphor Bronze, Are Extra Long to Give Long Life; They are Split so Wear Can be Taken up by Tightening of Set Screw.

The Rear Roller is of Three Hollow Cast Iron Sections and the Weight of the Mower on This Iron Roller is Sufficient for All Ordinary Rolling Purposes.

Each

+No. HD4A—Width of Cut 24 inches; Net Weight Each, 200 lbs., **$627 00**

For Comfort Day and Night—Karpen Bed Davenports

All coverings used on Karpen furniture are guaranteed against damage by moths for a period of three years from date of shipment from the factory.

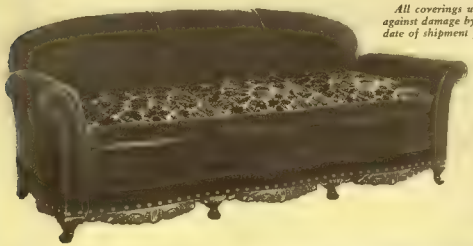

Table for Grades of Coverings

Grade 100 consists of a fair quality of tapestry, damask, Jacquard velour and mohair

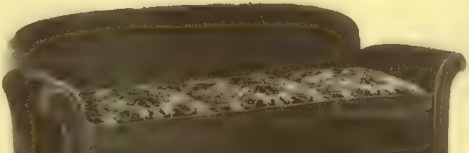
Grade 115 consists of a finer quality of tapestry, damask plain rayon velour and mohair

Grade 125 consists of a fine quality of tapestry damask, antique velvets, rayon velour and mohair

Note When ordering, be sure to specify exact grade and describe it, i e Grade 115 Tapestry, etc if desired

Who could guess that the fashionable Karpen sofa above contains a full size, comfortable bed? Karpen has indeed here shown an ingenuity of designing which brings the heretofore cumbersome davenport bed into good fashion and popularity And the seats are now no higher from the floor than they are in the newest stationary sofas! To open just remove the Karpenesque spring cushions, reach over and pull the strap and the bed opens as easily a child can operate it. Mattress falls into place making a comfortable, restful bed Same famous Karpen construction carved birch legs and base Outside backs covered in denim. Serpentine front. Finished with antique nails Size length, 89 in.; depth, 34 in., height 35 in Shipping weight, 300 lbs

No.	Covering (See Table)	Each
15F99.	Grade 100	$214.70
15F100.	Grade 115	237.30
15F101.	Grade 125	246.70



Note—Prices include mattresses. Karpen furniture is famous from coast to coast for the loveliness of its designs and goodness of quality.

Your living room davenport bed suite so gracefully and cleverly designed that you can scarcely tell that it has a bed concealed in its frame Looks like the stationary davenport. Opens to a full size 54x72 inch bed as comfortable a bed as you've ever slept on. Karpenesque spring seats and backs. Birch frame with carved button moulding Platform covered with velour. Outside backs in denim Spring edge seat Size, 88 in long; 34 in deep, 35 in. high. Shipping weight, 280 lbs.

No.	Covering (See Table)	Each
15F102.	Grade 100	$201.30
15F103.	Grade 115	222.70

Your choice of either Sofa

This luxurious pillow-arm sofa is typical of the loveliness and quality of Karpen upholstered furniture. It has that faultless style which remains forever in good taste. And it is so comfortably designed! From every graceful curve oozes a delightful invitation to relax within the luxurious downy cushions. Even the masterfully fluted arms with their delicate loose-filled pillows suggest comfort that is exquisitely alluring. The carved legs are of birch and finished in antique mahogany. Perfectly proportioned. Perfectly fashioned. Tufted serpentine front. Karpenesque spring backs and reversible cushions, as soft as eider down as strong as steel. Hair and cotton filled. Webbed construction. Spring edge seat. Length 88 inches, depth, 37 inches; height 38 inches. Shipping weight 262 lbs.

Sofa No.	Covering (See Table)	Each
15F31.	Grade 100	$255.30
15F32.	Grade 115	292.00
15F33.	Grade 125	305.30

Your choice of either Sofa

This wing chair suite is the third piece of the Karpen suite below. Wing chair is fashioned in accordance with Karpen's strict standard of quality and specifications. Has generous roomy luxurious proportions; gracefully flared arms, birch frame finished in antique mahogany, carved legs, serpentine tufted front and Karpenesque spring seats and back. Width, 43 inches, depth, 39 inches, height 39 inches. Shipping weight, 140 lbs.

No.	Covering (See Table)	Each
15F40.	Grade 100	$121.30
15F41.	Grade 115	136.00
15F42.	Grade 125	141.30

It is a well known fact that in just one piece of Karpen furniture you get more quality features than you can get from any other upholstered piece at the same price. Dollar for dollar you can't beat Karpen's irreproachable beauty, faultless styling and high quality. Any Karpen piece is a splendid investment in comfort, style and beauty. The three piece suite by Karpen illustrated here is a marvelous example of the quality Karpen adds to ordinary prices. It has the roomy, downy comfort of finest hotel pieces, the graceful, artistic designing of serpentine fronts, its carved birch legs finished in antique mahogany. Remove the reversible cushions, feel the spring edge of the seats, press down on it and watch it spring back. No matter who sits on a Karpen suite, nor for how long, the edges always spring back into shape, assuring you of a piece whose beauty and freshness will last for many years. With the cushions still off note that the top platform is covered with plain velour; this is typical of all Karpen furniture. Press down on the top of the platform feel those resilient, buoyant springs of double deck webbing. Prender wire; feel. If you can how securely they are tied. Note the tufted front. Observe the cushions and rest on the Karpenesque spring seats and backs as strong as steel, as soft as eider down. There's comfort for you! There's real luxury. Size of davenport, 88 in. long, 36 in. deep, 38 in. high. Shipping weight 262 lbs.

Strap Watches—Accepted as Modern Time Pieces

EVERY MAN needs a Strap Watch. The moderate prices of Locust Strap Watches enables every man to wear one. Whether the man needs a "second" watch, to wear at times when he feels that his more expensive watch would be safer at home, or a "first line" watch for general use, he will find satisfaction in a Locust.

Sturdily built, carefully constructed, and thoroughly tested, these watches—in 6 or 15 Jewel—have Cut Compensating Balances, handsomely designed mannish cases, and a built-in reputation for time-keeping accuracy.

Locust Strap Watches also make ideal gifts for the boy of high school age—or younger.

Men's Wrist Watches
Strap or Metal Bands

FOR THE MAN who wants something more than "just a watch," these Locust Strap Watches, 6 or 15 Jewel, with Cut Compensating Balances, and luminous dials, some fitted with mesh bands to harmonize with the cases, will give lasting time-keeping service and thorough satisfaction.

At the same time he will have a watch that is a good looking piece of masculine jewelry—sturdy, accurate, and dependable.

The mesh band, with patented folding buckle, also the solid metallo-flex bands, are the newest and most practical attachments for men's strap watches. They make it easy to put on and take off the watch, are comfortable, clean, and add the touch of dignified distinction that men want

Each packed in presentation case of novel design.

Diamond Set Watches Which Beautify the Wrist

COMBINED with the beauty of case design, the sturdiness and dependability of movement, is the care exercised in the selection of acceptable stones for Locust Diamond Set Watches

The same rigid care is given to the diamonds, sapphires, and emeralds, as is devoted to the construction of Locust movements. The brilliancy of the stones is set off against the pure background of solid white gold cases. Each stone is securely set to give the greatest brilliancy and jeweled effect.

The movements are accurate—expert craftsmanship make them so. The cases are beautifully designed and delicately engraved—skilled artisans lend their efforts. Locust Diamond Set Watches are not only things of beauty—they are accurate timepieces as well.

Each watch is packed in a presentation box of novel design with exact price tag.

Illustrations are ⅞ actual size.

LOCUST

Created For Adornment—Also Usefulness

JEWELRY fashion has decreed that ladies' wrist watches should advance from the ribbon band type of attachment. Locust Watches, always ready to lead in watch style, presents a group of these new advances—the Flex-O-Lette and the Band-O-Lette.

The Flex-O-Lette presents a beautiful unity of design. It is a complete bracelet and watch in one. The permanently attached, flexible, filigree bracelet has removable links, and a practical safety catch.

The Band-O-Lette is a Locust origination—a beautifully engraved case, with an accurate, dependable 15 jewel movement. In place of the usual ribbon, these watches have a finely woven white narrow mesh band with a patented clasp that permits the watch to slip over the hand when it is being taken off, yet holds it securely in place when in use.

These Locust Watches are ideal for gifts whatever the occasion.

Illustrations are ⅞ actual size.

1—C6715—911	Reversible Ratchet Handle.	1—Each	$\frac{11}{16}$ in. hex., $\frac{3}{4}$ in. hex., $\frac{13}{16}$ in. hex., $\frac{7}{8}$ in. hex. Sockets.
1—C6720—910	10 in. Extension Bar.	1—P900	Tote Box.
1—C6719—905	5 in. Extension Bar.		

No. P900A—Box and Unit A, complete.....each $24.35

P900-B UNIT

Next to be added. Greatly enlarges scope of work by adding several necessary sockets, important handles and accessories.

CONTENTS

1—C6712—902	Sliding Tee Handle.	1—Each	$\frac{7}{16}$ in. hex., $\frac{13}{16}$ in. hex., $\frac{3}{8}$ in. sq., $\frac{1}{2}$ in. sq. Sockets.
1—P906 —906	6 in. Tee Handle.		
1—C6718—904	Universal Joint.	1—Each	$\frac{25}{32}$ in. hex. Socket.
1—C6716—903	Hammer Head Offset Handle.		

No. P900B—Unit for P900 Tote Box.....each $11.65

P900-C UNIT

Last to add. Completes the Kit. Every repair equipment of every automobile can quickly be serviced.

CONTENTS

1—C6714—908	Long Speed Brace.	1—Each	$\frac{3}{8}$ in. sq., $\frac{1}{2}$ in. sq., $\frac{5}{8}$ in. sq. Sockets.
1—P402 —402	$\frac{25}{32}$ in. Spark Plug Socket.	1—Each	$\frac{13}{16}$ in. hex., $\frac{7}{8}$ in. hex., 1 in. hex. Sockets.
1—P422 —422	$1\frac{1}{16}$ in. Spark Plug Socket.		

No. P900C—Unit for P900 Tote Box.....each $8.10

No. P901—Tote Box, complete with Nos. P900A, P900B, P900C, w't 45 lbs., each $44.10

THE MOSSBERG CHROME-ALLOY INTERCHANGEABLE UNIT LINE

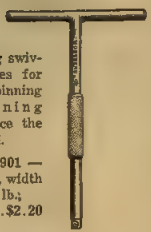
Cadmium Plated Under Nickel—Rust Proof

(Not Interchangeable with Mossberg Small Series Wrenches)

With these handles, sockets and accessories, Service Wrenches in infinite variety and combination may be quickly had, in the minimum number of units and investment.

Designed for discriminating master mechanics who demand the finest of tool equipment. These tools in combination will efficiently service every repair requirement of every automobile. They are unqualifiedly guaranteed.

"TEE" HANDLE



The revolving swivel handle makes for speed in "spinning off" or "running down" nuts once the nut is loosened.

No. C6711 — 901 — Length 12 in., width 7⅛ in., w't 1 lb.; each $2.20

SLIDING TEE HANDLE

Sliding "Tee" is not only an interchangeable "Tee" Handle but can be used as an offset wrench.

No. C6712—902—Length 10 in., w't ¾ lb. .....each $2.00

SHORT SPEED BRACE

An ideal wrench for the busy mechanic who must turn out the best work in the shortest possible time.

No. C6713—907—Length 14 in., w't 1¼ lbs. .....each $2.00

LONG SPEED BRACE

A popular Speeder among mechanics in taking down and assembling cars. Also a needed item for the car owner's wants.

No. C6714—908—Length 19 in., w't 2 lbs. .....each $2.20

ALL ABOVE, LOOSE

REVERSIBLE RATCHET HANDLE

The reversible ratchet handle that is responsible for the general adoption of interchangeable sockets.

No. C6715—911—Length 10 in., w't 3 lbs. .....each $3.90

HAMMERHEAD OFFSET HANDLE

Perfectly balanced.

Best used for tapping in cotters.

An assortment of sockets and this handle will give you all the desired openings in offset wrenches.

No. C6716—903—Length 9¼ in., w't 2 lbs. .....each $1.75

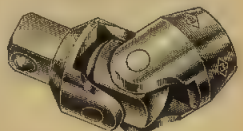
FRICTIONLESS REVERSIBLE RATCHET UNIT

This Ratchet is positive in action, can be reversed or locked in stationary position.

No. C6717—909—Length 2⅝ in., w't ¾ lb. .....each $3.35

ALL ABOVE, LOOSE

UNIVERSAL JOINT



Enables adjustments to be made in the most inaccessible places and actually allows "turning around a corner."

Fits handles, sockets and bars.

No. C6718—904—W't ½ lb., each $2.90

EXTENSION BARS

5 Inch

One of the most used of the C. A. Line. Knurled grip—revolves on steel balls, no friction.

No. C6719—905—W't ¾ lbs., each $1.20

10 Inch

Improved type with revolving knurled grip.

No. C6720—910—W't 1 lb., each $1.65

THE DRAG LINK SOCKET

With the popularity of the drag link on new cars, the drag link socket meets a demand for a tool which will very efficiently take care of all adjustments.

No. C6721—374—W't ¾ lb., each $0.90

ALL ABOVE, LOOSE

MOSSBERG CHROME-ALLOY INTERCHANGEABLE UNIT LINE

Cadmium Plated Under Nickel—Rust Proof

(Not Interchangeable with Small Series Mossberg Wrenches.)

SOCKET SET

Made of Chrome Molybdenum steel which effectively guarantees sockets against "rounding" or "splitting" even though nuts are not fitted correctly.

Sockets made of this steel withstand abuse and are trouble proof for use of both car owner and mechanic as well as affording absolute safety in all industrial requirements.

Chrome Molybdenum steel sockets are ultimate choice for constant, every hour use for repairs, assembly and hardest work.

Designed for service work on all cars.

Interchangeable socket features complete with standard Mossberg ratchet handle makes this set ideal for garage repair work.

CONTAINS:

350 Ratchet Handle.
323 Offset Handle.
332 Tee Handle.
366 Speed Brace.
368 Universal Joint.
333 Tee Handle.
367 Speed Brace.
369 Ratchet Unit.
370 Sliding Tee.
371 Connecting Block.
372 Extension Bar.
373 Extension Bar.

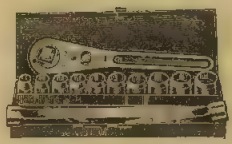
3 Spark Plug Sockets, Hexagon—$\frac{13}{16}$, $\frac{7}{8}$ and $1\frac{1}{16}$ in.

18 Chrome Molybdenum Steel Sockets —$\frac{7}{16}$, $\frac{1}{2}$, $\frac{9}{16}$, $\frac{5}{8}$, $\frac{11}{16}$, $\frac{3}{4}$, $\frac{25}{32}$, $\frac{13}{16}$, $\frac{7}{8}$, $\frac{15}{16}$, $\frac{31}{32}$, and 1 in. Square—$\frac{3}{8}$, $\frac{7}{16}$, $\frac{1}{2}$, $\frac{7}{16}$, and $\frac{3}{8}$ in.

Brown enamel steel Kit with handle for carrying. Size of Kit—$4\frac{1}{4}$×$11\frac{3}{8}$×$20\frac{3}{8}$ in.

No. C6517—82—Shipping w't 24 lbs., per set $30.65

SOCKET SET



Recommended for car owner. It contains only those sizes of sockets that are more useful together with the more popular units.

CONTAINS:

1—C6715—911 Reversible Ratchet Handle.

1—C6720—910 Extension Bar, 10 in.

1—C6719—905 Extension Bar, 5 in.

10 Chrome Molybdenum Steel Sockets, Hexagon—$\frac{7}{16}$, $\frac{1}{2}$, $\frac{9}{16}$, $\frac{11}{16}$, $\frac{3}{4}$, $\frac{13}{16}$, $\frac{7}{8}$, $\frac{15}{16}$, and $\frac{1}{2}$ in.

Brown enamel steel box.

Size of box—$12\frac{1}{2}$×$3\frac{3}{4}$×$10\frac{3}{8}$ in.

No. C6518—80—Shipping w't 6 lbs., per set $15.55

SOCKET SET

Contains just necessary sizes of sockets for every day garage and service station repair work.

CONTAINS:

366 Short Speed Brace.
371 Connecting Block.
373 Extension Bar, 10 in.
372 Extension Bar, 5 in.
368 Universal Joint.
370 Sliding Tee.
350 Ratchet Handle.

10 Chrome Molybdenum Steel Sockets, Hexagon—$\frac{7}{16}$, $\frac{1}{2}$, $\frac{9}{16}$, $\frac{11}{16}$, $\frac{3}{4}$, $\frac{13}{16}$, $\frac{7}{8}$, $\frac{15}{16}$, and $\frac{1}{2}$ in.

3 Spark Plug Sockets, Hexagon—$\frac{13}{16}$, $\frac{7}{8}$, and $1\frac{1}{16}$ in.

Brown enamel steel kit, with handle for carrying. Size of kit, $4\frac{1}{4}$×11× $14\frac{3}{8}$ in.

No. C6519—81—Shipping w't 14 lbs., per set $20.00

EXTRA THIN WALL SOCKETS

Long taper, extremely thin Wall Sockets of the toughest, finest steel available. Each held to the exacting standards of manufacture that characterize the finest of precision tools, accurately made, accurately fitted, wide in range of sizes. Thin, slender, strong, beyond comparison. A new standard of Socket design, reaching the ideal of all master mechanics. These amazingly thin walled sockets will twist the head of the finest steel cap screw without damage to the socket, w't each 8 oz.

Special steel, semi-finished.
No. C6508—4SF—Per set..... $4.65

ONE SET IN A BOX

MOSSBERG SMALL SERIES WRENCHES

Not Interchangeable with Mossberg Heavy Duty Wrenches

SMALL SERIES SOCKETS

Sockets are marked to exact opening of sockets. The marking of each socket represents the short diameter of nuts, bolt heads and screw heads plus the clearance.

Construction: Drawn by pressure from cold rolled steel, thereby retaining the necessary long grain in structure.

Finish: Mottled and lacquered.

Specify size and whether Hex. or Square Sockets are desired.

HAY CARRIERS

Materials Required and Direcctions for Putting up Carriers

MYERS

DIRECTIONS FOR ERECTING MYERS PATENT STEEL TRACK

Scaffold by placing rope from rafter to rafter, say 6 feet from ridge pole or peak and about 10 feet apart. Then place extension ladder across the ropes with board to stand on. Now nail one rafter bracket at each end of barn and draw a line from one end to the other and stretch tight. Then nail all rafter brackets even with this line. You are now ready to put up the track, which can be done in sections. Hoist near to rafter brackets by ropes. Then place hanging hook over rafter bracket and finish by putting in bolt.

Material Required for a Steel Track Outfit for Different Length Barns

For a 40 foot Barn—One hay unloader. 36 feet Steel Track. 19 Hanging Hooks. 19 rafter brackets. 5 Knot Passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 110 feet ¾ inch Manila Rope. 50 feet ⅜ inch Check Rope. 40 feet ⅜ inch Reverse Rope.

For a 50 foot Barn—One hay unloader. 48 feet Steel Track. 25 Hanging Hooks. 25 Rafter Brackets. 5 Knot passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 130 feet ¾ inch Manila Rope. 55 feet ⅜ inch Check Rope. 50 feet ⅜ inch Reverse Rope

For a 60 Foot Barn—One hay unloader. 54 feet Steel Track; 28 Hanging Hooks. 28 Rafter Brackets. 5 Knot passing Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 160 Feet ¾ inch Manila Rope. 60 feet ⅜ inch Check Rope. 60 feet ⅜ inch Reverse Rope.

For a 70 foot Barn—Hay Unloader. 66 feet of Track. 34 Hanging Hooks. 3½ lbs. Bracket Nails. 5 Fig. 1120 Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 190 feet ¾ inch Draft Rope. 70 feet ⅜ inch Check Rope. 70 feet ⅜ inch Reverse Rope

For an 80 foot Barn—Hay Unloader. 78 feet of Steel Track. 40 Hanging Hooks. 40 Rafter Brackets. 4 lbs. Bracket Nails. 5 Fig. 1120 Pulleys. 1 Fork or 3 Slings. 6 Floor Hooks. 210 feet ¾ inch Draft Rope. 80 feet ⅜ inch Check Rope. 80 feet ⅜ inch Reverse Rope.

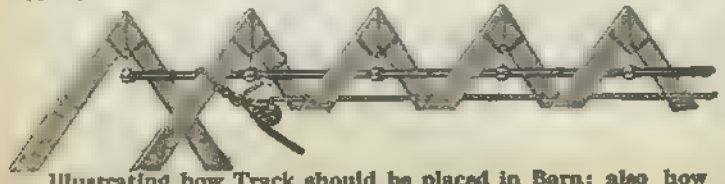
Different Lengths of Barns will use track, hanging hooks and rope in same ratio as above.

If required to take hay in at end of Barn and have rope pass down at far end to horse, same amount of draft rope. If draft rope be returned to same end of barn and then down, this requires about one-fourth more draft rope

Place pulley to draw the carrier back into the mow directly under and in line with track, and not as seen in cut. Do not allow steel track hanging hooks to project below casting under track through which they are screwed, as they will interfere with carrier.

This cut, Fig. 430, shows how steel track should be put up and how rope is tied from one rafter to the other close under the track to make stop for carrier at end of barn. Also shows how Rafter Brackets are placed

How to Reverse Carrier—Set Fork in hay. Tie ends of rope together, to which horse and weight are attached. Pull on small rope until knot comes to the floor, then untie ropes. Fasten weight G on small rope, change Pulley A to floor hook H. This reverses carrier for opposite direction without leaving the floor or climbing up. Use all knot passing pulleys. For taking in hay at end of barn use V shaped brace for track support, as shown in cut.



Illustrating how Track should be placed in Barn; also how Rope and Pulley should be placed.

NEY MFG. CO.

MATERIAL FOR STEEL TRACK

For Carriers

When Taking in Hay at End of Barn

1 Fork Carrier.
Track the Required length for Barn.
1 Track Eye or 1 Hanger Hook and 1 Rafter Bracket for each Rafter.
3 Knot Passing Pulleys.
3 Floor Hooks.
1 Swivel Rope Hitch.
1 Harpoon or Grapple Fork.
Draft Rope ¾, ⅞ or ⅜ inch; when team is at same end of barn as hay is taken in—length equal to twice the length of track, plus three times the distance from floor to track
When team is at opposite end of barn to where hay is taken in—length equal to once the length of track, plus three times the distance from floor to track.
When team is at center (side) of barn—length equal to 1½ times the length of track plus three times the distance from floor to track, plus half the width of barn.
Trip Rope ⅜ inch—length equal to distance from point of elevation to opposite end of track.
For barn having center (side) drive same as above, except 5 pulleys and floor hooks.

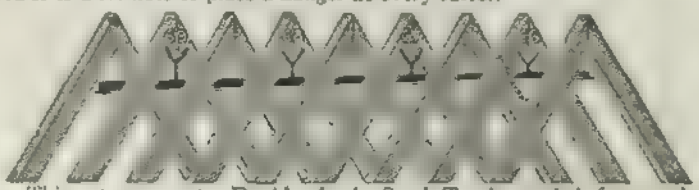
SLING CARRIERS

Substitute Sling Pulley for Fork Pulley in carrier and three slings and add 15 feet to length of Draft Rope.

DIRECTIONS FOR PUTTING UP DOUBLE ANGLE STEEL TRACK

Put up the track in sections or by clamping the entire length together. The track may be graded by the use of assorted track eyes or put up with all one size as desired. See that the rafter brackets are properly nailed and that the track eyes are as near the center between rivets in the track as possible; this increases the strength of the track. Bolt trip block on track over point at which you wish to elevate. See that the bolts on trip block are drawn up tightly

The above cut represents Double Angle Steel Track arranged for taking hay from outside or end of barn, and shows how track is graded when using track eyes of assorted lengths. Where slings are to be used it is advisable to place a hanger at every rafter.



This cut represents Double Angle Steel Track graded from ends to center of barn when track eyes of assorted lengths are used. It greatly assists the return of carrier after discharging its load. Also checks speed of carrier after leaving bumper or trip block.

MATERIAL FOR WOOD TRACK CARRIERS

Same as for Steel Track Carriers, except that a wood track carrier, wood track and wood track hanger eyes are used.

DIRECTIONS FOR MAKING WOOD TRACKS

Use 4x4 hardwood or pine scantlings dressed down to 3¾ inches; or use two 2x4 pieces and spike them together, breaking joints.

4x3 inch can be used by blocking down the stop to fit the carrier and to engage the lock.

DIRECTIONS FOR PUTTING UP WOOD TRACK

Use a track hook to every rafter over the point of elevation and preferably through out the entire length of track, but a hook at every second rafter will answer except at point of elevation. Let all nuts into the track so they will not interfere with the carrier. Make sure the track is at the proper depth where the trip block or bumper is placed. It may be necessary to block it down or set it into the wood.

DIRECTIONS FOR REVERSING CARRIERS

Pull carrier to stop block, let the pulley drop out of carrier. Take rope out of pulley at end of barn and while standing beneath the carrier give the rope a little slack and give it a throw to obtain a half turn in the swivel. Re-thread the pulleys in the end of the barn you wish to operate in, then the carrier is ready for operation.

Before pulling large rope out of pulleys tie a small rope to end of it so that the small rope will be through pulleys for pulling up the large rope the next reverse.

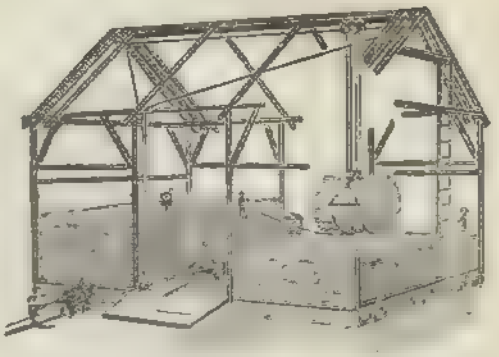
HAY CARRIERS

Directions for Putting Up Wire Cable and Derricks for Stacking

Take Four Poles or 4x4 Scantling About 30 Feet Long; Cut a Slot in the Top of Each About ¾ inch Wide and 4 Inches Deep for Cable. Bore a Hole for a ½ inch Bolt About 1 inch Above the Bottom of the Slot, to Prevent Cable from Coming Out While Raising. Place Carrier Bumper Complete on Cable About at Center. Place Cable in Slots, Under Bolts, Then Secure a Single Clamp About 40 feet from Each End of Cable to Prevent the Poles from Sliding in. Bolt Cross Pieces Together with ¾x10 inch Bolts. Place Carrier on Cable Between Cable Clamps. Make Loops at Each End of Cable, Using Double Clamps for the Purpose. Thread Carrier and Pulley with Rope and Fasten Pulley Near One of the Single Clamps. Fasten Loops on Ends of Cable to Strong Stakes for Guys and Erect Derrick by Raising One Set of Poles Just High Enough So They Will Stand Without Slipping at Bottom; Then Raise the Other Set About the Same, Continuing Alternately with Each Set Until Cable is Stretched Tightly. Now Fasten Bumper to Cable at Opposite End From Pulley Over Point at Which You Wish to Elevate. Place Second Pulley to Stake in Ground Nearly Under First Pulley Placed and it is Ready for Operating.

Material for Wire Cable Carrier and Derrick for Stacking

1 Cable Carrier.
1 Harpoon or Grapple Fork.
2 Single Cable Clamps.
2 Double Cable Clamps.
2 ¾x10 inch Carriage Bolts.
130 feet ¾, ⅞ or 1 inch Rope.
2 Pulleys.
4 Poles 4x4 inch, 30 feet Long.



This Cut Shows Carrier in Use Unloading Wheat or Corn Fodder in Barn with Sling Carriers. Fork Carriers Cannot be Used for This Purpose

Lumber Required to Build a Hay Rack

Have All 2 inch Stuff Dressed on Both Sides, and inch Stuff on One Side. Two Pieces 2x8, 16 feet for Bed Sills. Have Bed Sills 6 inches Narrower in Front than in Rear. Two Pieces, 2x4, 14 feet, Cut in Two for Top Cross Pieces. Six Pieces, 2x4, 16 feet. One for Front Ladder. One for the Four Bottom Cross Sticks Under the Bed Sills, and Four for the Top Longitudinal Pieces. Two Pieces, 2x6, 12 feet, to Cut into 6 feet Lengths for Sides of Wheel Boxes. Spike from Underneath the 2x4 Longitudinal Pieces. Two Pieces, 1x6, 16 feet (Fencing) to Cup Up to Cover Wheel Boxes. Two Pieces, 1x12, 10 feet to go in Front of Heel Boxes to Front End. The Above Are for 14 inch Clamps; 16 inch Take Larger Cross Pieces or Bed Sills.

Saddlery

The chief essentials of Saddlery and Harness which will sell readily and give entire satisfaction are High Quality Leather and High Class Workmanship.

Norleigh Diamond Saddlery and Harness is made of the best grades of material by expert workmen and fully deserves the excellent reputation it enjoys in the trade. Perhaps the most noteworthy group in this Department is the Collar Line. Mike Kinney Horse Collars have won National recognition by the unchallenged superiority of design, quality and long service which distinguishes them. Norleigh Diamond Horse Collars occupy a similar position in the estimation of well informed dealers.

Much care and attention has been devoted to the line of strap work — no useful detail has been overlooked — the selection of Harness Sundries covers all normal requirements.

While there are doubtless longer lines of Saddlery and Harness in the market, none better or more acceptable is to be had from any source, and Shapleigh's prices insure to the dealer satisfactory profits throughout.

ALL ABOVE ONE SET IN A BOX

NEW BRITIAN.

ASSORTMENTS.

The reason for this No. 50 Display Stock is as the name implies —so that they may be readily displayed and to allow the buyer to choose his own assortment. The prices are plainly shown inside the cover and allow a good margin over cost.

The stock is small—purposely—so that the dealer does not have to make a large investment. When the box is empty it can be sold as a good substantial tool box, or filled with a set of tools and make a good profitable sale of the outfit.

All contents genuine New Britain socket set parts and are identical in quality and workmanship with our regular complete sets.

Assortment Contains:

96 Assorted Sockets
6 "L" Handles
6 Ratchets
6 Adapters
6 Holder Boxes
Packed in a tool box with tray.

Per Assortment

No. A-50—Socket Wrench Parts Assortments; as listed above, packed in tool box; 14 inches long, 6 inches wide, 6½ inches deep; weight of assortment, 27 lbs. $14.90

Did you ever quit hunting because you didn't get a bird with every shell? No. You got better shells, took better aim and got better results, didn't you?

Now think about advertising. Did you ever quit advertising because it didn't produce results? If so, was your bird within range? Was your aim accurate? Did you use the right gun and ammunition?

A carelessly prepared advertisement is no ad at all. It's a waste of money. Advertising is like shooting. The more you do, the better you get. Good advertising easily pays for itself and nets you a nice profit.

A "merchandiser" in every sense of the word. All steel, substantial, convenient, attractive, carrying a selection of interchangeable handles, sockets and parts. An ideal cabinet for dealers selling mechanics and car owners. All parts and sockets are interchangeable with each other, enabling mechanics to make innumerable combinations to take care of unusual demands.

Hex sockets are chrome nickel steel insuring strength and wear. Braces have solid steel grips with ½-inch square end forged with shoulder to support socket. The tee handle wrenches have a sliding bar or handle so that they may be used as Tee or L wrenches. The reversible back spin ratchet can be used in combination with tee handles (long or short shank) offset handles or brace speed wrenches.

The assortment has been selected in proportion to the demand, with ample space for additional sockets or wrenches as the individual needs may require.

Contents.

3 No. A-1119—Long Shank Speed Wrenches, 20 inches over all, 9¼-inch shank, with solid steel grips.
3 No. A-1115—Short Shank Speed Wrenches, 14¾ inches over all, 4¼-inch shank, with two solid steel grips.
3 No. A-1127—Long Shank Tee Handles, 12-inch shank, with 12-inch sliding cross bar.
3 No. A-1106—Short Shank Tee Handles, 6-inch shank, with 8-inch sliding cross bar.
3 No. A-1113—Back Spin Reversible Ratchets, 2¾ inches over all, 1-inch diameter.

Each

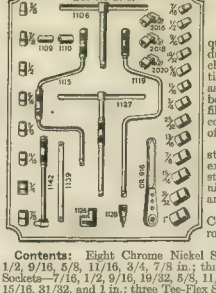
No. A-28-R—Socket Wrench Sets; complete in steel tool box..... $20.00

Similar to Set No. 27-R except that it does not contain the square socket series. Particularly adapted to garage use, as it will service all makes of cars in the sizes that are most needed. Many mechanics prefer this set on account of its wide range of socket sizes and handy assortment of special parts. Extra space in the steel tool box 20½x6¼ x5 inches deep, makes it a genuine mechanic's tool kit.

Contents: Thirteen Chrome Nickel Hex. Sockets—7/16, 1/2, 9/16, 19/32, 5/8, 11/16, 3/4, 25/32, 13/16, 7/8, 15/16, 31/32 and 1 in.; No. A-OR916—Ratchet Wrench, 10½ inches; No. A-1142—Offset Handle, 10½ inches; No. A-1106—Short Shank Tee Handle, 6 inches; No. A-1127—Tee Handle with rotating knurled grip, 12 inches; No. A-1115—Short Shank Speed Brace, 14¼ inches; No. A-1119—Long Shank Speed Brace, 20 inches; No. A-1109—Plug Connector; No. A-1110—Socket Connector; No. A-1139—Extension Bar, 9 inches; No. A-1126—Stud Wrench; No. A-1129—Screw Driver Bit, 5/16-inch blade; No. A-1102—Universal Joint.

Each

No. A-26R—Socket Wrench Sets; complete as listed above, in steel tool box..... $26.50



Designed to meet the requirements of the average industrial plant, factory, machine shop or auto service station. The large and varied assortment of sockets, for both hex. and square nuts, fills every socket need encountered in the general run of work.

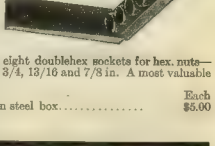
Sockets of chrome nickel steel. Handles and parts of exceptionally strong construction. All parts heavily nickel-plated for appearance and protection.

The large-capacity "Dog Coop" steel tool box allows room for extra tools.

Contents: Eight Chrome Nickel Square Sockets—3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4, 7/8 in.; thirteen Chrome Nickel Hex. Sockets—7/16, 1/2, 9/16, 19/32, 5/8, 11/16, 3/4, 25/32, 13/16, 7/8, 15/16, 31/32, and 1 in.; three Tee-Flex Sockets—1/2, 9/16, 5/8 in.; No. A-1106—Short Shank Tee Handle, 6 inches; No. A-1127—Tee Handle with rotating knurled grip, 12 inches; No. A-1119—Long Shank Speed Brace, 20 inches; No. A-1115—Short Shank Speed Brace, 14¼ inches; No. A-1142—Offset Handle, 10½ inches; No. A-OR916—Ratchet Wrench, 10½ inches; No. A-1109—Plug Connector; No. A-1110—Socket Connector; No. A-1139—Extension Bar, 9 inches; No. A-1126—Stud Wrench; No. A-1128—Screw Driver Bit, 5/16-inch blade; Regular "Dog Coop" tool box BX-30 (21½x9x11 inches deep).

Each

No. A-27-R—Socket Wrench Sets; complete in steel tool box..... $37.50



Doublehex sockets are broached to fit hex. nuts in twice-as-many positions. To the mechanic working in close corners the advantage is obvious. It is only necessary to swing the handle through one-twelfth turn before the nut fits in the next notch of the socket.

The 808 Set consists of eight doublehex sockets for hex. nuts—7/16, 1/2, 9/16, 5/8, 11/16, 3/4, 13/16 and 7/8 in. A most valuable addition to any wrench kit.

Each

No. A-808—Socket Sets; in steel box..... $5.00

If you want the most value and longest life, insist on

ARMCO ingot iron

If not, anything else will do.

WALDEN INTERCHANGEABLE.

No. A-1113 — Ratchet Connectors; length over all, 2¾ ins.; weight, 6 ozs. $1.75

INTERCHANGEABLE STEEL SOCKETS.

Machine made from the solid bar. Broaching depth is the thickness of the nut to be fitted, and broached 1/64 inch over the size of the nut. Sockets are counter drilled, making extreme bolt size depth of socket ½ inch more than the thickness of the nut. The broached end is countersunk slightly to relieve the square edges and to allow more rapid placing of socket on bolt head.

Made of chrome steel.

Each

No. A-1123—Cross Bar Handles; length over all, 20 inches; stock, ⅞ inch; weight, 3½ lbs. $1.00

TEE HANDLE SHANKS.

Each

No. A-1112—Tee Handle Shanks; length over all, 13¼ inches; stock, 1 inch; weight, 3¾ lbs. $3.00

OFFSET ADAPTERS.

Each

No. A-1103—Offset Adapters; made from substantial stock; weight, 13 ozs. $3.00

DRAIN PLUG SERVICE SETS.

WALDEN.

The hexagon and square sockets and plugs in this set were especially selected for draining and re-filling crank cases, transmissions and differential housings. This particular assortment will take care of better than 90% of the passenger cars and trucks being built.

The sliding bar handle can be used as a tee or offset as the case may require. Especially useful in all oil and service stations and equally convenient for regular garage use.

Contents.

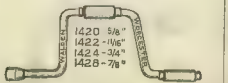
1 No. A-1124 Tee Handle, having 4-inch shank with cross bar, for use with sockets and plugs.
7 Hexagon Sockets, 1/2, 3/4, 15/16, 1, 1-1/16, 1-1/8 and 1-1/4 inches.
9 Square Sockets, 5/16, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4 and 13/16 inches.
8 Plugs, 5/16, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16 and 3/4 inches.

Each

No. A-21—Drain Plug Service Sets; containing handle and 24 sockets and plugs as listed above, in steel box, size 10⅝x5⅝x1⅜ inches; weight, 8¼ lbs. $9.00

RIM WRENCHES.

WALDEN.



Substantially made rim wrench in individual sizes; length, 16⅛ inches.

Each

No. A-1420—Rim Wrenches; socket size, 5/8 inches; weight, 1⅛ lbs. $1.25
No. A-1422—Rim Wrenches; socket size, 11/16 inches; weight, 1⅛ lbs. 1.25
No. A-1424—Rim Wrenches; socket size, 3/4 inches; weight, 1⅛ lbs. 1.25
No. A-1428—Rim Wrenches; socket size, 7/8 inches; weight, 2 lbs. 1.25

WALDEN.

A new heavy duty four socket rim wrench, made of heavy stock and with a longer sweep, with solid steel grip on end and a steel grip in center.

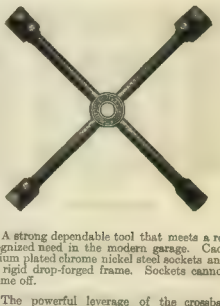
Can be used either as a speed wrench or as an offset. If used as an offset it is an ideal wrench for badly rusted nuts or for final tightening, because its construction allows the swinging of the handle at any angle in either direction without removing the socket from the nut.

Individual sockets can easily be replaced.

Each

No. A-1453—Rim Wrenches; socket sizes, 5/8, 11/16, 3/4 and 7/8 inches; weight, 3¼ lbs. $3.50

FOUR-WAY.



A strong dependable tool that meets a recognized need in the modern garage. Cadmium plated chrome nickel steel sockets and a rigid drop-forged frame. Sockets cannot come off.

The powerful leverage of the crossbar quickly loosens nuts that are "frozen," while the power back of this double leverage insures a tight bring-up with little effort.

The weight of this wrench is nicely balanced, so that nuts readily spin off after loosening. Sockets are deeply broached to take a sure hold on the acorn nuts of disc and wire wheels without slipping.

Fitted with four different size sockets to take care of the rim nuts of practically all cars.

Each

No. A-1444—Socket Wrenches; four sockets; size of sockets, 5/8, 11/16, 3/4 and 7/8 inch. $2.50

SOCKET WRENCHES.

WALDEN.

SINGLE END.

Each

No. A-494—Socket Wrenches; socket size, 1/2 inch; length over all, 5 1/16 inches; weight, 3 ozs..... $0.50

Each

No. A-499—Socket Wrenches; socket size, 1/2 inch; length over all, 5 1/16 inches; weight, 3 ozs..... $0.50

Meets a demand for an improved type of heavy duty offset wrenches. The sockets are so designed as to provide a reasonable depth of clearance for places where the bolt may extend through the nut. The outside diameter of the socket is held down as far as practical to permit of the greatest possible clearance in operation.

Socket Wrenches	Socket Size Ins.	Handles Ins.	Length Socket Ins.	Clearance Handle Ins.	Each

DOUBLE END.

This wrench takes care of main bearing on all Chevrolet cars; 7/8 inch end for models previous to 1924; 1 1/16 inch end for all later models.

Each

No. A-385C—Socket Wrenches; socket sizes, 7/8 and 1 1/16 inch; length over all, 15 inches; weight, 1 5/8 lbs.... $3.00

Each

No. A-2418—Socket Wrenches; socket sizes, 7/8 and 3/4 inch; length over all, 9 7/16 inches; weight, 1 lb.... $0.90

DOUBLE END.

Each

No. A-1620—Socket Wrenches; socket sizes, 1/2, 5/8 and 3/4 inch; length over all, 9 1/2 inches; weight, 7/8 lbs.... $0.35

Each

No. A-444—Socket Wrenches; socket sizes, 7/16, 1/2 and 5/8 inch; length over all, 9 1/16 inches; weight, 15 ozs.... $0.90

Each

No. A-5660—Socket Wrenches; socket sizes, 11/32, 7/16 and 1/2 inch; length over all, 10 1/2 inches; weight, 1 3/4 lbs..... $1.20

Each

No. A-393—Socket Wrenches; socket sizes, 3/4, 25/32, 1 1/16 and 1 1/8 inch; length over all, 10 3/4 inches; weight, 2 lbs.... $1.80

L. TYPE.

Each

No. A-394—Socket Wrenches; socket sizes, 5/8 and 7/8 inch; shanks, length 8x8 inches; weight, 1 3/4 lbs..... $0.90

EE HANDLE TYPE.

Made with 6-inch handles and 12-inch shanks.

Socket Wrenches	Socket, Ins.	Weight, Lbs.	Each
A-2716	1/2	1 3/4	$0.65
A-2718	9/16	1 3/4	.65

A-2722	11/16	1 3/4	.65
A-2724	3/4	1 3/4	.65

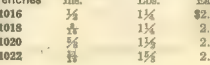
A tool with all the rugged reliability and serviceability of a tee handle socket wrench of rigid type with the added advantage of a universal joint, built integral with the tool.

Can be operated in difficult and seemingly impossible places; on such work as taking off cylinder to base bolts, removing manifold (certain cars), removing body bolts, removing oil pan (certain cars), brake support, etc.

Length over all, all numbers, 12 3/4 inches.

Socket Wrenches	Socket, Ins.	Weight, Lbs.	Each
A-1016	1/2	1 1/4	$2.25
A-1018	9/16	1 1/4	2.25
A-1020	5/8	1 1/4	2.25
A-1022	11/16	1 1/4	2.25

SPEED BRACE TYPE.



Long shank brace socket wrenches are used as speed tools in assembling and dismantling cars. Are most efficient when used on a series of the same sizes nuts as on cylinder heads.

Length of shank, 10 3/4 inches; length over all, 19 inches.

Socket Wrenches	Socket, Ins.	Weight, Lbs.	Each
A-6016	1/2	1 1/4	$1.00
A-6018	9/16	1 1/4	1.00
A-6020	5/8	1 1/4	1.00
A-6022	11/16	1 1/4	1.00

WALDEN.

FOR CARBURETOR FLANGE AND GENERATOR.

The $\frac{3}{8}$ inch hex. end is properly designed to reach both flange bolt nuts with carburetor and intake manifold in place on motor. It allows carburetor flange bolts to be tightened in place or the carburetor to be taken off or put on without disturbing intake manifold.

The $\frac{5}{8}$ end for generator gives sufficient length of shank to clear breather pipe and commutator. The other end is so designed that the end will clear both radiator shell and fan, thus permitting the generator cap screws to be tightened with ease and convenience.

Each

No. A-771—Socket Wrenches; socket sizes, $\frac{3}{8}$ and $\frac{5}{8}$ inches; length over all, 9$\frac{1}{2}$ inches; weight, 1 lb..... $0.80

FOR CONNECTING ROD SWIVEL.

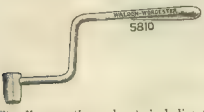
An innovation in socket wrenches for reaching the fourth connecting rod. The swivel action of the socket on the handle allows the use of the handle at many different angles.

Also useful for both inlet and outlet water cylinder connection cap screws.

Each

No. A-774—Socket Wrenches; socket size, $\frac{5}{8}$ inch; length over all, 13$\frac{3}{4}$ inches; weight, 1$\frac{1}{4}$ lbs..... $1.25

FOR CONNECTING ROD.

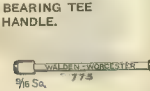


Fits all connecting rod nuts including the fourth connecting rod.

Each

No. A-5810 Socket Wrenches; socket size, $\frac{5}{8}$ inch; length over all, 10$\frac{7}{8}$ inches; weight, 1 lb..... $0.65

MAIN BEARING TEE HANDLE.



This wrench is so designed that it may be used on the center main bearing with the motor assembled and on the front main bearing when the motor is out.

Each

No. A-773—Socket Wrenches; socket size, $\frac{7}{16}$ inch; length over all, 10 inches; weight, 1$\frac{1}{2}$ lbs..... $1.50

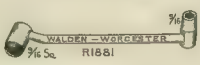
RATCHET.

Used on Ford brake and transmission bands.

Each

No. A-R4564—Wrenches; $\frac{1}{2}$ inch hexagon opening; length over all, 6$\frac{3}{4}$ inches; weight, $\frac{1}{4}$ lb $0.60

DOUBLE END OFFSET.



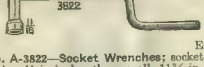
Used on front main bearing, center main bearing, wrist pin clamp screw, running board bracket, running board to fenders, front spring clamp bolt center.

The $\frac{7}{16}$ inch square socket on this wrench, redesigned to take both the center and front main bearing on the Ford car. The socket has been so put as to enable the operator to get a good grip without hurting hand when setting up tight. The $\frac{7}{16}$ inch hex. socket on the other end has a very thin wall for clearance and is intended for wrist pin use only. It is not heavy enough for general use.

Each

No. A-R1881—Socket Wrenches; socket sizes, $\frac{7}{16}$ hex. and $\frac{7}{16}$ inch square; length over all, 9$\frac{1}{2}$ inches; weight, 1 lb.. $1.20

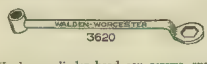
FOR FLY WHEEL CAP SCREWS.



Each

No. A-3822—Socket Wrenches; socket size, $\frac{11}{16}$ inch; length over all, 11$\frac{3}{4}$ inches; weight, $\frac{3}{4}$ lbs..... $0.70

FOR SPARK PLUGS AND CYLINDER HEADS.



Used on cylinder head cap screws, spark plugs, water cylinder inlet, water cylinder outlet, differential oil plug drain, transmission drain plug.

Each

No. A-3620—Socket Wrenches; socket sizes, $\frac{7}{8}$ and $\frac{5}{8}$ inches; length over all, 11 inches; weight, 1 lb..... $0.85

MAIN BEARING.

An offset wrench with swivel action and two sockets, $\frac{7}{8}$ inch square and $\frac{3}{4}$ inch double broached, which permits its being used on the front, center or rear main bearing without taking the motor out.

The $\frac{7}{8}$ inch sq. socket is designed for use on the front and center main bearings while the $\frac{3}{4}$ inch double broached socket will reach the rear main bearing.

This one wrench, therefore, will reach all main bearings.

Each

No. A-01824—Socket Wrenches; socket sizes, $\frac{7}{8}$ inch square and $\frac{3}{4}$ inch double broached; length over all, 12 inches; weight, 1$\frac{1}{2}$ lbs..... $1.75

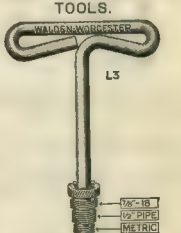
SHORT SHANK SPEEDER.

Used on crank case lower cover, differential drive gear, muffler bolt, rear axle housing bolt and nut, steering tube flange nut.

Each

No. A-6064—Socket Wrenches; socket size, $\frac{1}{2}$ inch; length of shank, 8 inches; length over all, 13$\frac{1}{2}$ inches; weight, 1$\frac{1}{4}$ lbs..... $0.85

CYLINDER HEAD LIFTING TOOLS.



A tool which enables the user to lift the cylinder head from the block without damage to gaskets or surrounding parts.

Although used and sold in pairs, there is just one size with three different threads, metric, $\frac{1}{2}$ inch pipe and $\frac{1}{2}$ inch—18, which will fit all spark plug holes.

To use, take out spark plugs and screw the lifting tool into the spark plug opening. The ratchet action enables one to do this easily and also, in tightening, to avoid obstructions in the way of the handle by changing from one slot to another.

Each

No. A-L3—Cylinder Head Lifting Tools; shank, 6$\frac{3}{4}$ inches; handle, 5 inches; weight, 1 lb..... $1.50

TONE ARMS

Throw Back Style—Die Cast

	Each
No. M1A—Throw Back Tone Arms, 8½ inch, for Portable; Made with the Popular Pivot Base and Ball Bearing Swinging Elbow. One in a Carton	$3 00
No. M4—Throw Back Tone Arm, 8½ inch, Ball Bearing; This Tone Arm in a Black and Nickel Finish is the Ideal Tone Arm for Console and High Class Upright Machines. One in a Carton	5.00
No. M6—Throw Back Tone Arm, 8½ inch and 9 inch; Ball Bearing, No Soldered Joints; This is a Very Popular Tone Arm; Used Very Extensively by Many Phonograph Manufacturers; This is the Tone Arm We are Using on Our U Models, Illustrated on Page 2581; Equipped with Universal Reproducer to Play All Records. One in a Carton	4.00
No. M8—Throw Back Tone Arm, 8½ inch; Ball Bearing; S Shape.	5.00

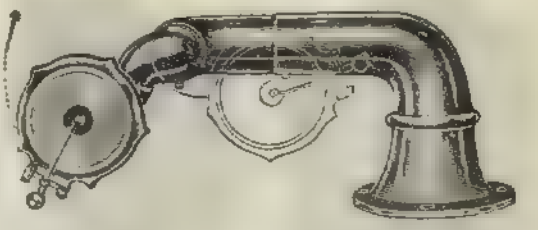
TONE ARMS

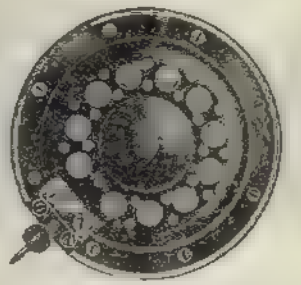
Throw Back Style—Die Cast



Straight Style Die Cast Tone Arms; Universal Reproducer to Play All Records; Composition Diaphragm; Length from Needle Point to Center of Base, 7 inches.

	Each
No. 5095—Nickel Plated; Weight Each, 1½ lbs. One in a Carton	$7 20

SYMPHONIC REPRODUCERS



A Better Reproducer That When Attached to a Phonograph Will Bring Out Every Detail on the New Electrical Records and Greatly Improve the Results Obtained From Old Type Records. It Enables the Old Type Phonograph to Embrace the Entire Musical Register.

No. 82 and Others

For Harmographs Equipped With No. M64 Tone Arm, Victor, Pal, DeLuxe and Sonora Equipped with Metal Tone Arm.

	Each
No. 1VN—Nickel Plated	$8.00
No. 1VG—Gold Plated	10.00

For Harmographs Equipped With No. 97/2N Tone Arm, Brunswick and Cheney Extra Attachments are Needed.

	Each
No. 97AN—Attachment for Harmograph No. 97/2 Tone Arm, Nickel Plated.	$2.00
No. 97AG—Attachment for Harmograph No. 97/2G Tone Arm, Gold Plated.	3 00
No. BAN—Attachment for Brunswick, Nickel Plated.	2.40
No. CAN—Attachment for Cheney, Nickel Plated	1.00
No. CAG—Attachment for Cheney, Gold Plated.	1.50

For Columbia Phonographs, No Attachment Needed.

	Each
No. 2CN—Reproducer, Nickel Plated.	$3 00

In Order to Attach the Symphonic Reproducer to Some Machines, a New Tone Arm is Needed.

	Each
No. M8—Tone Arm, without Reproducer; Nickel Plated.	$4.00
No. 97G—Tone Arm, without Reproducer; Gold Plated. One in a Carton	9.00

GOOD LUCK

Made of the Best Hardened Tempered Round-Edged Steel Obtainable and are Manufactured According to Specifications of the Original Motor.

FOR VICTOR

No. 12—1 in. x .022 x 9½ ft. for Victor No. 1—1, Bent Arbor and Pear Shape Hole End.

In Lots of	12	25	50	100
Each	$1 15	1.10	1 00	.95

No. 67—1 in. x .020 x 13 ft. Pear Shape, Punch Hole at Both Ends for Old Type Victor Machines Nos. 4, 6 and 8.

In Lots of	12	25	50	100
Each	$1 05	1.00	.95	.90

No. 68—1 in. x .020 x 15 ft. Bent Arbor Pear Shape Punch Hole at Outer End for "A" Type Victor Machines Nos. 4, 6 and 8.

In Lots of	12	25	50	100
Each	$1.20	1.15	1.05	1.00

No. 92—1 in. x .020 x 15 ft. Pear Shape Punch, Holes on Both Ends for Small Victor Machines.

In Lots of	12	25	50	100
Each	$1 05	1.00	.95	.90

No. 93—1 in. x .020 x 15 ft. Bent Arbor and Bent Ends for Victrola 4A and Portable.

In Lots of	12	25	50	100
Each	$1 20	1 15	1 05	1 00

No. 94—1¼ in. x .022 x 9 ft. Bent Arbor and Bent Ends for Victor Nos. 6A and 8A.

In Lots of	12	25	50	100
Each	$1.05	1.00	.90	.80

No. 72—1¼ in. x .022 x 9 ft. Bent Arbor with Pear Shape Punch Hole Outer End for Victor Machine No. 6.

In Lots of	12	25	50	100
Each	$1 05	1.00	.90	.80

No. 71—1¼ in. x .022 x 12 ft. Bent Arbor with Pear Shape Punch Hole Outer End for "A" Type Victor Machine No. 14 only.

In Lots of	12	25	50	100
Each	$1.30	1.25	1 15	1 05

No. 69—1¼ in. x .022 x 17 ft. Bent Arbor with Pear Shape Punch Hole at Outer End for Victor Machines Nos. 9A, 10A, 11A and 16A.

In Lots of	12	25	50	100
Each	$1.45	1.40	1.30	1 20

No. 70—1¼ in. x .022 x 18 ft. 6 in. Pear Shape Punch Hole at Both Ends for Victor Old Type Machine.

In Lots of	12	25	50	100
Each	$1.55	1.50	1.40	1.30

No. 95—1¼ in. x .022 x 17 ft. Bent Arbor and Bent Up Ends for Victor Machines Nos. 80, 90, 100 and 120. For Orthophonic-Granada, Credenza and Alhambra Models.

In Lots of	12	25	50	100
Each	$1 45	1 40	1.30	1 20

No. 13—1¼ in. x .022 x 17 ft. for Old Type Victors and Horn Machines.

In Lots of	12	25	50	100
Each	$1 45	1.40	1 30	1 20

No. 15—1¼ in. x .022 x 12 ft. for Victor Nos. 14A, Orthophonic Consolette and Colony Models. Bent Arbor and Bent Up Ends.

In Lots of	12	25	50	100
Each	$1.20	1.15	1.15	1.10

GOOD LUCK

Made of the Best Hardened Tempered Round Edge Steel Obtainable and are Manufactured According to Specifications of the Original Motor.

FOR SONORA AND BRUNSWICK

No. 20—1¼ in. x .025 x 18 ft. for Sonora and Brunswick Portable, Pear Shape Holes.

In Lots of	12	25	50	100
Each	$1 95	1 90	1.80	1 70

No. 78—¾ in. x .025 x 9 ft. 6 in. with Pear Shape Punch Hole for Sonora, Portables and Swiss Motors.

In Lots of	12	25	50	100
Each	$0 70	.65	.60	.60

No. 79—1 in. x .025 x 12 ft. Oblong Punch Hole for Sonora, Thomas Perkins and Stradivaria.

In Lots of	12	25	50	100
Each	$1 00	.95	.90	.90

No. 91—1 in. x .025 x 17 ft. Oblong Punch Hole at Both Ends for Sonora 30S and GGS Motors.

In Lots of	12	25	50	100
Each	$1 55	1 50	1 45	1 35

No. 87—1 in. x .025 x 18 ft. Pear Shape and Oblong Punch Holes on Outer End for New Type Brunswick Motors.

In Lots of	12	25	50	100
Each	$1 60	1 55	1.50	1 40

No. 36—1 in. x .025 x 15 ft. 9 in. Square Punch Hole at Both Ends, for Sonora 3 0S

In Lots of	12	25	50	100
Each	$1 40	1.35	1.30	1.20

FOR SAAL AND KRASBERG

No. 27—1⅛ in. x .025 x 14 ft. 6 in. Pear Shape Inner Hole, Oblong Hole Outer End for Krasco.

In Lots of	12	25	50	100
Each	$1.70	1 60	1.55	1 50

No. 64—1 in. x .028 x 10 ft. Oblong Punch Hole for Saal, Krasberg, Silvertone, Brunswick and Thomas Portophone.

In Lots of	12	25	50	100
Each	$0 95	.90	.85	.80

No. 77—1 in. x .025 x 13 ft. Oblong Punch Hole for Saal, World, Silvertone, Crown, Adler Royal, Pooley and Crescent.

In Lots of	12	25	50	100
Each	$1 30	1.20	1.10	1.05

No. 65—1 in. x .025 x 16 ft. with Oblong Punch Hole for Krasberg, Saal, Thomas, Silvertone, Pooley Harmona, Stephenson and Vater Royal

In Lots of	12	25	50	100
Each	$1.40	1.35	1.30	1.20

FOR MEISSELBACH

No. 57—⅞ in. x .022 x 10 ft. Narrow Oblong Punch Hole for Meisselbach Motors Nos. 9 and 10, also for Wonder and Blick Machines.

In Lots of	12	25	50	100
Each	$0 90	.86	.82	.80

No. 89—⅞ in. x .027 x 10 ft. Pear Shape Punch Hole for Meisselbach No. 14 Motor Only.

In Lots of	12	25	50	100
Each	$0 90	.86	.82	80

No. 59—1 in. x .025 x 9 ft. Narrow Oblong Punch Hole for Meisselbach Motor No. 12.

In Lots of	12	25	50	100
Each	$0.95	.90	.85	.80

No. 60—1 in. x .025 x 16 ft. Narrow Oblong Punch Hole for Meisselbach Motors No. 16, 17 and 19.

In Lots of	12	25	50	100
Each	$1.40	1.35	1.30	1.20

No. 90—2 in. x .022 x 14 ft. Oblong Punch Hole for No. 18 Meisselbach Motor Only.

In Lots of	12	25	50	100
Each	$3.20	3.10	3.00	2 90

Made of the Best Hardened Tempered Round-Edged Steel Obtainable and are Manufactured According to Specifications of the Original Motor.

FOR HEINEMAN AND OTHER MOTORS

No. 54—¾ in. x .022 x 10 ft. with Pear Shape Punch Hole for Heineman, Gramophone, Pathe, Markel and Universal Motors.

In Lots of	12	25	50	100
Each	$0 70	.65	.60	.60

No. 48—25/32 in. x .025 x 10 ft. with Pear Shape Punch Hole for Heineman No. 32 and 36 and Aeolian Vocalion Motors.

In Lots of	12	25	50	100
Each	$0 80	.75	.70	.70

No. 53—⅞ in. x .022 x 10 ft. with Pear Shape Punch Hole for Heineman, Pathe, Sonora and Stewart Motors.

In Lots of	12	25	50	100
Each	$0 90	.85	.80	.80

No. 62—1 in. x .025 x 12 ft. with Pear Shape Punch Hole for Heineman Nos. 33 and 77, Pathe, Emerson and Vitanola, also Meisselbach 16A, 17A and 19A Motors.

In Lots of	12	25	50	100
Each	$1 05	1.00	.95	.90

No. 63—1 3/16 in. x .026 x 16 ft. with Pear Shape Punch Hole for Heineman, Brooks, Automatic, Pathe and Rex Machines.

In Lots of	12	25	50	100
Each	$1.70	1.70	1.60	1.55

FOR UNITED

No. 43—1 in. x .028 x 9 ft. Pear Shape Punch Hole for United Motor No. 5

In Lots of	12	25	50	100
Each	$1 20	1.10	1 00	90

No. 42—1 in. x 028 x 14 ft. Pear Shape Punch Hole for United Motor No. 6 and No. 7-2-S.

In Lots of	12	25	50	100
Each	$1.50	1.40	1.30	1.20

No. 41—1 1/16 in. x .030 x 18 ft. Pear Shape Punch Hole for United Motor No. 7-2-L and 7-3.

In Lots of	12	25	50	100
Each	$2.00	1.90	1 80	1.70

No. 35—1 in. x .028 x 18 ft. Pear Shape Punch Hole for Large Type United Motors.

In Lots of	12	25	50	100
Each	$1.70	1.65	1 60	1.55

FOR AEOLIAN

No. 33—1⅝ in. x .028 x 14 ft. Pear Shape Holes on Both Ends for Swiss Aeolians and Musola.

In Lots of	12	25	50	100
Each	$2.40	2.30	2.20	2.10

No. 44—1 in. x .020 x 15 ft. Pear Shape Punch Hole for 2A.

In Lots of	12	25	50	100
Each	$1.20	1.15	1.10	1.00

No. 45—1 in. x .020 x 12 ft. Large Pear Shape Punch Hole on Both Ends for Aeolian Vocalian.

In Lots of	12	50	50	100
Each	$1.05	1.00	.95	[illegible]

COLEMAN AIR-O-GAS PRESSURE STOVES

1928 MODELS

No. W322R

Air-O-Gas Range is a handsome white vitreous enamel stove. It has a four-burner cooking top 20x20 in. in size; a large and roomy built-in oven, lined with blue vitreous enamel, an oven door equipped with heat indicator; a large broiler with door beneath oven, and a large service drawer 20 in. wide by 20 in. long and 6¼ in. deep below burners.

Equipped with new Coleman instant match-lighting Hot-blast preheater that generates stove to full cooking heat in two minutes or less. One generator supplies gas to all four burners which light immediately with matches. Oven and broiler are equipped with a separate burner which operates independently of other burners.

One-gallon fuel tank has a gray Duco finish and is equipped with hand operated filler plug, built-in air pump, combination air and fuel gauge and fuel control valves.

Height over all 48¾ in., depth over all 28 in., width over all 45 in., height to cooking top 32 in., depth of mantle shelf 8 in., inside width of oven 16 in., inside depth of oven 19½ in., inside height of oven 14 in., shipping w't 240 lbs.

No. W322R—Right Hand Oven.....each $168.85

No. W322L—Left Hand Oven.....each 168.85

No. M329

A four-burner stove with all four burners in line, large built-in low cabinet high back and mantel shelf. Handsomely finished in baked French Gray enamel with baked black Japan Cooking Top. Regular Air-O-Gas burner and tank equipment. Height 56 in., width 50¾ in., depth 19¾ in., cooking height 31½ in.

No. WV3—Vitreous Enamel Splasher, for three-burner stove, shipping w't 35 lbs. .....each $15.55

Hibbard PRESSURE KEROGAS RANGES

Make their own gas from gasoline and burn with an intensely hot flame, cleanly and economically.

After pressure has been supplied to the tank, the generator burner is lit. There is no holding of a match under the lighter to preheat with the consequent risk of burnt fingers, no needle point to clog up with carbon, no priming torch, cup or similar device is used. After the safety lighter is lit about 1 to 1½ minutes the master burner valve is opened and the stove is ready for operation.

Stoves and ranges equipped with pressure tank, air tight and leak-proof. Built-in air space in tank prevents overfilling. Tank fitted with both volume and pressure gauges. Separate five and ten gallon capacity tanks with pump for outside installation and necessary tubing can be supplied. Built-on pump. Each burner has individual control.

Porcelain enameled in white and gray. Porcelain enameled oven, broiler and door linings, burner tray broiler pan and end shelf. Glass oven door. Oven thermometer. Service drawer.

No. W947R

4 top cooking burners—oven burner. Oven 18×14×20 in., broiler 18×9×20 in., cooking height 34½ in., cooking top 21½×21 in., end shelf 31 in., shipping w't 270 lbs.

Waltham Railroad Watches will pass the inspection of any railroad in the world. At Waltham they are subjected to the most exacting tests known to watchmakers. Over a period of sixty days they are adjusted to extremes of temperature, also in each position that a watch can be subjected to in railroad service.
The first Watches designed specially for Railroad Service were made by Waltham. Waltham Railroad Watches are standard on all of the leading railroads of the world. Representing highest achievements in horology, they are preferred for their recognized dependability, economy, and durability. Cases of exclusive and unusual design with Special Heavy Bow and Dust-proof Crown.

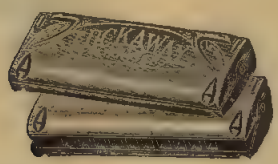
GENUINE HOHNER "TUCKAWAY" HARMONICAS

Something Entirely Different

The new Hohner "Tuckaway" Harmonicas are the only models which provide a complete casing, protecting the plates and reeds against dust and dirt. Of outstanding merit is a unique invention which permits the covers of the instrument to form a complete housing for the Harmonica itself. A slight pressure of the covers automatically brings the instrument into playing position. By the same operation it is dropped into its original place, completely encased, free from dust and dirt.

The novel and practical value of the Hohner "Tuckaway" Harmonicas, will be quickly appreciated by all players and are certain to be in great demand.



No. C777—Tuckaway, length 4 in., 10 single holes, 20 reeds, brass plates, extra heavy nickel plated covers attractively die-stamped and etched. An exclusive, durable and practical Harmonica that is totally different, per dozen $12.75

GENUINE HOHNER HARMONICAS

HOHNER'S CHROMATIC is the last word in the development of the mouth-organ. It is a very important invention as it releases the Harmonica from the field of melodies written in the major scales into the realm of musical masterpieces by the world's greatest composers.

This remarkable instrument has been used in some of the largest theaters in the country with great success. The Hohner Chromatic harmonica by a slight manipulation of a lever, provides a sharp or flat of unfailing accuracy. This important feature places the Hohner Chromatic Harmonica on a par with the leading instruments.

It is simple in its construction and manipulation. No knowledge of music or notes is is required to perform on it.

The Chromatic Harmonica consists of two scales, "C" and "C#" Supplies all the missing half tones not found on the regular type harmonica.

No. C260—Hohner's Chromatic, length 4⅝ in., 10 holes, 40 perfectly tuned reeds, brass plates, heavy convex nickel plated covers, fitted with patented wind-saving device and slide permitting player to obtain the half notes instantaneously; each instrument in a fine wooden box with imitation black leather covering, per dozen $46.65

HALF DOZEN IN A CARTON

The Hohner collapsible display cabinet is one of the handsomest and most practical harmonica displays that has ever been devised. It sells harmonicas. Comprises 3 trays of the best seasoned wood so ingeniously arranged and constructed as to permit the opening and closing of the entire cabinet in a moment's time.

The cabinet is elaborately finished in a rich dark mahogany, piano polish with attractive lettering on the cover.

The cabinet when open displays the entire contents of 88 harmonicas at one time, when closed resembles a handsome jewel case and occupies less than a square foot of space. Will increase your harmonica sales 100%.

No. C400 Assortment—Consists of:

22	Harmonicas	to retail at $0.50 each	$11.00
6	Harmonicas	to retail at .60 each	3.60
10	Harmonicas	to retail at .75 each	7.50
		Total retail value	$22.10

Per assortment $32.75

ONE ASSORTMENT IN A BOX

Hohners revolving display stand is built of thoroughly seasoned wood of ⅞ in. thickness, obelisical in shape, mounted on a metal disc connected by the means of a cylindrical bar to a set of durably constructed clockworks of sufficient strength to revolve the obelisk for over 8½ hours with one winding.

The entire stand is finished in a deep rich mahogany piano polish with very attractive silver pressings and having the number and retail price of each harmonica stenciled in a neat design on obelisk.

Measures 32 in. high, by 10⅝ in. square at base, and 6¾ in. square at the top. Stand displays 36 assorted genuine Hohner Harmonicas, fastened by means of steel spring clamps.

Each instrument is an excellent seller.

No. C600 Assortment—Consists of

16	assorted Harmonicas to retail at	$0.50 each	$8.00

Bicycles and Bicycle Sundries

Although this is aptly described as the Motor Age and power vehicles greatly predominate in all modes of transportation, the Bicycle has its well established place and the demand for it steadily increases.

From the earliest introduction of the Bicycle, the Shapleigh House has held its leadership in their distribution.

Rugby Bicycles, because of the sturdiness of their construction, symmetry of lines and beauty of finish, are widely recognized as the finest and most satisfactory in point of service, to be had at any price in any market.

Shapleigh Special Bicycles, slightly less in price, are nevertheless entitled to the splendid reputation their excellent qualities have earned

This Catalog illustrates and describes a complete line of Bicycles and Sundries, nothing of proven worth is omitted. Moderate prices prevail throughout. Orders are handled accurately and efficiently.

Supplementing the Bicycle line is a large variety of Wheel Goods, consisting of Boys' Wagons, Juvenile Automobiles, Hand Cars, Park Cycles, Velocipedes, Scooters, Pedal Bikes, in all desirable styles and grades, at prices which yield the Dealer excellent profits.

Orders through our salesmen or by mail, are cordially solicited and will receive that prompt and careful attention which distinguishes Shapleigh Service
